Subject:	SEOC Update 1/26/16 - Flint Water - Limited Distribution
Attachments:	20160126_1700_Parcels_Contacted.pdf; 20160126_1700_Parcels_Filter_Status.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 21 2016-01-....pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as

7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
    a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
    *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
        *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – *Phase II questions were developed to help clean this up.*

Local EOC

- *Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.*
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- *Planning for a transition of operational control to local level.*
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- *Receive, store, and increase quantities of supplies.*
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- *Prepare appeal on denial of Category B under the Presidential Emergency Declaration.*
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.

- The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers

b. ~45,000 hookups (This is our high end target #)
c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. *Filter Cartridges 285,586*
   d. Test kits 62,701

   * Numbers have not been updated due to the following circumstances:
   - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
   - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
   - *At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.*
5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
   a. Phase II: 37,844
   b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs: 60
      ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
   a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:***
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
   a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for *elevated blood levels (kids, adults, total):***
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. *1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.*

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- *Situation Report # 19*
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission.
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.

11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- *Increase efficiency of warehouse operations*
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 15 National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. *Teams going out tomorrow:*
    a. lational Guard State ype 3 teams—Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. *17,595 homes had filters, per entered GIS data as of 1/22/2016,*
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local) type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404

b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State ype 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)

- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. *Teams going out tomorrow:*
    a. 3 National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.

• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed) state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. 8 *National Guard* *type 3 teams---Goal tomorrow 300 homes per team*
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- *Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set* up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. *45,000 hookups (This is our high end target #)*
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. *Resources purchased:*
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. *Filter cartridges* 243,200
        d. Test kits 61,161

    5. *Teams going out tomorrow:*
        a. State f type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams - l), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. ! State s) type 3 teams---Goal tomorrow 300 homes per team
   b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers

b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.

- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 1 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. State) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	3417	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	3741			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.

- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs

- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note
- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to <u>supplement</u> State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is <u>beyond the capability the state and affected local governments,</u> and that the state requires <u>supplementary</u> federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

<u>Key items for tomorrow to note are:</u>

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

<u>**Items to Note**</u>

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

- GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. *A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).*
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. *Staffing has been assigned to get a good handle on these to* ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because *DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and* deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and

trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC

- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Chris

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	*01/26/2016 08:00:00*
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	21
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/26/2016 08:00:00
SEOC Hours of Operation End:	*01/26/2016 20:00:00*

Executive Summary

SEOC Update:
Accomplished today (January 26):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

- Logistics:
o Identified alternate way for drivers to communicate Rapid Response orders (radios instead of iPads).
o Processed requests (RRF's) for water from the FEMA staging area.
o Discussions with Target on routine water deliveries.
o Resolved blue pallet issue (company will pick them up from warehouse).
o Researched warehouse options with local EOC, FEMA, and Target.
o Inventory quantity standardization will begin Wednesday, 1/27, inventory will be counted in liters and by "each".
o Requested an optimal warehouse inventory staffing plan.
o Attended a conference call with FEMA inventory and logistics team.
o Secured 2 (DTMB and Belle Tire) out of 3 requested trucks/drivers for Food Bank.
o Working on replacement strategy for (4) broken pallet jacks at PODs.
o Created a table of document translations and printing requests and status.
❑ Reviewed, assigned, investigated, and updated resource requests.

- JIC:
o Released daily distribution data release and map this morning.
o Worked with the SEOC and FEMA to schedule a legislative and Congressional briefing today at 2:30p.

- Recovery Branch:
o Coordinated data entry for ARC paper tracking forms with SEOC and state agency personnel.
o Compiling a list of apartment complexes for targeted outreach. Once the plan is in place a team will go to each complex and verify tenants have received filters and GIS will mark parcel as complete.
o Worked with GIS to acquire addresses for all FWRT responses.
o Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes that we show have not been contacted.
o Continued to work on demobilization of trucks and vans.

o Data is for 1/26/16 as of 5:00 pm:
o Total homes visited:
❑ 3,946 (round 3 total).
❑ 1,350 (today).
o Water Cases:
❑ 1,768 (round 3 total).
❑ 727 (today).
o Replacement cartridges:
❑ 170 (round 3 total).
❑ 170 (today).
o Faucet filters:
❑ 1,201 (round 3 total).
❑ 677 (today).

- Planning Section:
o Published Sit Rep # 21.
o Worked with Resource Unit Leader and Logistics to enhance number tracking.
o Participated in daily conference calls (local, state agency and distribution process meeting).
o Provided burn rate data from PODs and FWRT to FEMA.

- Operations Section:
o MDOT is working with the SEOC on resource redistribution at PODs.
o 74 Red Cross volunteers were active across the operation today.
o 24 Event based volunteers were active on the operation today.

o 58 National Guard on ground today.

o Warehouse Numbers as of 1800:
❑ Water (cases):
• 57,312.
❑ Filters (faucet):
• 39,501.
❑ Replacement cartridges:
• 118,597.
❑ Filters (pitcher):
• 2,778.
❑ Test Kits (prepped):
• 48.
❑ Test kits (un-prepped):
• 0 (all supplies out to ARC for assembly).

o PODs (1700 1/25 – 1600 1/26).
❑ Water (cases).
• 9,464.
❑ Filters (faucet).
• 576.
❑ Replacement cartridges.
• 767.
❑ Filters (pitcher).
• 10.
❑ Test kits.
• 437.

• Finance Section:
• Update the spend plan with updated state agency costs.
• Had discussions with Genesee County Controller to discuss the requested Category B costs.
• Reviewed warehouse packing slips to provide Home Depot documentation to DHHS.
• Attending meeting at MSP HQ to discuss procurement processes and approvals.

• GIS Branch Updates:
• Coordinated with DEQ on building lead service line data for mapping.
• Worked to geocoding outstanding data collected in the field.
• Produced Zip code map for Flint and surrounding municipalities for DHHS.
• Produced updated map to assist with team assignments for tomorrow.
• Reloaded priority population data sets.
• Updated the City of Flint parcel map to include parcels outside city limits that purchase water from the city.

DTMB:
• Worked with the Department of Corrections today to coordinate state assets for continued support of operations tomorrow.
• Worked with logistics to return rented vehicles and consolidate resources.
• Secured additional space in the Flint state office building for federal partners.

DHHS-CH:
• Disaster Behavioral Health planning is being worked on by SAMHSA.
• Federal agency unified coordination center is being setup in the next two days.

DEQ:
• Updated water data sent to GIS and JIC for dissemination and publishing.
• Coordinated sampling teams with the EPA and DEQ.

Local EOC Update:
• Delivered iPad's to warehouse and provided on-site training to drivers, followed with written instructions.
• Coordinated today's rapid response deliveries.
• Ongoing resource request coordination with SEOC.
• Facilitated recycling planning meeting and planned for implementation of the program.
• Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations.
• Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
• Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.
• Planning for transition of operational control to local level.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Weather Conditions

Watches/Warnings

Upcoming Forecast
Forecast Update for Flint, MI - January 26
- Light snow showers on and off today (January 26) through Wednesday morning (Jan 27). Additional light snow showers early Thursday morning (January 27). No significant snowfall accumulation is expected.
- Breezy through this evening (January 26) as winds will continue to gust to around 30 mph before decreasing tonight.
- High temperatures today (January 26) will remain above 32 through the daylight period but breezy conditions will result in wind chill values in the 20s.
- High temperatures Wednesday (January 27) through Friday (January 29) will stay around 32 before increasing to near 40 on Saturday (January 30).

Risk for frostbite from exposure over the next week is low unless exposure time for the individual is several hours in length with the person engaging in little to no activity.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 26. The JIC was operational

until 10:30 p.m. on Jan. 25.

State agencies at the JIC included the Michigan State Police, Michigan Economic Development Corporation, and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Transportation, and Military and Veterans Affairs. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
• Drafted and issued social media posts about water response teams and sites.
• Provided MDHHS talking points to 2-1-1 about bathing in Flint water. Will also include information in nightly activity news release.
• Worked with DTMB to make digital public information products ADA compliant, including the filter replacement video and www.michigan.gov/flintwater website. ADA issues for www.helpforflint.com were forwarded to the Governor's Office.
• Worked with DTMB to optimize search engine results for www.michigan.gov/flintwater on Google and Bing.
• Reorganized www.michigan.gov/flintwater so citizens can find information easier.
• Media hotline staff answered more than 15 emails and phone calls ranging from lead water testing to undocumented immigrant identification.
• Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with the Gospel Radio Network, MIRS, Associated Press, ABC 12 in Flint and New York Times, Detroit Free Press, WILX-TV, MLive, Al-Jazeera, Michigan Radio, and ATTN.
• Coordinated with FEMA to hold a 2:30 p.m. legislative and congressional conference call.
• Created a media monitoring report and looked for information requiring correction; found none.
• Updated internal talking points about the ongoing Flint water emergency.
• Continued routing public information materials for approval, including communications from MDE, MDHHS and MDARD.
• JIC is planning to issue the nightly activity news release around 7 p.m. Will include information on bathing, recycling and checking on your neighbors.

Agriculture and Rural Development (MDARD)

Tuesday, Jan. 26 - Followed up on whether or not SBA would have low cost loans for pipe replacement; followed up on conference call AID is setting up for Friday with industry partners; food establishment compliance list process has been approved and will be posted on the Flint water website and updated daily. Food establishment assessment totals for today: 34 assessments and 7 water samples collected. Assessment totals completed to date: 165 assessments, 26 water samples collected.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams today.
We provided snacks for event-based volunteers.
The Volunteer Reception Center (VRC) was in full operation today. The VRC is scheduled to be open from 9am to 7pm each day through Friday. The weekend schedule has not yet been set.
We have been assembling water test kits again today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Provided contact information for community group to provide additional water filter data to GIS. Shared additional Flint demographic data with staff from the American Community Survey. Today Governor Snyder signed Executive Order 2016-3 transferring the ethnic commissions – the Hispanic/Latino Commission of Michigan (HLC), the Michigan Asian Pacific American Affairs Commission (MAPAAC), and the Commission on Middle Eastern American Affairs (CMEAA) - from MDCR to the Department of Licensing and Regulatory Affairs (LARA). Each commission will continue working to enhance economic opportunity, prevent discrimination and encourage cultural awareness. LARA is the home of the Office of New Americans, and the move will help streamline the human resources and budgetary functions of each commission. The transfer will take effect in 60 days.

Community Health (MDCH)

The CHECC remains activated at Level 2, and a phone bank is staffed at the CHECC from 0800 - 1700 daily to support the Genesee County Health Department by answering health-related questions that 2-1-1 cannot answer. In summary, as of January 26, the CHECC hotline had received a total of ninety calls since initial activation on Friday, January 15. Of these calls, twenty-three had been referred to personnel assigned to the CHECC Epidemiology Desk. Furthermore, the CHECC hotline received and facilitated five requests for rapid response team deployment. Common questions/issues directed to the hotline focused largely on lead testing and bathing considerations, noted on the table below.

The CHECC continues to work on a variety of activities to include Disaster Behavioral Health planning, nutritional planning, coordination with the local health department, development and dissemination of messaging to healthcare providers, and gathering information necessary to support the overall federal response efforts. The CHECC reached over 80,000 healthcare providers using WebMD Medscape, and continues planning efforts to craft messages for various medical specialty providers such as pediatricians and obstetricians.

In support of the Disaster Behavioral Health planning, MDHHS has also facilitated the implementation of the Disaster Distress Hotline that has been made available on the Flint Water website, offering 24/7 anonymous crisis counseling for individuals affected by the incident.

MDHHS has worked with the US DHHS to query emPower data on the medically-dependent individuals residing in the Flint area, to ensure that they are contacted by the Flint Water Response Teams. Their locations have been mapped by GIS and provided to the LEOC for follow-up and rapid response deliveries.

MDHHS leadership and CHECC staff continue to meet with federal partners from SAMHSA and HHS/CDC today to discuss technical assistance and federal activities. Michigan's HHS Regional Coordinator will serve as the Federal Health Coordinating Officer (FHCO) within a Unified Coordination Group (UCG) that will be operational this week in an effort to streamline information and coordinate federal activities. A LNO will be located in the CHECC to serve as the liaison between the UCG and MDHHS.

MDHHS ordered 100 Blood lead level testing kits, and the accompanying ancillary supplies, to be shipped to the Genesee County Health Department in support of their blood lead testing clinics. MDHHS is also working in coordination with Michigan State University to support blood lead testing efforts.

The CHECC maintains ongoing daily correspondence with both the EMCs in the SEOC and the Local Health Department to offer assistance and guidance as necessary.

Corrections (MDOC)

The MDOC continues to operate the warehouse on Clio Rd. The primary mission of the warehouse is to manage the flow of water, kits , etc. to the residents of Flint. To that end, staff in Flint continue to work closely with the MSP and the National Guard to maintain a steady flow of product to the PODS in a timely fashion and other sites as determined by both local EOC and the SEOC. In addition to this mission we continue to deliver the test kits to DEQ for processing, today 564 test kits were delivered to DEQ in Lansing. We also continued the process of delivering loaned vehicles from Penske back to their point of origin.

For today's mission we had the following resource's and personnel on site in Flint:

(17) - MDOC employees

(6) - MDOC - SAI Provided one (1) 6 person work crew

(2) - Passenger vans w/driver

(1)- Regular Cab Pickup w/driver

(1) – F-250 Pickup

(5) – Box Trucks w/driver

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(1) – Warehouse Manager

(1) – Warehouse Security Person w/vehicle

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Education (MDE)

1. MSD reports that LARA has tentatively scheduled Stevens Hall for testing on 5 and 6 February.
2. MSD is coordinating with parents to get their consent forms for Genesee County Health Department blood testing on February 8.
3. MSD reports they have been getting abundant water donations.
4. Marla Moss reports Vista Fletcher, USDA Branch Chief, School Nutrition Programs and Food Distribution, is onsite in Flint.
5. GISD (Dr. Treder) has shared a detailed listing, by school, of students residing in impacted zip codes from Early Childhood-grade 5 students and by age groupings. Work continues in this regard.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Sent updated water data to GIS for mapping and JIC for web-publishing.

Human Services (MDHS)

Talked with MDHHS purchasing director regarding past, in process, and possible future procurements.

Two Genesee Co MDHHS offices continue to be points of distribution for filtration devices.

Genesee Co MDHHS director Mose, was at local EOC today, working with local EM on human service topics.

MDHHS's Michigan Community Service Commission (MCSC) remains heavily active locally with donation management, and volunteer coordination.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Finalizing Health Care Facility survey information and comparison.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23th Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)
    - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
  - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
    - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	**4,966**	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
    a. Cases of water 165,042 (additional 32,234 donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell
        iii. Cyber Mission
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total	Number with filters

	Number	
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
   a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
   a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. *Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351*
      *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. *Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7*
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
       **This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.*

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** *residential parcels* that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** *of the parcels have been confirmed to have some form of filter*
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** *residential parcels that have the ability to use the* Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.

- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:

- As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: **3,946**
3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs
      ii. Command Cell
      iii. Cyber Mission:
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
   a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**

*this data is updated bi-monthly

10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**

        *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:

a. Cases of water 141,982 (additional 24,634 donated)
b. Filters 124,052
c. Filter Cartridges 285,586
d. Test kits 62,701

* Numbers have not been updated due to the following circumstances:
    - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
    - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
    - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).

- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
  - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local

		4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. *1/24/16, as of 5 pm, 11,144 homes were visited today*
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number -- Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed : state/local teams and 40 ARC Flint Water Response Teams to the field today.

- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	*Total to Date*
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a. 276
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- 15 National Guard/State/Local (6-9 folks) type 3 teams

- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed · state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687

c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. ; National Guard State ( ) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)

- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed ` state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.

• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- *Prepare for appeal on denial of Category B under the Presidential Emergency Declaration*

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337
        b. Filters 73,229
        c. Filter cartridges 185,852
        d. Test kits 19,866

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 111,630 (additional 18,502 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard pe 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ( ) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

- We will have ' state/local agency, type 3 teams ( ), with a goal of 300 homes per team.
- We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). *This was explained and we are going to work on messaging to ensure this does not cause issues.* Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State (s) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ;) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- *Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.*
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers

b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.

- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	3741			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.

- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs

- We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
- Notes from the field commander:
  - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
- In the end, there were 394 total home visits with the following breakdowns:
  - 217 Door Hangers
  - 152 Vacant Homes
  - 117 Water Distributions
  - 112 Filters
  - 3 Pitchers
  - 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).

- GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.

- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
  - 12,386 filters
  - 1,985 replacement filters
  - 354 Pitchers
  - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- *JIC Items*
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. *No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you* should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up *replacement filters from Home Depot and deliver.*

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

- Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
- Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
- GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
  - Logistical activities to support church operations.
  - Logistical activities to support fire stations operations.
  - Coordinate Donations Management activities and draft donations management plan
  - Coordinate Volunteer Management activities
  - Identify local storage/staging facilities
  - Overall inventory tracking
  - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and

trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.

- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC

- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08:00:00
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	22
SEOC Status:	Full
SEOC Hours of Operation Begin:	*01/27/2016 08:00:00*
SEOC Hours of Operation End:	01/27/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 27, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
o Ordered radios from MSP Communications for supply truck drivers.
o Processed Requests (RRF's) for water, filters, replacement cartridges, pitchers, and pallet jacks from FEMA.
o Worked with the Michigan Community Service Commission on donations management and volunteers.
o Researched possible warehouse options with the local EOC, FEMA and GM.
o Warehouse inventory will be taken in liters for water and by each unit for other items.
o Requested an optimal warehouse inventory staffing plan for the new warehouse when identified.
o Secured donations of pallet jacks (so far) from American Logistics Aid Network. In discussions for warehouse space, staffing, and equipment.
o Reviewed, assigned, investigated, and updated resource requests.

JIC:
o Press conference held today with the Mayor, Governor, Capt. Kelenske, and others.
o Press releases 19 went out today concerning bathing in water, number of homes visited, and the Governors announcement of a comprehensive plan for flint.

Recovery Branch:
o Coordinated the data entry of the ARC paper tracking forms.
o Coordinated with the SEOC GIS team to identify areas to develop and provide maps that the Red Cross Teams are working on today.
o Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as follow up required.
o Worked with GIS to acquire addresses for water response teams.
o Coordinated daily assignments for the Flint Water Response Teams.
o Compiling a list of apartment complexes for targeted outreach. Once the plan is in place a team will go to each complex and verify tenants have received filters and GIS will mark parcel as complete
o Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters.
o Continued demobilization of trucks and vans.
o City Sections Visited Today: 6, 26, 27, 28, 29, 31
o City Sections Scheduled Tomorrow*: 3, 9, 11, 17, 19, 20, 23

o Data is for 1/27/16 as of 5:00 pm:
o Total homes visited.
❑ 4,966 (round 3 total).
❑ 1,020 (today).
o Water Cases:
❑ 2,534 (round 3 total).
❑ 766 (today).
o Replacement Cartridges:
❑ 343 (round 3 total).
❑ 173 (today).
o Faucet Filters:
❑ 1,877 (round 3 total).
❑ 676 (today).

Planning Section:
o Published Sit Rep # 22.
o Participated in daily SEOC briefings and distribution process conference calls.
o Collected and prepared data for Governor's Office and Senate Appropriations committee meeting.

Operations Section:

o 69 Red Cross volunteers were active across the operation today.
o 40 event based volunteers were active across the operation today.
o Captain Kelenske will be in Flint today at meetings and a press conference.
o Facilitated state agency and local briefing calls.

o Warehouse Numbers as of 1800 (inventory was calculated from 1/26/16 totals and net movement of resources 1/27/16):
- Water (cases):
- 70,369.
- Filters (faucet):
- 42,758.
- Replacement cartridges:
- 159,467.
- Test Kits (prepped):
- 3,689.
- *Test kits (un-prepped):*
- 0 (all supplies out to ARC for assembly).

o PODs (1700 1/26 – 1600 1/27).
- Water (cases):
- 9,381.
- Filters (faucet):
- 440.
- Replacement Cartridges:
- 992.
- Filters (pitcher):
- 351.
- Test kits:
- 353.

Finance Section:
- Provide financial information for Senate Appropriations Committee meeting this afternoon.
- Worked on the SEOC Staffing report.
- *Worked with other state agencies regarding procurement policies and procedures.*
- Reviewed donations as match guidelines for required 25% federal match.

GIS Branch Updates:
- Identified several unique zip codes in the city that do not have a prescribed geographic area that will need to be considered for mass mailings or identifications of addresses.
- Produced new team assignment maps to assist FWRT in targeting parcels that require follow-up.
- *Monitored and cleaned up real time application data from field teams and PODS.*
- Coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
o NOTE: DNR will be providing semi regular updates to GIS on newly identified lead areas and we will consolidate at the end of day for daily status maps
o NOTE: Lead mapping project is projected to be Friday, 29 January 2016.
- Requested updated zip code file be generated by DTMB CSS, update will be provided tomorrow on the status of the feature creation.
- Researched applications of the DTMB master address repository to emergency operations.
- Created map comparing todays planned activities to newly established priority areas.
- *Mapping test results from DEQ, final product should be completed by the morning.*

DTMB:
- Worked with leasing office to secure warehouse space at a closed Kroger site.
- Worked with VTS to develop a plan for demobilization of vans from Flint.
- Worked with DEQ to develop a way to ensure other filtration systems meet the NSF standard.
- Worked with the department of corrections to obtain pallet jacks for the PODs and drivers for the food bank.

DHHS-CH:
- The CHECC met with the State Coordinating Officer from US DHHS. They worked on a plan for support.
- Working to leverage local health volunteers to support this response.
- Local HD has expressed concerns about staffing and we are working on a solution.
- We are working on a health strategy for pregnant mothers.

DEQ:
- Working with the department of corrections to get samples taken to the DEQ laboratory in Lansing.
- Working with DOC and ARC to get bottles transferred to ARC to be made into testing kits.

Local EOC Update:
- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- *Working to implement the recycling program in Flint. Press conference scheduled for 01/28/2016.*
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management through the Michigan Community Service Commission, ARC and other VOADs.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 27. The JIC was operational until 10:30 p.m. on Jan. 26.

State agencies at the JIC included the Michigan State Police, Michigan State Housing Development Authority, and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, Technology, Management and Budget, and Military and Veterans Affairs. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Media hotline staff answered more than 10 emails and phone calls ranging from identification requirements at water resource sites to bathing in Flint water.
- Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with the Detroit News, Thinkprogress.org, CNN, ABC 12, Marketplace and Michigan Radio.
- Assisted the Governor's Office with media check-in for an 11 a.m. press conference at the University of Michigan-Flint's Northbank Center to provide an update about current actions and next steps to address about Flint water. More than 40 members of the media attended the press conference from local, state and national outlets.
- Licensing and Regulatory Affairs and Environmental Quality PIOs attended the first meeting of the Flint Water Interagency Coordinating Committee at the University of Michigan-Flint's Northbank Center.
- Created a media monitoring report and looked for information requiring correction.
- Updated internal talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE, MDHHS and MDARD.
- Issued a news release at 1:15 p.m. to inform the public and news media that bathing in Flint water is safe for children and adults.
- JIC is planning to issue the nightly activity news release around 7 p.m.
- Working on revising the water donation guidelines flyer due to overwhelming demand of water donations.
- Emailed all state agency PIOs to request assistance with staffing the Flint JIC for the next two weeks.
- Coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.

Agriculture and Rural Development (MDARD)

Wednesday, Jan 27 - Resolved issue regarding Flint community schools MDEQ, MLARA, and MDARD. Identified a need for consistent response to sampling results by MDARD, MDEQ, MDHHS (Health) Byron Beerbower or designee will work with agencies to develop plan. Forwarded SBA low cost loan information to MDARD Exec team. Food establishment assessment totals for today: 20 assessments and 0 water samples collected. Assessment totals completed to date: 185 assessments, 26 water samples collected.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Wednesday.
The Volunteer Reception Center (VRC) was in full operation today. The VRC is scheduled to be open from 9am to 7pm each day through Friday. The weekend schedule has not yet been set.
We continued assembling water test kits today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities.

* Advised agencies that 2-1-1 is not accessible to individuals using a pre-paid/minute mobile phone - have requested alternative messaging for the alternative line available 1-844-875-9211

* Reviewed and discussed the "Bathing in Water is Safe" Press Release with MSP-PIO and DHHS-Health regarding language and impact with possible solutions

* Reviewed snopes.com coverage of Flint/CPS/water bills

* Responded to Genesee County Hispanic Latino Collaborative issues and concerns; sent reply to Ops regarding outreach and community fear; ongoing consultation with PIO regarding messaging/web design/ engagement with non-English speaking communities

* Met with Branch and MSP-PIO regarding community engagement where language or trust are key inhibitors to access

* Provided list of area non-profits engaged in stabilization and recovery to FEMA-DHS representative

Community Health (MDCH)

The CHECC remains activated at Level 2, and a phone bank is staffed at the CHECC from 0800 - 1700 daily to support the Genesee County Health Department by answering health-related questions that 2-1-1 cannot answer. The CHECC experienced a low level of calls today.

MDHHS CHECC staff met with the HHS State Coordinator Officer (SCO) regarding what HHS resources will be sent to Michigan, to include a nine person team. The team will consist of the following individuals: Mental Health staff, Sanitarian, Health Educator, Nurse, Nurse Manager, Behavioral Health staff, Risk Communication Developer, and Data Support. The team will be led by a Mental Health professional.

A behavioral health community partners meeting was held at Genesee Health System (GHS) to provide mental and behavioral health agencies and stakeholders the opportunity to identify resources that can leverage behavioral health services, and determine strategies to develop a short, intermediate, and long-term recovery plans. There were sixteen participants in attendance from a variety of disciplines, ranging from faith-based organizations to community health.

Barbara Reynolds, the CDC Senior Advisor for Crisis and Risk Communication on-site in the CHECC held a phone conference call with Dr. Wells (CME) today. Ms. Reynolds will be in Flint on 1/28/2016 to discuss the current situation and help develop appropriate risk communication strategies.

MDHHS Bureau of Epidemiology (BOE) met with CDC subject matter experts to delineate technical assistance needs, including statistician, lead epidemiologist, and a GIS specialist. BOE submitted a draft Flint Blood Test Report reflective through Jan. 22, 2016 to HHS Communications staff. They also submitted the first Daily Blood Count Report to HHS management, along with a drafted response to the Governor's Task Force letter. BOE also held a meeting/conference call with EPA, CDC, GCHD to discuss response to high lead water test results at individual homes or other locations.

MDEQ has asked MDHHS Bureau of Laboratories (BOL) to help with water testing to increase surge capacity. Testing protocols, training, competencies and proficiency testing issues are being addressed. The Kent County Local Health Department and Saginaw County Local Health Department laboratories have offered to help with water testing as well. DEQ has been notified of this offer.

The CHECC is developing a process for the mobilization of health volunteers to integrate with the current local volunteer operations, in order to leverage what is already in place. GCHD expressed concern as to having enough staff to support operations locally.

The CHECC continues to work on outreach materials and messaging targeted at pregnant and nursing mothers.

MDHHS EMC has been working DTMB and the JIC to translate materials into Spanish, that can be provided to the GCHD.

Corrections (MDOC)

(5) Electric Pallet Jacks were ordered and received in the warehouse. (3) Hand Pallet Jacks were distributed to PODS 1, 5,and 6. All PODS have operational pallet jacks. Warehouse operations went well today.

23 Penske Trucks remain as of 1500. (3) are in use by Team Rubicon

588 Water Samples were collected and delivered to the DEQ Lab in Lansing.

MDOC had the following resources operational today.

(12) - MDOC employees

(6) - MDOC SAI prisoners w/Corporal

(1) - Passenger van w/driver

(1)- Regular Cab Pickup w/driver

(1) – F-250 Pickup

(5) – Box Trucks w/driver

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(1) – Warehouse Manager

(1) – Warehouse Security Person w/vehicle

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Tracked test bottle orders and facilitated transport to/from warehouse and American Red Cross Headquarters.

Supported DEQ Emergency Coordination Center establishment and operations.

Human Services (MDHS)

Two Genesee Co MDHHS offices continue to be points of distribution for filtration devices.

Health and Human Services Branch met with LARA & MDEQ, conferenced in Steve Yager MDHHS Children Services Administration (CSA) on water testing of Child Care Institutions(CCI), and licensed foster care homes. CSA will provide list of CCI to LARA and will reference Flint Water website to cross reference foster homes with the intention of identifying if they have received the water and filters they need.

Enter new resource request for a donations management email address. Flintdonations@michigan.gov. This email will need to be associated with one of the iPhones that was previously given to the donations management staff.

Provided Donations Management with a template for additional staff resource request. This information will be useful in obtaining the help they are requesting.

Had meeting with Donations Management and several branches of State and FEMA regarding donation and volunteer management. Going to schedule regular meeting on Wednesday with the group for weekly face to face updates.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Finalizing Health Care Facility survey information and comparison.

-Continue working on translation of documents to various languages. Providing resources.

- Finalizing numbers for faucet project to include facilities regulated by LARA, DHHS and MDE.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2712002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: 1LT Roland, John G. Cell: ' Email: john.g.roland1.mil@mail.mil.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. LT Benke is meeting with local city engineering today in response to traffic signage at the PODs.

b. Yesterday evening Flint City Electricians assessed lighting around the outside areas of the PODs IOT fix lighting issues.

c. There will be a press conference at station #1 on Thursday 28JAN16 including the Governor and Mayor of Flint. All major agencies are sending a representative.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified.

10. LOGISTICS: PODs are short on pallet jacks. Pallet jackets should be arriving from the warehouse to the PODs today.

a. The distribution drives will also transport the broken pallet jacks from the PODs back to the warehouse.

b. (3) dollies/handcarts were delivered to station 3 and (2) dollies/handcarts were delivered to station 5, thus resolving the dolly/handcart issue.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.

product/ideas.
Thirteen minivans that were provided will be transported back to the State Secondary Complex on Friday as they are no longer needed.
Provided FEMA personnel with safety information and floor evacuation maps for the new SEOC facility.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Subject:	SEOC Update 1/28/16 - Flint Water - Limited Distribution
Attachments:	20160128_1700_Parcels_Contacted.pdf; 20160128_1700_Parcels_Filter_Status.pdf; SitRep23 Flint Water.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/28/16 – 24th Day (23rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- *Sit Rep # 23*
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today. (Provide earlier by GIS)
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provide earlier by GIS)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- We continue to send ARC teams to targeted areas potentially missed.
- Collins Road SEOC will be shutdown. New SEOC at 7150 Harris Drive in Windsor Township (former GOB) will be activated for SEOC staff only. All EMHSD admin personnel will start at the new facility on Monday.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- MSP HQ staff completed data entry on all ARC paper copies.
- Recovery Staff attended local Community Partners Meeting.

- Recovery Branch worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- SEOC Logistics researched possible warehouse options with the local EOC, FEMA and General Motors.
- We have a corporate owned (originally thought to be a franchise owned) Kroger that is no longer in business near Fire Station 6. Looking to get a lower cost for potentially use.
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- SEOC Operations coordinated water pitcher request for vulnerable population.
- Information reported to the JIC:
    - <u>As of 1/28/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/28/2016
30,770	37,844	6,734	1,768

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	207,055
b. Filters	97,342
c. Filter cartridges	201,848
d. Test kits	30,801

3. Resources purchased:
    a. Cases of water 1,980,504 Liters (additional 517,152 Liters donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>New Standing Information Requirements</u>

1. **Number of homes visited each day:**
    a. 1/28/16, as of 5 pm, 1,768 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 6,734
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 125 volunteers for 1/28/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	25,221

Active residential water subscribers	26,673	20,788

6. **Number of Water filters distributed (each day and to date):**
    a. 1,806 were distributed on 1/28/2016, and total distributed to date is 97,342.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 8,428 were distributed on 1/28/2016, and total distributed to date is 207,055.
8. **Number of testing kits distributed (each day and to date):**
    a. 466 were distributed on 1/28/2016, and total distributed to date is 30,801.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security.
- Identifying and securing additional warehouse space.
- Implementing recycling program. Promoted program at a press conference with Lt. Gov. Calley.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.
- Continuously addressing public concerns over perceived fraud through door-to-door teams.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23rd Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)

- The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
- Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
  - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
  - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- *Information reported to the JIC:*
  - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. *Homes visited by the FWRTs to date.*

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
   a. Cases of water 165,042 (additional 32,234 donated)
   b. Filters 154,052
   c. Filter Cartridges 299,508
   d. Test kits 62,701
4. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a.
        i. *Number in PODs:*
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. *971 were distributed on 1/27/2016, and total distributed to date is 95,417.*
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
    a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. ***Number of homes with safe drinking water:***
    a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

*We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:*

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- *Coordinating rapid response deliveries to identified locations.*
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- *We will have 10 ARC, type 5 teams (2-4 personnel).*
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. *This data will further clarify areas covered/not covered by* any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:
    - As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. *Total number of customers on the Flint water system*
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**

a. Targeted Canvassing Mission: **3,946**

3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs:
      ii. Command Cell:
      iii. Cyber Mission:
4. **Total Number of Volunteers each day:**
   a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
   a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
   a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
      *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
       *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
    - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
    - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
    - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
    - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016

30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. ***Number of homes visited each day:***
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.

8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. *Per CHECC: People tested for lead 10/1/2015 to 1/8/2016:* **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- *5,864 of the properties the teams visited were vacant or destroyed (15%)*

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- *The remaining 16% we have no data to confirm or deny whether they have a filter*

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- *Facilitated rapid response deliveries to special locations.*
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed 15 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.

- As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.

- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
   a. 29,944 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

5. Teams going out tomorrow:
   a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
   a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
   a.
      i. Number in PODs:
      ii. Number on Cyber Mission:
      iii. Number with FWRTs:
      iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**

a. 315 volunteers for 1/24/2016.

5. ***Number of homes with filters:**
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
   a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19^{h} Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State ype 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration

- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

- As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
   a. Cases of water 130,782 (additional 21,682 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

4. Teams going out tomorrow:
   a. National Guard State s) type 3 teams -- Goal tomorrow 300 homes per team
   b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
  - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.

- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local , type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have : National Guard (MSP supported), type 3 teams / with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed) state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.

- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- *SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on* www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - *As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)*

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. *Cases of water 111,630 (additional 18,502 donated)*
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- *Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.*
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.

- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

- As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. *45,000 hookups (This is our high end target #)*
    c. 39,000 includes apartment complexes (The is the low end target #)

4. *Resources purchased:*
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- *Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents*
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- *Continue door to door/Flint Water Response Teams (FWRTs) and PODs*
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- *Appeal in process.*

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams th a goal of 300 homes per team.
  - *We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.*
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)

b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. ( ) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- *Continuing to work with faith based organization to distribute resources.*
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- *Continue to implement the logistics plan and adjust as needed*
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - *Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.*
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- *Prepare for possible surge in FWRTs utilizing NG personnel*
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:
  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

    2. Distributed:
        a. Number of cases of water 20,876
        b. Filters 47,935
        c. Filter cartridges 167,401
        d. Test kits 3,322

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 57,456 (additional 12,884 donated)
        b. Filters 108,520
        c. Filter cartridges 239,081
        d. Test kits 28,901

    5. Teams going out tomorrow:
        a. State s) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed

- Continue with door to door/Flint Water Response Teams (FWRTs)
- *Prepare for possible surge in FWRTs utilizing NG personnel*
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have : tate agency, type 3 teams (with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- *I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.*

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
    a. State (;) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- *The door to door teams will continue* at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support

- The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities

to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.

- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>
Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - *DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food* Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- *STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave* mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.
- A Volunteer Management Coordinator is in the Genesee County EOC as of today.
- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.
- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.
- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.
- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.
- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:

- Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
- Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
- Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
- Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- *FEMA Liaison Officers just arrived in Lansing to assist command and general staff.*
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- *We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous* media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
  - This included information on the SEOC activation and a 0900 briefing for SEMCs.
  - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.

- *Operational period for the SEOC will be M-F, 0800 to 1700 at this time.*
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

SEOC Hours of Operation End:	01/28/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 28, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Processed requests (RRF's) for water, filters, replacement cartridges, pitchers, and pallet jacks from FEMA.
- Researched possible warehouse options with the local EOC, FEMA and General Motors.
- Warehouse inventory will be taken in liters for water and by each unit for other items (1/27).
- Secured donations of pallet jacks (so far) from American Logistics Aid Network. In discussions for warehouse space, staffing, and equipment.
- Reviewed, assigned, investigated, and updated resource requests.
- Received and handled resource requests for water/filters/cartridges.
- Provided supplemental staff for Donations Management.

JIC:
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- Staff attended a 3:00 pm community partnership meeting at the Red Cross office to help dispel rumors about immigration enforcement.
- Obtained a recording of the Governor's tele-town hall on 1/17/16 and will post this information on the michigan.gov/flintwater webpage and include a link in the nightly news release.

Recovery Branch:
o Coordinated the data entry of the ARC paper tracking forms with Headquarters volunteers.
o Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as follow up required.
o Coordinated daily assignments for the Flint Water Response Teams.
o Operations for the Water Response Teams has shifted to a targeted effort to get filters into homes our data shows don't currently have filters.
o Continued demobilization of trucks and vans.
o City sections visited today: 2,3,9,10,11,17,19,20,23,28.
o City sections scheduled tomorrow*: Finishing routes from January 28.
o 10 American Red Cross teams scheduled for Friday, January 29th.

- Data is for 1/28/16 as of 5:00 pm:
o Total homes visited:
❑ 6,734 (round 3 total).
❑ 1,768 (today).
o Water cases:
❑ 4,013 (round 3 total).
❑ 1,479 (today).
o Replacement cartridges:
❑ 737 (round 3 total).
❑ 394 (today).
o *Faucet filters:*
❑ 3,286 (round 3 total).
❑ 1,409 (today).

Planning Section:
- Published Sit Rep # 23.
- Compiled list of answers for questions from the Governor's office.
- Worked on tracking of resources from PODs.
- Participated in local, SEOC, and daily distribution conference calls.

Operations Section:
- 55 Red Cross volunteers were active across the operation today.
- 70 event based volunteers were active across the operation today.
- Facilitated state agency and local briefing calls.
- Coordinating National Guard escort from Lansing to Flint.
- Coordinated water pitcher request for vulnerable population.
- Warehouse Numbers as of 1800:
❑ Water (liters):
- 231,504.
❑ Filters (faucet):
- 45,524.
❑ Replacement cartridges:
- 289,570.
❑ Test Kits (prepped):
- 19,368.
❑ Test kits (un-prepped):
- 0 (all supplies out to ARC for assembly).
- PODs (1700 1/27– 1600 1/28).
❑ Water (cases):
- 9,120.
❑ Filters (faucet):
- 516.
❑ Replacement Cartridges:
- 809.
❑ Filters (pitcher):
- 207.
❑ Test kits:
- 361.

Finance Section:
- Provide financial information for meeting this afternoon.
- Continue to work on SEOC Staffing report.
- Work with other state agencies regarding procurement policies and procedures.
- Review donation as match guidelines for required 25% federal match.
- Log resource requests and update missing financials.

GIS Branch Updates:
- Created map of schools for LARA.
- Created map of healthcare facilities for LARA.
- Troubleshot app issues with network connectivity.
- Created map of religious facilities for local EOC.
- Coordinated with U of M Flint on lead mapping (state work completed today, U of M will have their data ready next week and we will cross validate findings)
- Provided metrics and goals to command.
- Updated individual team assignment maps.
- Updated wall maps.
- Updated JIC maps.
- Coordinated with DNR on water test kit mapping.
- Migrated parcel content to a more stable database for long term storage and maintenance.
- Prepared for move to new building.
- Prepared wall maps of parcel statuses.
- Prepared stats for governor.

DTMB:
- DTMB Print & Graphic Services continues to provide translation of water documents and printing for water related documents.
- Created e-mail account for Donations Management and assisted with addition to SMART phone for user.
- Real Estate Division leasing manager provided assistance with potential secondary warehouse location.
- Working with Governor's Office to provide a tab on the Help For Flint website to capture vendors wanting to pitch their product/ideas.

DHHS-CH:
- The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.
- Historical blood lead data is being obtained and an accurate display that is clear and understandable is in development.
- The Genesee County Health Department has requested assistance with risk communications. The Public Health Team lead will be in Flint tomorrow and will be able to assist with this request. The MDHHS will also provide technical assistance as requested.

DEQ:
- Requested Michigan Department of Corrections to continue support of sample transport from collection sites to the DEQ Laboratory through February 15, 2016.
- Provided direction to all involved in supporting the efforts with local public entities regarding the need for credentialing.
- Provided updated test bottle orders to EMHSD finance.
- Lead service line mapping completed by DNR GIS.

Local EOC Update:
- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security
- Identifying and securing additional warehouse space.
- Coordinating rapid response deliveries to special locations.
- Coordinating vehicle and technology demobilization.
- Implementing recycling program. Press conference held with Lt. Gov. Calley.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.

• Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs. Attended meeting with VOADs.
• Received donation of $10,000 from Little River
• Continuously addressing public concerns over perceived fraud through door-to-door teams.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Emergency Declarations

Local Declarations

Jurisdiction(s): Date/Time:

Weather Conditions

Watches/Warnings

Upcoming Forecast

* Snow showers will start this morning (Jan 28) and continue through this evening. Expecting less than one inch of snowfall but some heavier bursts could result in brief reductions in visibility.
* Gusty Winds Thursday (Jan 28) and Friday (Jan 29).

* *High temperatures today (Jan 28) will reach 35 degrees this morning but higher winds will result in wind chills only in the mid 20s.*
* Cooler temperatures on Friday (Jan 29) with highs in the upper 20s will give way to temperatures in the 40s Saturday (Jan 30) through Monday (Feb 1).

Risk for Frostbite from Exposure over the next week is low unless exposure time for the individual is several hours in length with the person engaging in little to no activity.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 28. The JIC was operational until 10:30 p.m. on Jan. 27.

State agencies at the JIC included the Michigan State Police, Michigan State Housing Development Authority, Michigan Economic Development Corporation, Michigan Community Service Commission, and Departments of Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Technology, Management and Budget, and Military and Veterans Affairs. The Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

• Media hotline staff answered more than 20 emails and phone calls ranging from recycling to Spanish-speaking operators at 2-1-1.

• Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.

• Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with the Detroit News, Snopes.com, Bloomberg BNA, FOX 2, Supertalk 1570, WDIV Channel 4, and ABC 12.

• Assisted the Governor's Office with media photo op with Flint pastors at 10:30 a.m. at Flint City Hall.

• Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.

• Coordinated a live shot at Fire Station #1 with Channel 4 in Indianapolis. Six-thousand cases of water were donated by citizens of Indianapolis, IN, and were dropped off at the Clio Rd. warehouse.

• Staff attended a 3:00 pm community partnership meeting at the Red Cross office to help dispel rumors about immigration enforcement.

• Problem solved fact sheet printing issue with State Emergency Operations Center, Genesee County Emergency Operations Center, and Genesee County Health Department.

• Created a media monitoring report and looked for information requiring correction.

• Updated internal talking points about the ongoing Flint water emergency.

• Continued routing public information materials for approval, including communications from MDHHS and MDEQ.

• Obtained a recording of the Governor's tele-town hall on 1/17/16 and will post this information on the michigan.gov/flintwater webpage and include a link in the nightly news release.

• JIC is planning to issue the nightly activity news release around 7 p.m.

• Developed a dozen social media messages for use by state agencies to support operational messaging.

Agriculture and Rural Development (MDARD)

Thursday, Jan 28th -
The first water samples from food establishments have been returned; (8 reports received-50% 'not detected' and 50% at varying levels of lead detected from 2-21 ppb). MDARD is reviewing results and will be coordinating on next steps and requirements for those firms. Assessments of food businesses are continuing.
MDARD's Animal Health & Environmental programs is working on how to get information about pets and gardening / urban agriculture to people in the areas most impacted. We will coordinate public messaging with the JIC and have to coordinate with Local Health given the sensitivity and privacy concerns of residents.
MDARD plans to participate in a conference call with DEQ, LARA, DHHS, and MDE to discuss a common message regarding interpretation of water lead test results.
Question from Civil Rights re: cottage food producers - by legislation they are not licensed and do not have to register so there are no lists; MDARD will reach out to the areas where those businesses may be selling (generally farm markets)

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Thursday. We expect to have 10 teams available tomorrow as well.
The Volunteer Reception Center (VRC) was in full operation today. The VRC is scheduled to be open from 9am to 7pm today and tomorrow. The weekend schedule 9am to 3pm.
We continued assembling water test kits today.

AuxComm

Auxcomm EMC continues to follow the incident via MI-CIMS and SEOC briefings, and provide situational awareness for ARES, RACES, MARS, SATERN and CAP leadership.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities.

* Followed up with FEMA HHS rep. on 2-1-1 accessibility for pre-paid/minute mobile phone; aware and advised push for alternative messaging for the alternative line available 1-844-875-9211 has been ongoing discussion

* Reviewed continuing media coverage of Genesee County Hispanic Latino Collaborative issues and concerns;

* Continue to update list of area non-profits engaged in stabilization and recovery for 360 inclusion

* Briefed on Michigan Civil Rights Commission/MDCR public hearings

* Forwarded list of non-Christian/non-Flint proper religious institutions for verification as to GIS layer

Community Health (MDCH)

The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.

Dr. Wells, the Chief Medical Executive will begin weekly communications with the healthcare community through webinars and/or newsletters. The first webinar is scheduled for Wednesday 2/3/16.

Historical blood lead data is being obtained and an accurate display that is clear and understandable is in development.

Dr. Barbara Reynolds, Senior Advisor for CDC Crisis and Risk Communication provided technical assistance with risk communication strategies and a training in Flint.

Dr.'s Lurie and DeSalvo will be visiting a WIC clinic in Flint tomorrow.

The Genesee County Health Department has requested assistance with risk communications. The Public Health Team lead will be in Flint tomorrow and will be able to assist with this request. The MDHHS will also provide technical assistance as requested.

Corrections (MDOC)

We continued to streamline operations at the warehouse to assure that PODs are well supplied. We will continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

14 Penske Trucks remain as of 1630.

333 Water Samples were collected and delivered to the DEQ Lab in Lansing.

MDOC had the following resources operational today.

(14) - MDOC employees

(6) - MDOC SAI prisoners w/Corporal

(1) - Passenger van w/driver

(1)- Regular Cab Pickup w/driver

(1) – F-250 Pickup

(5) – Box Trucks w/driver

(1) - 53' Refrigerated Semi-Trailer

(3) - Electric Pallet Jacks

(7) – Hand Pallet Jacks

(1) – Warehouse Manager

(1) – Warehouse Security Person w/vehicle

Education (MDE)

1. Provided spreadsheet to LARA, as requested, with detailed child care provider information for Genesee County.
2. Provided requested data to DHHS, with breakdown of students ages 5-10 that reside within impacted zip codes.
3. Uploaded spreadsheet to Activity Log from GISD with listing of student enrollment in all districts of students that reside within

impacted zip codes, by school district and age of enrolled students, ages 0 to 21+.
4. GISD is critical MDE partner in communication to local districts. 16,424 students that reside within impacted zip codes attend 35 Public/PSA districts in Genesee County. Nearly 11,000 of those students attend a district/entity other than Flint Community Schools. 1,424 are less than Kindergarten aged (0-4) and enrolled in Early On programming through GISD.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Requested Michigan Department of Corrections to continue support of sample transport from collection sites to the DEQ Laboratory through February 15, 2016.

Provided updated test bottle orders to EMHSD finance.

Provided direction to all involved in supporting the efforts with local public entities regarding the need for credentialing.

Established procedure for participation of SEOC DEQ Representative in DEQ Emergency Coordination Center Planning Meeting.

Facilitated conversation with EMHSD and DNR-GIS reference statistical points relative to provided maps.

Lead service line mapping completed by DNR GIS

Human Services (MDHS)

Two Genesee Co MDHHS offices continue to be points of distribution for filtration devices.

Entered Resource Request for additional staff to assist MCSC with donations management.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Finalizing Health Care Facility survey information and comparison.

-Continue working on translation of documents to various languages. Providing resources.

- Finalizing numbers for faucet project to include facilities regulated by LARA, DHHS and MDE.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2813002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:1LT Roland, John G. Cell: Email: john.g.roland2.mil@mail.mil.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. LT Benke met with local city engineering yesterday in response to traffic signs at the PODs.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC is working through the Genesee County Road Commission IOT have traffic signs placed at the requested PODs.

b. Unknown if Flint City Electricians assessed lighting around the outside areas of the PODs IOT fix lighting issues.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified.

10. LOGISTICS: Every POD has at least one fully functional pallet jack and dolly/handcart.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• Recycling has been implemented at PODs 1, 5, and 8. A small amount of recycling has been.
• Consolidated Station Report OUT (last 24 hours)
Bottled water-5559 Water (Gallons)-1317 Lead Testing Kits-388
Pitcher (23 cup)-550 Brita Faucet Filter-216 Brita Replacement Cartridge-352
Pur Filter-250 Pur Replacement Filter-444

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

10 Red Cross Teams completed WRT duties, homes continue to be visited. MDOC continues to staff the warehouse, and the Michigan National Guard staffed 5 distribution PODS.

The cyber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services continues to provide translation of water documents and printing for water related documents.

Created e-mail account for Donations Management and assisted with addition to SMART phone for user.
Real Estate Division leasing manager provided assistance with potential secondary warehouse location.
DTMB Vehicle Travel Services has three drivers with trucks assisting in transporting supplies to support point of distribution centers and Mail Services has one driver assisting the local food bank with distribution of donated water.
151 tablets provided to the Flint Water Response Teams will begin demobilizing and return to Lansing on Thursday. Genesee County has requested 25 tablets remain with their employees until no longer needed.

Continue to provide server monitoring of MiCIMS servers and analyzing slow internet service at the Joint Information Center in the Flint State office Building.
Working with Governor's Office to provide a tab on the Help For Flint website to capture vendors wanting to pitch their product/ideas.
Thirteen minivans that were provided will be transported back to the State Secondary Complex on Friday as they are no longer needed.
Provided FEMA personnel with safety information and floor evacuation maps for the new SEOC facility.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:

-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Subject: SEOC Update 1/29/16 - Flint Water - Limited Distribution
Attachments: SitRep24 Flint Water.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/29/16 – 25th Day (24th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Draft data documents for Governor's team for dashboards.
- Draft timeline of events.
- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations and work to increase warehouse locations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 24

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- MSP EMHSD Operations Chief in the Local EOC will be shifted to the Unified Coordination Group (Federal Agencies) to provide connection to SEOC.
    - Local EOC to take a more active role in command and control at the local level.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery compiled a list of apartment buildings to send out to water response teams.
- SEOC Logistics coordinated Niagara water donation delivery times/dates of 25.5 semi-trailers.
- SEOC Logistics Worked with warehouse to send temporary donation's for the weekend to the LEOC established staging area.

- JIC coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.
- Planning developed SBA loan request letter.
- GIS continued refinement of data.
- Information reported to the JIC:
    - As of 1/29/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/29/2016
30,770	37,844	7,658	924

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	216,605
b. Filters	98,641
c. Filter cartridges	202,566
d. Test kits	31,111

3. Resources purchased:
    a. Cases of water 2,151,444 Liters (additional 715,404 Liters donated)
    b. Filters 162,536
    c. Filter Cartridges 376,903
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

aStanding Information Requirements

1. **Number of homes visited each day:**
    a. 1/29/16, as of 5 pm, 924 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 7,658
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell
        iii. Cyber Mission:
        iv. Joint Forces Headquarters: -
4. **Total Number of Volunteers each day:**
    a. 100 volunteers on 1/29/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,855
Active residential water subscribers	26,673	22,158

6. **Number of Water filters distributed (each day and to date):**
    a. 1,218 were distributed on 1/29/2016, and total distributed to date is 98,641.
7. **Cases of Bottle water distributed (each day and to date):**

a. 7,458 were distributed on 1/29/2016, and total distributed to date is 216,605.

8. **Number of testing kits distributed (each day and to date):**
    a. 221were distributed on 1/29/2016, and total distributed to date is 31,111.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 4,084 water samples out of 4,351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Attended long-term recovery planning meeting with MSP/EMHSD, FEMA and community leaders.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff.
- Coordinating distribution of Spanish-language water sample forms to affected populations.
- Identifying and securing additional warehouse space.
- Refining rapid response process and coordinating rapid response deliveries to special locations.
- Continuing to coordinate vehicle and technology demobilization.
- Implementing the recycling program with the Community Recycling Coalition.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC, and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/28/16 – 24th Day (23rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 23
- Maps:
    - *Parcel Contact Status, includes data as of 5 pm today. (Provide earlier by GIS)*
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provide earlier by GIS)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- We continue to send ARC teams to targeted areas potentially missed.
- Collins Road SEOC will be shutdown. New SEOC at 7150 Harris Drive in Windsor Township (former GOB) will be activated for SEOC staff only. All EMHSD admin personnel will start at the new facility on Monday.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- MSP HQ staff completed data entry on all ARC paper copies.
- Recovery Staff attended local Community Partners Meeting.
- Recovery Branch worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- SEOC Logistics researched possible warehouse options with the local EOC, FEMA and General Motors.
- We have a corporate owned (originally thought to be a franchise owned) Kroger that is no longer in business near Fire Station 6. Looking to get a lower cost for potentially use.
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- SEOC Operations coordinated water pitcher request for vulnerable population.
- Information reported to the JIC:
    - As of 1/28/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/28/2016
30,770	37,844	6,734	1,768

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	207,055
b. Filters	97,342
c. Filter cartridges	201,848
d. Test kits	30,801

3. Resources purchased:
    a. Cases of water 1,980,504 Liters (additional 517,152 Liters donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/28/16, as of 5 pm, 1,768 homes were visited today.
2. **Total number of homes visited:**
    a. *Targeted Canvassing Mission: 6,734*
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 125 volunteers for 1/28/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	25,221
Active residential water subscribers	26,673	20,788

6. **Number of Water filters distributed (each day and to date):**
    a. 1,806 were distributed on 1/28/2016, and total distributed to date is 97,342.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 8,428 were distributed on 1/28/2016, and total distributed to date is 207,055.
8. **Number of testing kits distributed (each day and to date):**
    a. 466 were distributed on 1/28/2016, and total distributed to date is 30,801.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351

    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security.
- Identifying and securing additional warehouse space.
- Implementing recycling program. Promoted program at a press conference with Lt. Gov. Calley.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.
- Continuously addressing public concerns over perceived fraud through door-to-door teams.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23rd Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
    - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.
- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
    - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
    a. Cases of water 165,042 (additional 32,234 donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.
8. **Number of testing kits distributed (each day and to date):**
    a. 341 were distributed on 1/27/2016, and total distributed to date is 30,255.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**

a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- **10,723 (28%)** of the parcels have volunteered for water testing sites
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the Flint Water System. Of these

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- **3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:
  - As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: **3,946**
3. ***Total number of National Guard on the ground:***
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
4. **Total Number of Volunteers each day:**
    a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
    a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
    a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
    *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
        *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**
    a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations.
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.

- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
    - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
    - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
    - SEOC DEQ desk will continue to monitor and work this issue.

- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
    - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams – Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**

a. 1/25/16, as of 5 pm, 2,596 homes were visited today.

2. **Total number of homes visited:**
   a. Phase II: 37,844
   b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
   a. ℓ
      i. Number in PODs:
      ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
   a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:***
   a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
   a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
   a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. ***Number of people with elevated blood level (kids, adults, total):***
    a. Per CHECC:
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. ***Number of homes with safe drinking water:***
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- *Coordinating volunteer management with Michigan Community Service Commission.*

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- *Prepare appeal on denial of Category B under the Presidential Emergency Declaration.*
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. *We have 30 days to appeal and EMHSD staff is gathering information for the appeal.*

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- *Information reported to the JIC:*
    - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. *Homes visited by the FWRTs to date.*

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586

d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission:
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. ***Cases of Bottle water distributed (each day and to date):***
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. *Unknown at this time, CHECC will begin providing numbers on 1/25/2016.*
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** *provided by residents.*

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- *Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.*
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams (6-9 personnel).
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866

b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State pe 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**

a. Unknown at this time until we get the data

11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local , type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.

- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- *Working on plan for church water distribution and POD locations.*
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.

- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17th Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700

c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard (t type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. lational Guard , type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents

- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

- As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- *Receive, store and increase quantities of supplies*
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 1[illegible] state agency, type 3 teams [illegible], with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed [illegible] tate/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 27,195
   b. Filters 50,432
   c. Filter cartridges 168,605
   d. Test kits 4,861

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. 12 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams , with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.

- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
    - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. tate (type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. 10 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.

- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256

Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - *Local EOC support for other local requests (Faith based for distribution, etc.)*
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- *Budget projection completed and will be submitted to SBO for review.*

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

<u>Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency</u>

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - *Filter Replacements*
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - *10,000 – PUR Vertical faucet mount*
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - *PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)*
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)

        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

- Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
- Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
- Working to establish a warehouse for local resource storage.
- Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
- Discussed potential long term water sources between local EOC and SEOC.
- Established planning cycle/meeting scheduled for 1/12/16.
- Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- *The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.*
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters

        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving

them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

<u>MSP/EMHSD GIS Section Updates</u>

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

<u>Local Emergency Operations Center</u>

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

- DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
- 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
- Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content

- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination,**

command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.

- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Chris

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08:00:00
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	24
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/29/2016 08:00:00
SEOC Hours of Operation End:	01/29/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 29, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- *Continued researching warehouse options for donations management.*
- Coordinated Niagara water donation delivery times/dates.

o We will be receiving 25.5 semi-trailers (30,000 cases) of water.

- Sat in on National VOAD Donations Management call.
- Coordinated staffing for SEOC and LEOC for 2/1-7/16
- Fielded resource requests.
- Fielded rapid response requests in coordination with Local EOC logistics.
- Worked with warehouse to send temporary donation's for the weekend to the LEOC established staging area.
- *Attended the daily FEMA Logistics conference call.*
- Attended the donations management team calls.
- Fielded Governor's office requests.

JIC:

- Coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.
- Press release #22 went out about the effort to identify the location of lead pipes and other components of Flint's water infrastructure mapping infrastructure to locate lead pipes.
- Press release #23 went out today concerning bathing in water, number of homes visited, and the Governors announcement of a comprehensive plan for flint.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meeting, Distribution Process Meeting, and Community Partners Meeting (Briggs).
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- *Compiled a list of apartment buildings to send out water resource team.*
- City Sections Visited Today: 2, 3, 9, 10, 11, 17, 19, 20, 23 and 28.
- City Sections Scheduled Tomorrow": 28, 29, 30, 31 as primary and 27, 17 and 11 as secondary.
- 10 American Red Cross Teams scheduled for Saturday, January 30th.

o Data is for 1/29/16 as of 5:00 pm:
o Total homes visited.
- 7,658 (round 3 total).
- 924 (today).

o Water Cases:
- 4,832 (round 3 total).
- 819 (today).

o Replacement Cartridges:
- 815 (round 3 total).
- 78 (today).

o Faucet Filters:
- 4,222 (round 3 total).
- 936 (today).

Planning Section:
- Published Sit Rep #24.
- Developed SBA loan request letter.
- Worked on incident time line for Governor's office.

• Developed timeline for incident resource tracking.
• Participated in local EOC, SEOC state agency, and distribution process conference call.

Operations Section:
o 43 event based volunteers active on the operation today.
o 57 ARC volunteers active on the operation today.
o Facilitated state agency and local briefing calls.
o Warehouse Numbers as of 1800:
❑Water (liters):
• 226,748.
❑Filters (faucet):
• 51,743.
❑Replacement cartridges:
• 361,970.
❑Test Kits (prepped):
• 19,359.
❑Test kits (un-prepped):
• 0 (all supplies out to ARC for assembly).
o PODs (1700 1/28 – 1600 1/29):
❑Water (cases):
• 8,731.
❑ Filters (faucet):
• 363.
❑ Replacement Cartridges:
• 640.
❑ Filters (pitcher):
• 0 (no longer being distributed at PODs).
❑ Test kits:
• 294.

Finance Section:
• Contacted State EMC for the Department of Insurance and Financial Services after receiving a request for information from the American Red Cross (ARC) concerning a volunteer who was injured working at the warehouse in Flint.
• Discussions with MSP Departmental Services Division Director to coordinate meetings with State Budget Office to develop template for consistent cost reporting for all state agencies.
• Review current cost data from state agencies that have submitted information.
• Review requirements for using donations toward required 25% state match.

GIS Branch Updates:
• Continued refinement of data.
• Prepared statistics from field team activities for HHS.
• Updated Water Test Kits Mapping.
• Worked to get GIS technology back online in new SEOC.
• Began updating per day statistics for governor's metrics.
• Began analysis of lead parcels against field team data and water test kit data (ongoing).

DTMB:
• Continued to provide translation of water documents and printing for water related documents.
• Performed a walk through with FEMA personnel to discuss the evacuation maps for the SEOC, GOB and Flint State Office Building.
• 151 tablets provided to the Flint Water Response Teams will begin demobilizing and returned to Lansing on Thursday. Genesee County has requested 25 tablets remain with their employees until no longer needed.

DHHS-CH:
• Participated in conference call with various state agencies, MDHHS Environmental Health, CHECC, JIC, MDARD, MDE, MDEQ, FEMA, SEOC Incident Command, and EPA PIO.
o Discussed consistent and understandable messaging related to water test results.
• Received communication from SAMHSA that they will be sending staff to Lansing on Monday.

DEQ:
• Worked with Michigan Department of Corrections to continue support of sample transport from collection sites to the DEQ Laboratory through February 15, 2016.
• Established procedure for participation of SEOC DEQ Representative in DEQ Emergency Coordination Center Planning Meeting.
• Mapping of lead service line completed by DNR GIS.

Local EOC Update:
• Attended long-term recovery planning meeting with MSP/EMHSD, FEMA and community leaders.
• Planning for transition of operational control to local level.
• Planning for demobilization of MSP/EMHSD support staff.
• Coordinating distribution of Spanish-language water sample forms to affected populations.
• Identifying and securing additional warehouse space.
• Refining rapid response process and coordinating rapid response deliveries to special locations.
• Continuing to coordinate vehicle and technology demobilization.
• Implementing the recycling program with the Community Recycling Coalition.
• Coordinating in-kind and monetary donations through Michigan Community Service Commission.
• Coordinating volunteer management with Michigan Community Service Commission, ARC, and other VOADs.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.

10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWCC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Damage Assessment Summary

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 29. The JIC was operational until 8:30 p.m. on Jan. 28.

State agencies at the JIC included the Michigan State Police, Michigan State Housing Development Authority, Michigan Economic Development Corporation and Departments of Agriculture & Rural Development, Environmental Quality, Health and Human Services, Licensing and Regulatory Affairs, Technology, Management and Budget, Treasury and Military and Veterans Affairs. The Genesee County Sheriff's Office, FEMA, and the American Red Cross were also present.

Tasks accomplished:

• Media hotline staff answered more than 20 emails and phone calls ranging from identification requirements at water resource sites to bathing in Flint water.

• Key agency PIOs fielded multiple news inquiries throughout the day, including conducting or scheduling interviews with the Detroit News, Detroit Free Press, Weather Channel, ABC 12, and The 74 (the74million.org).

• Added a distress line logo to the Flint Water website.

• Sent News Release about the effort to identify the location of lead pipes and other components of Flint's water infrastructure mapping infrastructure to locate lead pipes at 3:50 p.m.

• Added infographic from Genesee County Community Health to the resources section of Flint Water website

• Created a media monitoring report and looked for information requiring correction.

• Updated internal talking points about the ongoing Flint water emergency.

• Continued routing public information materials for approval, including communications from MDE, MDHHS and MDARD.

• JIC is planning to issue the nightly activity news release around 7 p.m.

• Working on revising the water donation guidelines flyer due to overwhelming demand of water donations.

• Continued adding individuals to staff the Flint JIC for the next two weeks.

• Coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.

• Worked with Snopes.com to dispel Internet rumors.

Agriculture and Rural Development (MDARD)

Thursday, Jan 29th -
MDARD completed five additional assessments today and one follow up visit due to elevated water sample results. We collected 11 additional samples. Food businesses are being notified of their results with follow up inspections being planned for any results above "not detected". The 1 remaining business in the high risk area that hadn't been sampled was visited today but was closed; we will verify again next week.
MDARD organized a call on animals and pets with approximately 15 organizations/entities including MI-DHHS, MSU College of Veterinary Medicine, MSU Diagnostic Center, USDA, and local, state, and national organizations involved in animal care. Planning is underway on potential sampling and treatment steps for impacted pets. Genesee Animal Control reported that they do not need any additional water donations. Additional calls are planned for next week.
MDARD is coordinating with MSU Extension and Genesee County Conservation District on outreach and information needs to work with urban agriculture and home gardeners. FYI - Genesee County Conservation District, USDA-Natural Resources Conservation Serviced and others are planning a press conference on Monday Feb 8th at 11am at the Flint Farmers' Market about using hoop houses for growing produce.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Friday. We expect to have 10 teams available tomorrow as well.
The Volunteer Reception Center (VRC) was in full operation today. The VRC is scheduled to be open from 9am to 7pm today. The weekend schedule is 9am to 3pm.
We completed assembly of 7,800 water test kits today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities.

* Forwarded non-profit list of advocates to VAL for consideration/inclusion in local advocates collaborative on resources/recovery effort

* Following call with Law & Policy Director, updated SEOC-JIC on internal discussions re: ASL materials and release of same

* Forwarded proposed draft email/social media release to MDCR-Communications for JIC review for engaging community groups/MDCR stakeholders in messaging and engaging new www.flintvolunteer.com website. Per ARC, website is still under development

* Advocates from "Community Organizations of Southwest Detroit" to assemble supplies and donations for Flint. There are plans for them to meet at 12 Noon on 30 Jan at DHDC to collaborate and head to Flint.

Community Health (MDCH)

The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.

Participated in conference call with various state agencies, MDHHS Environmental Health, CHECC, JIC, MDARD, MDE, MDEQ, FEMA, SEOC Incident Command, and EPA PIO. Discussed consistent and understandable messaging related to water test results. This conversation will continue during UCG calls.

Received communication from SAMHSA that they will be sending staff, Commander Jamie Seligman, to Lansing on Monday. An eight person Disaster Behavioral Health team from SAMHSA was requested and has also been approved to be sent to Michigan.

Corrections (MDOC)

We continued to streamline operations at the warehouse to assure that PODs are well supplied. We will continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

332 Water Samples were collected and delivered to the DEQ Lab in Lansing.

2 Semi-Tuck and Trailers were on-site and loaded today at the warehouse in preparation for tomorrow's large scale volunteer event with Red Cross.

7800 assembled water test kits were picked up from Red Cross and delivered to the warehouse.

4 boxes of door hangers and 4 ID cards were delivered to Flint for DTMB.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Participated in the Unified Coordinating Group conference call.

Coordinated and facilitated conference call with partner agencies to discuss coordinated messaging.

Provided statistics on most recently available sample analysis data.

Creation and web posting of Summary of DEQ Actions in Response to EPA Emergency Order" and Talking Points.

Continue to clarify and provide consistent messaging.

Establishment of glide path for team members and replacements.

Coordinated GIS data, provided data for Director briefing with local officials and media.

Human Services (MDHS)

Two Genesee Co MDHHS offices continue to be points of distribution for filtration devices.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Joe Madziar and Andy Nueman were able to complete a material list for Brownell Elementary School.

-Alesha Gensler spoke with Tony Sitko, with Flint Community Schools, and coordinated availability of schools for Saturday (Jan. 30) to continue gathering information for material lists.

-LARA reached out to Mark Bouvy, Administrative Manager with the Michigan School for the Deaf (MSD), to see when he expects construction to be complete at MSD. The landlord of the building where the school is located had decided to go ahead and replace all the faucets on their own. After construction is complete, LARA will coordinate with DEQ to complete the water testing at the facility. Mark is out of the office until Monday, Feb. 1.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 2813002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:1LT Roland, John G. Cell: Email: john.g.roland2.mil@mail.mil.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. LT Benke met with local city engineering yesterday in response to traffic signs at the PODs.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC is working through the Genesee County Road Commission IOT have traffic signs placed at the requested PODs.

b. Unknown if Flint City Electricians assessed lighting around the outside areas of the PODs IOT fix lighting issues.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified.

10. LOGISTICS: Every POD has at least one fully functional pallet jack and dolly/handcart.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• Recycling has been implemented at PODs 1, 5, and 8. A small amount of recycling has been.
• Consolidated Station Report OUT (last 24 hours)
Bottled water-5559 Water (Gallons)-1317 Lead Testing Kits-388
Pitcher (23 cup)-550 Brita Faucet Filter-216 Brita Replacement Cartridge-352
Pur Filter-250 Pur Replacement Filter-444

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

10 Red Cross Teams completed WRT duties, homes continue to be visited. MDOC continues to staff the warehouse, and the Michigan National Guard staffed 5 distribution PODS.

The yber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services continues to provide translation of water documents and printing for water related documents.
151 tablets provided to the Flint Water Response Teams will begin demobilizing and return to Lansing on Thursday. Genesee County has requested 25 tablets remain with their employees until no longer needed.
Continue to provide server monitoring of MiCIMS servers and analyzing slow internet service at the Joint Information Center in the Flint State office Building.
Performed a walk through with FEMA personnel to discuss the evacuation maps for the SEOC, GOB and Flint State Office Building.
Provided IT assistance for printer setup at the Clio Rd. Warehouse and the JIC in the Flint State Office Building.
Provided access cards and access to employees at the JIC and for Federal partners.
Providing a laptop with dual monitors and a printer for DEQ employee in Constitution Hall. Will be installed by COB Monday dual monitors and laptop installed at Constitution Hall.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Attachments:	20160130_Lead_Residents_Sampled_Results.pdf; 20160130 _Copper_Residents_Sampled_Results_Lead.pdf; 2015-10-01 City of Flint Water Contamination-Shortage SitRep 25 2016-01-....pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/30/16 – 26th Day (25th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Finalize SBA application

Attached Documents:

- Sit Rep # 25
- Lead Residents Sampled Results
- Copper Residents Sampled Results

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Deployed SEOC liaison to UCG.
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource teams.
- Coordinated the posting of the Food and Nutrition Service response to Michigan's request to increase the access and availability of WIC benefits and services on the www.mi.gov/FlintWater site.

- Information reported to the JIC:
  - As of 1/30/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/30/2016
30,770	37,844	9,026	1,368

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	227,188
b. Filters	99,969
c. Filter cartridges	203,932
d. Test kits	31,512

3. Resources purchased:
   a. Cases of water 2,481,324 Liters (additional 879,400 Liters donated)
   b. Filters 164,616
   c. Filter Cartridges 376,903
   d. Test kits 62,701
4. Teams going out tomorrow:
   a. 10 American Red Cross Teams scheduled for Sunday, January 31, 2016.

Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/30/16, as of 5 pm, 1,368 homes were visited today.
2. **Total number of homes visited:**
   a. Targeted Canvassing Mission: 9,026
3. **Total number of National Guard on the ground:**
   a.
4. **Total Number of Volunteers each day:**
   a. 792 volunteers on 1/30/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,956
Active residential water subscribers	29,994	22,229

6. **Number of Water filters distributed (each day and to date):**
   a. 706 were distributed on 1/30/2016, and total distributed to date is 99,347.
7. **Cases of Bottle water distributed (each day and to date):**
   a. 6,337 were distributed on 1/30/2016, and total distributed to date is 222,942.
8. **Number of testing kits distributed (each day and to date):**
   a. 65 were distributed on 1/30/2016, and total distributed to date is 31,176.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
   a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
      *this data will not be updated again until Tuesday.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
       i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
       ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
       iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22

*This data will not be updated again until Tuesday

11. **Number of homes with safe drinking water:**
    a. 4,084 water samples out of 4,351 sampled through **January 29, 2016** are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

**Per DEQ, numbers were not available tonight but will be provided tomorrow.

Local EOC

- Coordinated short-term resource needs of incoming volunteer groups.
- Addressing public concerns regarding filter efficiency.
- Addressing concerns regarding rapid response delivery system.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff at Genesee County EOC.
- Attended conference call with Michigan Community Service Commission regarding long-term volunteer management plan.
- Refined 211 data entry and record keeping process.
- Provided EPA with 50 "Flint Water Response Team" badges and lanyards to wear when they are working in the community.
- EPA advised they deployed two sampling teams to work on sequential sampling and a filter pilot through Monday, February 1, 2016.
    - The filter pilot was described as collection of a sample from an unfiltered tap, followed by collection from a filtered tap, installation of a new filter, and collection of a sample through the newly installed filter. They have identified 30 homes for this 3 day effort.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/29/16 – 25th Day (24th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Draft data documents for Governor's team for dashboards.
- Draft timeline of events.
- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations and work to increase warehouse locations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 24

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- MSP EMHSD Operations Chief in the Local EOC will be shifted to the Unified Coordination Group (Federal Agencies) to provide connection to SEOC.
    - Local EOC to take a more active role in command and control at the local level.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery compiled a list of apartment buildings to send out to water response teams.
- SEOC Logistics coordinated Niagara water donation delivery times/dates of 25.5 semi-trailers.
- SEOC Logistics Worked with warehouse to send temporary donation's for the weekend to the LEOC established staging area.
- JIC coordinated with Genesee County Emergency Operations Center and State Emergency Operations Center regarding concerns from undocumented workers and English as second language speakers, including fielding a phone call from the Mexican Consulate in Detroit. Efforts are underway to reach out to these communities and to translate more materials for publication.
- Planning developed SBA loan request letter.
- GIS continued refinement of data.
- Information reported to the JIC:
    - As of 1/29/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/29/2016
30,770	37,844	7,658	924

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	216,605
b. Filters	98,641
c. Filter cartridges	202,566
d. Test kits	31,111

3. Resources purchased:
    a. Cases of water 2,151,444 Liters (additional 715,404 Liters donated)
    b. Filters 162,536
    c. Filter Cartridges 376,903
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

aStanding Information Requirements

1. **Number of homes visited each day:**
    a. 1/29/16, as of 5 pm, 924 homes were visited today.
2. ***Total number of homes visited:***
    a. Targeted Canvassing Mission: 7,658
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:

4. **Total Number of Volunteers each day:**
    a. 100 volunteers on 1/29/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,831	27,855
Active residential water subscribers	26,673	22,158

6. **Number of Water filters distributed (each day and to date):**
    a. 1,218 were distributed on 1/29/2016, and total distributed to date is 98,641.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,458 were distributed on 1/29/2016, and total distributed to date is 216,605.
8. **Number of testing kits distributed (each day and to date):**
    a. 221were distributed on 1/29/2016, and total distributed to date is 31,111.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. 4,084 water samples out of 4,351 sampled through January 29, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Attended long-term recovery planning meeting with MSP/EMHSD, FEMA and community leaders.
- Planning for transition of operational control to local level.
- Planning for demobilization of MSP/EMHSD support staff.
- Coordinating distribution of Spanish-language water sample forms to affected populations.
- Identifying and securing additional warehouse space.
- Refining rapid response process and coordinating rapid response deliveries to special locations.
- Continuing to coordinate vehicle and technology demobilization.
- Implementing the recycling program with the Community Recycling Coalition.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC, and other VOADs.

Chris

INTERNAL USE ONLY -- LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/28/16 – 24th Day (23rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep # 23
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today. (Provide earlier by GIS)
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provide earlier by GIS)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- We continue to send ARC teams to targeted areas potentially missed.
- Collins Road SEOC will be shutdown. New SEOC at 7150 Harris Drive in Windsor Township (former GOB) will be activated for SEOC staff only. All EMHSD admin personnel will start at the new facility on Monday.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- MSP HQ staff completed data entry on all ARC paper copies.
- Recovery Staff attended local Community Partners Meeting.
- Recovery Branch worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required "for Red Cross teams.
- SEOC Logistics researched possible warehouse options with the local EOC, FEMA and General Motors.
- We have a corporate owned (originally thought to be a franchise owned) Kroger that is no longer in business near Fire Station 6. Looking to get a lower cost for potentially use.
- Received an inquiry regarding potential scams being perpetrated on residents of Flint. This information was referred to the Attorney General's office for a possible news release and further action.
- Issued a media advisory and coordinated a press conference about recycling with Lt. Gov. Brian Calley at noon at Fire Station #1. Used social media to promote the event as it occurred.
- SEOC Operations coordinated water pitcher request for vulnerable population.
- Information reported to the JIC:
  - As of 1/28/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Total	Targeted Canvassing Mission 1/28/2016
30,770	37,844	6,734	1,768

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	207,055
b. Filters	97,342
c. Filter cartridges	201,848
d. Test kits	30,801

3. Resources purchased:
    a. Cases of water 1,980,504 Liters (additional 517,152 Liters donated)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/28/16, as of 5 pm, 1,768 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 6,734
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. ***Total Number of Volunteers each day:***
    a. 125 volunteers for 1/28/2016.
5. **Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	25,221
Active residential water subscribers	26,673	20,788

6. **Number of Water filters distributed (each day and to date):**
    a. 1,806 were distributed on 1/28/2016, and total distributed to date is 97,342.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 8,428 were distributed on 1/28/2016, and total distributed to date is 207,055.
8. **Number of testing kits distributed (each day and to date):**
    a. 466 were distributed on 1/28/2016, and total distributed to date is 30,801.
9. ***Number of people tested for elevated blood levels (kids, adults, total):***
    a. Per CHECC: People tested for Lead 10/1/2015 to 1/22/2016: *3,351

    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC: These numbers are only updated bi-weekly
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

Local EOC

- Planning for transition of operational control to local level.
- Discussed transition and demobilization of EOC support team with SEOC staff, Genesee County Sheriff's Office and Genesee County Emergency Management & Homeland Security.
- Identifying and securing additional warehouse space.
- Implementing recycling program. Promoted program at a press conference with Lt. Gov. Calley.

- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.
- Continuously addressing public concerns over perceived fraud through door-to-door teams.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/27/16 – 23th Day (22nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Shift Water Response Teams operations to a targeted effort to provide filters into homes where data shows where filters have not been provided.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Sit Rep 22
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today. (Provided earlier by GIS)
        - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today. (Provided earlier by GIS)
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
    - ARC teams are targeting the homes we show that were not visited.
- Information provided to the Governor's Office (Paul Smith) for an extension to the Governor's Declaration of an Emergency. This has to be approved by both houses of the legislature. The extension will put us on the same timeline as FEMA's declaration.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- Recovery Branch compiled a list of targets for apartment complexes. Once plan is in place, a team will go to each complex and verify all tenants have been given or have a water filter. Once outreach has taken place for each complex, GIS will manually mark entire parcel as complete.
- SEOC Logistics worked with the Michigan Community Service Commission on donations management and volunteers
- GIS coordinated with DNR and DEQ to establish timelines for lead mapping and strategize updates of lead statuses based on plumber activities.

- GIS coordinated with DTMB/CSS to meet with local GIS staff to review city GIS infrastructure and provide recommendations on future asset management.
- Planning and Financial provide information for Senate Appropriations Committee meeting this afternoon.
- Financial Reviewed donations as match guidelines for required 25% federal match.
- Information reported to the JIC:
    - As of 1/27/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Total	Targeted Canvassing Mission 1/27/2016
30,770	37,844	4,966	1,020

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	196,456
b. Filters	95,417
c. Filter cartridges	200,654
d. Test kits	30,255

3. Resources purchased*:
    a. *Cases of water 165,042 (additional 32,234 donated)*
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
4. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/27/16, as of 5 pm, 1,020 homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: 4,966
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command Cell:
        iii. Cyber Mission:
        iv. Joint Forces Headquarters:
4. **Total Number of Volunteers each day:**
    a. 109 volunteers for 1/27/2016.
5. ***Number of homes with filters:**

	Total Number	Number with filters
Residential parcels	38,238	22,939
Active residential water subscribers	26,673	19,677

6. **Number of Water filters distributed (each day and to date):**
    a. 971 were distributed on 1/27/2016, and total distributed to date is 95,417.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,592 were distributed on 1/27/2016, and total distributed to date is 196,456.

8. **Number of testing kits distributed (each day and to date):**
    a. *341 were distributed on 1/27/2016, and total distributed to date is 30,255.*
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People Tested for Lead 10/1/2015 to 1/22/2016: *3,351
    *this data is updated bi-weekly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. *Per CHECC: These numbers are only updated bi-weekly*
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 38
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 22
11. **Number of homes with safe drinking water:**
    a. 2,991 homes, per data from September 3, 2015 to January 27, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
    *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

GIS Information

AS OF **1/27/2016** AT 5 p.m. USING DATA FROM FLINT WATER RESPONSE TEAMS, POD DISTRIBUTIONS, AND GENESEE COUNTY HEALTH DISTRIBUTION DATA.

NOTE: PLEASE REMEMBER THAT PAPER DATA AND DATA ENTRY FROM PREVIOUS DAYS CONTINUES TO COME IN AND WILL BE INCLUDED IN THE TOTALS AS IT IS RECEIVED.

We are tracking **38,238** residential parcels that the City of Flint has identified as non-vacant (including Franchise). Of those:

- **34,849 (91%)** of the parcels have been engaged (e.g. face to face, left an information card, etc.) as part of response efforts
- **22,939 (60%)** of the parcels have been confirmed to have some form of filter
- ***10,723 (28%)** of the parcels have volunteered for water testing sites*
- **4,918 (13%)** of the parcels have not had personal contact (not home or did not visit a POD)

We are also tracking that there are 29,994 active water subscribers (metered service lines) in the city. When consolidated down and filtering out only residential there are **26,673** residential parcels that have the ability to use the *Flint Water System. Of these*

- **25,457 (95%)** of the parcels have been engaged as part of response efforts
- **19,677 (74%)** of the parcels have been confirmed have some form of filter
- **9,561 (36%)** of the parcels have volunteered for water testing
- ***3,718 (14%)** of the parcels have not had personal contact (not home or did not visit a POD)*

Local EOC

- Planning for transition of operational control to local level.
- Identifying and securing additional warehouse space for donations management.
- Coordinating rapid response deliveries to identified locations.
- Coordinating demobilization of vehicles and technology.
- Working to implement recycling program. Press conference scheduled for 01/28/2016.
- Coordinating in-kind and monetary donations through Michigan Community Service Commission.
- Coordinating volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/26/16 – 22th Day (21th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas.

Attached Documents:

- Sit Rep # 21
- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- Press conference to be held in Flint with the Governor, Mayor and some state agency personnel.

Items to Note

- 10 ARC Flint Water Response Teams to the field today.
- We have taken a significant number of paper records from the ARC WRTs so we can get the data entered into our system. MSP HQ staff has been pulled to the SEOC for data entry. These are a portion of the records the ARC had as they were not using the door to door App as directed. This data will further clarify areas covered/not covered by any teams.
- The WRTs are going to "targeted" locations where we are showing residences not contacted.
- We are working on identifying any multi-unit housing to ensure all have filters (e.g. apartment buildings). Some have been taken care of but we are ensuring these locations are not missed.
- Information reported to the JIC:
  - As of 1/26/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvass MissionTotal	Targeted Canvassing Mission 1/26/2016
30,770	37,844	**3,946**	1,350.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	186,309
b. Filters	94,301
c. Filter cartridges	199,489
d. Test kits	29,841

3. Total number of customers on the Flint water system
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 146,142 (additional 26,834 donated to the state warehouse and does not include other locations like GCCARD/Food Banks, Churches, etc.)
    b. Filters 154,052
    c. Filter Cartridges 299,508
    d. Test kits 62,701
5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/26/16, as of 5 pm, **1,350** homes were visited today.
2. **Total number of homes visited:**
    a. Targeted Canvassing Mission: **3,946**
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. *Command Cell:*
        iii. Cyber Mission:
4. **Total Number of Volunteers each day:**
    a. 98 volunteers for 1/26/2016.
5. ***Number of homes with filters:**
    a. 18,487 homes had filters, per entered GIS data as of 1/25/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,091 were distributed on 1/26/2016, and total distributed to date is 94,301.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 7,862 were distributed on 1/26/2016, and total distributed to date is 186,309.
8. **Number of testing kits distributed (each day and to date):**
    a. 403 were distributed on 1/26/2016, and total distributed to date is 29,841.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
    *this data is updated bi-monthly
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
        *this data is updated bi-monthly
11. **Number of homes with safe drinking water:**

a. **1,099** homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

- Delivered iPads to warehouse and provided on-site training to drivers, followed with written instructions.
- Facilitated recycling planning meeting and planned for implementation of the program.
- *Attended local "Pastors and Police" meeting to coordinate water distribution plan with faith-based organizations.*
- Planning for a transition of operational control to local level.
- Coordinated the incoming donations of water and filters through the Michigan Community Service Commission.
- Coordinated volunteer management with Michigan Community Service Commission, ARC and other VOADs.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- *Continue door to door/Flint Water Response Teams (FWRTs), ARC only.*
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- *Validate all data from the WRTs/PODs and identify focus areas*

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - *The second map indicates the status of residents that have or have not received a filter.*

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. *We have 30 days to appeal and EMHSD staff is gathering information for the appeal.*

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.

- *Reference the rash I discussed on the call tonight:*
  - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
  - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
  - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - <u>As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

   * Numbers have not been updated due to the following circumstances:
     - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.

- Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
- At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642;**
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19

- Maps:
  - Parcel Contact Status, includes data as of 5 pm today.
    - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
  - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
    - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed , National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- *JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.*
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
  - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775

d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission:
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:***
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.

- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

- As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard 7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 133,662 (additional 24,634 donated)
   b. Filters 115,700
   c. Filter Cartridges 266,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard State type 3 teams---Goal tomorrow 300 homes per team
   b. *40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team*

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
   a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
   a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
   a.
4. **Total Number of Volunteers each day:**
   a. 310 volunteers for 1/23/2016

5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State :ype 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.

- Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have . National Guard/state/local agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:
  - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local ype 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed) state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).

a. Number of cases of water 90,337
b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 111,630 (additional 18,502 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 18 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- 100 personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard [illegible] type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations; apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.

- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. State ( ) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed

- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 12 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
-

01/16/16

01/17/16

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. ? State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have : state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - 34 NG soldiers have been in the PODS. 38 more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ((type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).

- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. *Distributed:*
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. tate ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.

- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but *it appears we have filters in over half the residences*):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
  - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.

- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- *Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)*

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)

- Ordered on 1/12/16 to arrive Wednesday
  - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR Vertical faucet mount
    - 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:

- 217 Door Hangers
- 152 Vacant Homes
- 117 Water Distributions
- 112 Filters
- 3 Pitchers
- 48 Water Test Kits

- 211
  - CALL VOLUME:
    - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:
- SitRep 6

Key items for tomorrow to note are:
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
  - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
  - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note
- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

- 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**

        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area

    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Chris

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/26/2016 08:00:00
Operational Period End:	02/02/2016 08:00:00
Situation Report No.	25
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/30/2016 08:00:00
SEOC Hours of Operation End:	01/30/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 30, 2016):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public information control.

Logistics:
- Continued researching warehouse options for donations management.
- Conference call with Kathy Fulton of ALANaid on potential warehousing and other needs.
- Assist with coordination of water donations from Senator Knezek.
- Requested a report on needed warehouse staff.
- Fielded resource requests.
- Fielded rapid response requests.
- Facilitated distribution team calls.
- Requested a daily report of volunteer staffing numbers be sent at least 24 hours prior to scheduled activity.
- Request made for one point of contact for all volunteer activities.

JIC:
- The JIC is operating from the SEOC on Saturday, January 30 and Sunday, January 31.
- Created a media monitoring report and looked for and corrected misinformation.
- Facilitated several media inquiries regarding water filters.
- Coordinated the posting of the Food and Nutrition Service response to Michigan's request to increase the access and availability of WIC benefits and services on the www.mi.gov/FlintWater site.
- Updated internal and general talking points about the ongoing Flint water emergency.
- JIC is planning on issuing the nightly activity news release.

Recovery Branch:
- Attended Local Brief, SEOC State Agency Briefing Meeting, and Distribution Process Meeting.
- Worked with GIS to develop an area map and spreadsheet with addresses based on data specified as "follow up required" for Red Cross teams.
- Worked with GIS to map and analyze City of Flint apartment buildings to send out water resource team.
- City Sections Visited Today: 28, 17, 11, 27, 29, 30, 31.
- City Sections Scheduled Tomorrow*: 27, 29, 30, 31, 22, 33, 4 as primary and 7, 1, 13 as secondary.
- 10 American Red Cross Teams scheduled for Sunday, January 31, 2016.

o Data is for 1/30/16 as of 5:00 pm:
o Total homes visited.
- 9,026 (round 3 total).
- 1,368 (today).

o Water Cases:
- 5,672 (round 3 total).
- 840 (today).

o Replacement Cartridges:
- 1,249 (round 3 total).
- 434 (today).

o Faucet Filters:
- 4,928 (round 3 total).
- 706 (today).

Planning Section:
- Published Sit Rep #25.
- Worked on the Small Business Administration worksheet and letter.
- Worked on incident time line for Governor's office.
- Updated the timeline of events for the Governor's office.
- Participated in local EOC, SEOC state agency, and distribution process conference call.

Operations Section:
o Facilitated state agency and local briefing calls.
o Follow up on reported resident concerns.
o Warehouse Numbers as of 1600:
□ *Water (liters):*
• 435,742.
□ Filters (faucet):
• 50,360.
□ *Replacement cartridges:*
• 362,597.
□ Test Kits (prepped):
• 25,019.
□ Test kits (un-prepped):
• 0 (all supplies out to ARC for assembly).
o PODs (1700 1/29 – 1600 1/30):
□ Water (cases):
• 9,743.
□ Filters (faucet):
• 622.
□ Replacement Cartridges:
• 932.
□ Filters (pitcher):
• 0 (no longer being distributed at PODs).
□ Test kits:
• 336.

Finance Section:
• Review current cost data from state agencies that have submitted information.
• Updated Resource Request Information
• Log Commodity Costs and Quantity Information
• Update spend plan with state agency costs

GIS Branch Updates:
• Created a church location map for local EOC.
• Map of DEQ water test sites with lead and copper level result.
• Provided image of water service curb maps for JIC.
• Created spreadsheet of residential vacant parcels for DEQ.
• Created team assignment area map.
• Created individual team area maps.

DTMB:
• Supporting logistics with requests.
• Demobilizing some of the iPads in field.
• *Michigan.gov website was attacked again today – site continued to run.*

DHHS-CH:
• 211 number receiving numerous inquiries regarding sample turnaround times
• Filters may not be effective with *levels exceeding 150 parts per million.*
• Media coverage on this – looking for JIC assistance.

DEQ:
• Request from ECC for 9 sampling teams to begin February 8.
• Coordination of the composition of teams for ECC.

Local EOC Update:
• Coordinated short-term resource needs of incoming volunteer groups.
• Addressing public concerns regarding filter efficiency.
• Addressing concerns regarding rapid response delivery system.
• Planning for transition of operational control to local level.
• Planning for demobilization of MSP/EMHSD support staff at Genesee County EOC.
• Attended conference call with Michigan Community Service Commission regarding long-term volunteer management plan.
• Refined 211 data entry and record keeping process.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWCC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Emergency Declarations

Local Declarations

Jurisdiction: Date/Time:

Declaration of Emergency for Michigan Contaminated Water (EM-3375), 1/16/2016

Weather Conditions

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI - January 30

* Quiet weather today Saturday (January 30) with rain Sunday (January 31).
* Milder temperatures this weekend with high temperatures in the mid 40s Saturday (January 30) and 45 to 50 on Sunday (January 31)
* Drier and cooler Monday (February 1st)
* Rain Tuesday afternoon (February 2nd) through Tuesday night - may mix with sleet, freezing rain and snow. Details below
* Turner much colder late next week (February 3rd-5th)

Tuesday afternoon (February 2) through Tuesday night looking like it could be a very rainy, wet stretch in the Flint area. Some portions of Michigan, especially the upper peninsula, northern lower and southwest lower could see significant snow and maybe some sleet and freezing rain with travel impacts and power outages possible. Flint area right now looks like mostly rain, but the forecast could change to include snow, sleet freezing rain for Tuesday and Tuesday night.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

JIC not operational in Flint today. PIO operated out of SEOC.

Agriculture and Rural Development (MDARD)

Friday, Jan 30th -
MDARD has developed plans for the coming week for water sampling and assessments of food businesses as well as follow up

based on test results, including verification and compliance assistance. As of 1/29, MDARD completed water assessments at all 18 food businesses in the high risk area and 135 of the 156 in the medium risk area, as well as 58 in the other parts of the City. The overall assessment compliance rate is 70.1%. We also have collected 74 water samples, with more scheduled for next week.

American Red Cross (ARC)

The American Red Cross deployed and supported 10 Water Response Teams on Saturday. We expect to have 10 teams available tomorrow as well.
Carpenters and Millwrights supplied hundreds of volunteers today. Some were assigned to accompany the Water Response Teams. The rest filled their own vehicles with bottled water and were assigned distribution routes
The Volunteer Reception Center (VRC) was in operation today and processed 169 event-based volunteers. Sunday's schedule is 9am to 3pm.
Assembly of water test kits will resume when materials become available.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Maintaining media awareness regarding situation and community activities. Provided link to Spanish version of CDC infographic "If you are pregnant" to tasking request via MI-CIMS http://www.cdc.gov/nceh/lead/tools/are_you_pregnant_spanish.pdf

Community Health (MDCH)

The CHECC remains activated at a level 2 with communications being coordinated between GCHD EPC, Federal Coordinating Officers, MDHHS Leadership and the SEOC.

CHECC hotline received multiple calls related to water filter efficacy. Overall total call volume remains low.

Nutritional planning and Disaster Behavioral Health planning is ongoing in the CHECC and with partnering agencies.

Received a communication from the Michigan Pharmacist Association offering to collaborate and brainstorm ways that pharmacies in the Flint area can support response efforts. A call may be scheduled with MPA and the CHECC to explore this option further.

Corrections (MDOC)

We continued to streamline operations at the warehouse to assure that PODs are well supplied. Today was the second consecutive day the PODS did not run out of supplies. We will continue to keep trucks dedicated to delivering to individual PODs and have Rapid Responses ready for any POD that gets to a critical level of supplies.

203 Water Samples were collected and delivered to the DEQ Lab in Lansing.

A total of 3 Semi-Tuck and Trailers and 3 full box trucks of water were and loaded today at the warehouse and delivered to the Home Depot parking lot for the large scale volunteer event with Red Cross.

We are in the process of training backfill personnel for the staff assigned to the detail.

Education (MDE)

1. Michigan School for the Deaf. Report to LARA on the latest word from the landlord is that the three new drinking fountains will be installed this weekend (Jan 30-31). He said we should allow him until mid-week, next week, as a back-up estimated completion date. Based on that, MSD contacted Joe Madziar, and he indicated next Friday (February 5) would be a tentative date for LARA to schedule Stevens Hall testing.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Responded to request from EPA by providing up-to-date spreadsheet of sample results through January 29, 2016.

Worked with Joint Information Center (JIC) to seek to manage public expectations about how long it will take for sample results to be mailed to residents, given what was reported in some media.

Confirmed that the City was provided the assistance they requested yesterday to send out sample test results.

Continued activities to comply with EPA Order, including:

Ordered Public Information Officer (PIO) for DEQ Incident Management Team to liaison with Flint Emergency Operations Center PIO, as well as documentation leader.

Several new mapping/GIS requests for overall analysis.

Initiated resource order for 10 new teams with law enforcement escort.

Secured addresses of currently unoccupied homes.

Human Services (MDHS)

Worked with SEOC PIO to address some concerns brought up by 211, due to some media stories related to water filter capabilities, and duration to obtain water test results.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Work by LARA/BCC at Freeman Elementary School was completed today. Testing performed by DEQ/LARA will take place tomorrow.

-A material list was completed for Neithercut Elementary School,

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 3013002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC:1LT Roland, John G. Cell: (Email: john.g.roland2.mil@mail.mil.com

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has 65 Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs).Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs.

a. SEOC has the POC with MDOT, standing by for a response.

1.) Workers from the City of Flint determined that they do not have the capabilities to support the road sign warnings. Local EOC was working through the Genesee County Road Commission and determined that they do not have the recourses to sustain our long term operations.

b. Flint City Electricians have assessed lighting around the outside areas of the PODs IOT fix lighting issues.

2.) Monday, 01 Feb 2016, at 0730hrs the electrician is planning on fixing the lighting issue at POD 8.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. oldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified.

10. LOGISTICS: No Change.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• POD operations are still functioning well. We are trying to improve the efficiency, professional appearance, and long-term establishment of the POD's, but, overall the POD's operations are remaining successful.
• We have about half of the current 1-125 IN BN soldiers who would like to stay on the TF Flint mission orders. For continuity purposes, my recommendation is to utilize these as long as possible.
• Flint water response team badges were provided to the POD's to ensure each soldier was a credentialed member of the Flint water response team.
• MSU football is planning on sending (20) football players to assist in POD operations. The LEOC is working in acquiring a roster so we can establish a plan to have them assist in the operation. Orange reflective vests and Flint water response badges will need to be acquired from the LEOC for these volunteers.
• Consolidated Station Report OUT (last 24 hours)
Bottled water- 7030 Water (Gallons)- 16 Lead Testing Kits- 269
Pitcher (23 cup)- 0 Brita Faucet Filter- 138 Brita Replacement Cartridge- 275
Pur Filter- 279 Pur Replacement Filter- 719

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

7:55 a.m. - Suzanne Pauley of DTMB, C# 517- 242-8745, contact Operations to advise that they were having problems with the Michigan.gov web site. She stated that the site was under a, " Distributed Denial-of- Service Attack (DDOS)." This information was forwarded to MC3.

Update (8:16 a.m.) - As of 7:43AM, Michigan.gov was back online. The site was loading slowly at first but now appears to be loading normally. Update also forwarded to MC3.

Additional information on the update from DTMB-They were taken offline by a SYN Flood DDoS attack at approximately 7:31AM this morning.

12:37 p.m. - DTMB reporting a new attack against mi.gov began about 25 minutes ago. The mitigation that IBM has in place absorbed the attack. They don't believe there was any end user impact. This information was forwarded to MC3.

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan.gov are being forwarded to the Operations Lt. The phone number for the on duty Operations Lieutenant is 517-241-8000

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management with daily updates and resource requests received.

DTMB Print & Graphic Services continues to provide translation of water documents and printing for water related documents.
Demobilizing iPads. 71 of 151 tablets have been returned to DTMB. Genesee County will retain 25 tablets for their use. Working with local EOC to determine where the remaining tablets are located.
Continue to provide server monitoring of MiCIMS servers and analyzing slow internet service at the Joint Information Center in the Flint State office Building.
Provided access cards and access to employees at the JIC and for Federal partners.
Providing a laptop with dual monitors and a printer for DEQ employee in Constitution Hall. Will be installed by COB Monday dual monitors and laptop installed at Constitution Hall.
Increased storage space for the JICManager Outlook mailbox.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

MDOT continues to maintain situational awareness and respond to issues regarding equipment and road conditions.

Subject:	SEOC Update 1/25/16 - Flint Water - Limited Distribution
Attachments:	2016-01-20 - Flint Lead MDHHS Sitrep.pdf; 20160125_1700_Parcels_Contacted.pdf; 20160125_1700_Parcels_Filter_Status.pdf; SitRep20.pdf

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/25/16 – 21th Day (20th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
- Validate all data from the WRTs/PODs and identify focus areas

Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:

- There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
- It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
- SEOC DEQ desk will continue to monitor and work this issue.

- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
  - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
   a. 29,994 current water system subscribers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
   a. Cases of water 141,982 (additional 24,634 donated)
   b. Filters 124,052
   c. Filter Cartridges 285,586
   d. Test kits 62,701

   * Numbers have not been updated due to the following circumstances:
   - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
   - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.

- At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Command and Control Staff for NG Personnel:
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.
- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.

- *The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.*
- Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
  - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland MI area).

Items to Note

- Deployed ; National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
  - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
  - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
  - As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

Additional Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs:
        ii. Number on Cyber Mission
        iii. Number with FWRTs:
        iv. Command and Control Staff for NG Personnel: __
4. **Total Number of Volunteers each day:**
    a. 315 volunteers for 1/24/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

Local EOC

Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).

- *Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by* Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have . National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- *SEOC Logistics worked on future resource planning and a local business commodity supply plan.*
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:
    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots

Commodity	Total to Date
a. Number of cases of water	148,866
b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State) type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,

6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local (ype 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.

- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. ational Guard State l type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water

testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard/state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 3 National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:
- SitRep 16

Status on Governor's request letter to the President:
- Emergency declaration received.

Key items for tomorrow to note are:
- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 18 National Guard (MSP supported), type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note
- Deployed 3 state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
        a. Number of cases of water 90,337

b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 9 National Guard, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- *DTMB is working to secure space in Flint for FEMA staff.*
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- 5 Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 95,760 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- *Prepare for possible surge in FWRTs utilizing NG personnel*
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have 5-6 state/local agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- *The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.*
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.

- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. · State ype 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs

- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.
- DTMB is working with DSEMIC and NC3 to monitor social media for information on cyber-attack yesterday.

01/16/16

- Approximately 5:00PM, Michigan.gov began to experience slowness in web page load time. Approximately 10 minutes later the Michigan.gov site became inaccessible caused by of a denial of service attack.
- IBM team was able to implement a mitigation strategy to stop the attack that began at 5:00PM. At 6:24PM the michigan.gov websites were again available to the public.
- Approximately 7:30PM, a new attack was initiated on the michigan.gov environment. The attack focused on the DNS servers and resulted in michigan.gov becoming inaccessible. Additionally, due to the nature of the attack other IBM customers were affected as well. IBM was able to implement a new mitigation strategy that resulted in the excessive traffic being blocked. At 7:53PM the websites were restored to normal operation.
- Shortly after the michigan.gov websites were restored, the State of Michigan was notified by our internet service providers that a DDoS attempt was made against our SOM DTMB servers in the external DMZ. Once detected, this attack was blocked and Michigan Cyber Security saw no signs of any other types of attacks.

01/17/16

- Genesee County was unable to access MiCIMS due to the State increasing filters. Michigan Cyber Security made adjustments to filter settings and their access to MiCIMS was restored.
- DTMB reached out to the City of Flint CTO, Paul Knific, offering any support they need. Right now they feel they have bigger issues than trying to get some of the things back online.

We currently do not have any additional information on the attacks on the City of Flint (cityofflint.com) or Flint Township Police (flinttownshippolice.org) websites. We'll continue to pass information along as we receive it.

- Information reported to the JIC:
  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. ! State (s) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. :ate . type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.

- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	3741			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- *Continue to work on Governor's Declaration of an Emergency*

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP get supplies, receive a mission location and deploy.

- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)

- Ordered on 1/12/16 to arrive Wednesday
  - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR Vertical faucet mount
    - 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:

    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• *Working to establish a warehouse for local resource storage.*
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• *Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.*

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

- 2500 Lead Testing Kits

- *Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to* ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**

        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area

    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Flint Water Lead Project

Michigan Department of Health and Human Services
Situation Report for January 20, 2016

Governor Snyder declares a state of emergency for Genesee County due to the health and safety issues related to lead in city of Flint drinking water.

The Community Health Emergency Coordination Center (CHECC) is at Level 2 Activation

****NOTE: Contains potentially Identifiable Information- REDACT AS INDICATED****
New items for the day listed first and in bold print.

Daily Briefing and Situation Report prepared by Linda Dykema

Surveillance Indicators: People Tested for Lead 10/1/2015 to 1/8/2016: 2,642;
Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 28
Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 15
Severity Indicators: Hospitalized/Discharged - 1/1; Deaths - 0

DAILY ACTIVITY SUMMARY

Elevated Blood Level (EBL) Environmental Investigations – ETC Contractors, Wes Priem, Courtney Wisinski

- EBL report through 1/20/2016
  - 23 families contacted
  - 17 EBL investigations completed.
  - 17 Water sampling completed.
  - 8 Homes where water filters were observed
  - **10 EBL Reports Received.**
    - **10 homes with lead dust hazards**
    - 3 homes with lead in soil hazards
    - **9 homes with lead-based paint hazards**
    - **6 homes with lead detected in tap water**
      - 1 home with lead water levels greater than 15 ppb
  - 4 investigations scheduled.
  - **6 applications received for the Lead Safe Homes Program,** 1 family enrolled.
- 1 home was found to have elevated lead concentrations (72 ppb) in water from a bathroom tap. The family has been advised not to use the tap for consumption or brushing teeth. An additional filter will be provided to the family and options for replacing the fixture will be explored.

MDHHS/Genesee County Health Department (GCHD) Case Management (CM) Services – Nancy Peeler

- CM report through 1/8/2016:
  - # of contacts attempted: 186 (0-5 year olds) and 12 (6-17 year olds)
  - # offered CM: 134 (0-5 year olds) and 12 (6-17 year olds)
  - # CM started: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # of children receiving CM who live in Flint: 25 (0-5 year olds) and 3 (6-17 year olds)
  - # billed to Medicaid: 14 (0-5 year olds) and 1 (6-17 year olds)
  - # other disposition: 30 (0-5 year olds) and 1 (6-17 year olds)

Epidemiology/Surveillance – Corinne Miller, Patti McKane, Martha Stanbury, Bob Scott, Jessica Cooper

- Developed metrics related to elevated blood lead testing among children < 6 years of age in Flint who are enrolled in Medicaid.
- Held conference call with CDC to discuss development of tools related to identification of and recommendations for facilities at greater risk for transmission of opportunistic pathogens.
- Updated Analysis/Summary on first illness wave investigation with recently acquired patient information and illness-related mortality standard.
- Supplied Legionellosis cases to Vital Records for linkage to ascertain any unreported deaths.

Filter & Water Distribution Sheryl Thompson

- **Filters distributed January 1-20, 2016**

Brita Filters	**1,706**
Zero Water Pitchers	**204**
PUR Filters	**92**
Replacement Cartridges - Brita	**2,157**
Replacement Cartridges - PUR	**382**
Replacement Cartridges - Zero	**247**

Communications/Information Sharing – Linda Dykema, Eden Wells

- **Hosted site visit from ATSDR/NCEH staff.**

Health Education Resources Updates - Michelle Bruneau, Emily Houk

- Continuing to write and coordinate additions to the EBL Case Manager Binder, now known as the MDHHS Lead Safe Family Guide Book. (MB)
- Began work on filter cartridge changing fact sheet; clarifying uses of filtered/vs unfiltered water (MB)

Toxicology - No Updates

WIC - No updates.

Healthcare/Providers - No updates

DEQ Information - Linda Dykema as Liaison

- DLARA plumbers will replace fixtures at Freeman Elementary School that were previously tested and found to have > 15 ppb of lead in the water. MDEQ will conduct a "deep flush" of the school plumbing since many lines have been unused for several months. MDEQ will then retest of the water from the new fixtures to confirm whether or not these efforts have been effective in reducing or eliminating exposure to lead in the water.

Damage Assessment and Emergency Status Report

MI CIMS Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	20
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/25/2016 08:00:00
SEOC Hours of Operation End:	01/25/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 25):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources.
- Public Information Control.

- Logistics:
- Worked with FEMA/DHHS on warehouse tracking status/strategy.
- Worked with MDOC on warehouse management transition.
- Ordering and projecting future orders of water resources and commodities.
- Worked on future resource planning.
- Worked on local business commodity supply plan.
- Coordinated and followed through on various resources requests with state agencies.
- Continued inventory monitoring and rapid response resolution and tracking.
- Participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Ordered 5 iPads for each rapid response driver to track deliveries.

- JIC:
o Media avail at fire station 8 this morning received positive news coverage.
o The NAACP is holding a public meeting at U of M Flint on Tuesday.
o Rachel Maddow will hold a town hall meeting on Wednesday.

- Recovery Branch:
o Updated Flint Water Response Team plan for tomorrow.
o Updated ICS 204 forms (Obj. 1 and Obj. 6) for the new operational period.
o Continued demobilization of resources from team ramp up.
o Attended Local EOC briefing, Tactics Meeting, Operations Plan Meeting, and Distribution Process Meeting.
o Worked with GIS to acquire addresses for water response team responses.

o Data is for 1/25/16 as of 5:00 pm:
o Total homes visited.
□ 313 (visited after 5pm 1/24).
□ 2,596 (round 3).
o Water Cases.
□ 192 (delivered after 5pm 1/24).
□ 1,041 (round 3).
o Replacement Cartridges.
□ 55 (delivered after 5pm 1/24).
□ 0 (round 3).
o Faucet Filters.
□ 57 (delivered after 5pm 1/24).
□ 524 (round 3).

- Planning Section:
o Published Sit Rep # 20.
o IAP # 7 developed and approved today.
o Worked with Resource Unit Leader and Logistics to enhance number tracking.
o Participated in daily conference calls (local, state agency and distribution process meeting).
o Provided burn rate data from PODs and FWRT to FEMA.

- Operations Section:
o MDOC assumed all warehousing responsibilities today.
o 54 Red Cross volunteers were active across the operation today.
o 81 Event based volunteers were active on the operation today.

o 65 National Guard on ground today.

o Warehouse Numbers for today were not able to be captured this evening but will be reconciled and sent first thing tomorrow morning.

o PODs (1700 1/24 – 1600 1/25).
□ Water (cases).
• 8,994.
□ Filters (faucet).
• 597.
□ Replacement Cartridges.
• 722.
□ Filters (pitcher).
• 7.
□ Test kits.
• 502.

• Finance Section:
• Discussions with state agencies to explain SEOC financial processes and the current emergency declaration accounting policies for response efforts.
• Discussion with Keith Francis, Genesee County Controller, to explain current emergency declaration, what Category B costs are and why EMHSD is asking for those costs from all state agencies and locals.
• Reviewed state agency financial information received for update to current spend plan.
• Reviewed Donations Management plan in an effort to obtain more information from the warehouse due to FEMA requests for information.

• GIS Branch Updates:
• Produced updated distribution maps for the JIC.
• Produced updated map to assist with team assignments for tomorrow.
• Work on verifying LARA's facilities on the Flint Water System and those visited by Water Response Teams.
• Removed Vulnerable Populations web map due to HIPPA concerns.
• Geocoded and incorporating 3690 data records from 1/6, 1/7, 1/8, 1/9, 1/17 from the Office of Genesee County Sheriff and points from 1/17 from Water Response Teams.

DTMB:
• Worked with the department of corrections today to coordinate state assets for continued support of operations tomorrow.
• Worked with logistics to return rented vehicles and consolidate resources.
• Working to secure additional space in Flint State office building for FEMA.

DHHS-CH:
• Coordinating with the DEQ to ensure household testing data is available to the public.
• CHECC remains operational today to field information requests.

DEQ:
• Working with EPA to address issue with chlorine pumping station.
• Activated DEQ ECC to work on long term planning.
• Working to modify laboratory reporting.
• Working to disseminate school sampling data on website.

Local EOC Update:
• Coordinated with Food bank of Eastern Michigan for issuing of Resource Request.
• Coordinating and following up on vehicle demobilization.
• Facilitated rapid response deliveries to special locations.
• Finalizing components of recycling program.
• Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
• Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
• Coordinating volunteer management with Michigan Community Service Commission.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
7. Gather, analyze, and disseminate GIS data to develop products for future planning.
10. Collaborate with local and volunteer agency partners to solidify the Flint Water Operations Plan.
3. Improve and maintain the public information strategy and process.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT and the FWICC
4. Develop a long term public health and services plan.
6. Develop an overview of possible assistance programs.
9. Enhance situational awareness and common operating picture of all activities.
5. Continue to maintain adequate staffing to support operational requirements.

Weather Conditions

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI - January 25

- Rain showers likely after 6pm Monday evening (January 25) through much of Monday night.
- Rain should change to light snow late Tuesday morning (January 26) with on and off snow through late Wednesday morning (January 26). Less than 1 inch of snow accumulation expected.
- Breezy Monday afternoon (January 25) through Tuesday night (January 26). Wind gusts under 30 mph. Tuesday (January 26) will be windier than Monday (January 25).

High temperatures Monday (January 25) through Saturday (January 30) in the upper 20s to mid 30s.

Risk for frostbite from exposure over the next week is low unless exposure time for the individual is several hours in length with the person engaging in little to no activity.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 25.

State agencies at the JIC included the Michigan State Police and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Transportation, and Military and Veterans Affairs. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:

- Held a media availability at Flint Fire Station No. 8 to provide an update on the activities and mission of the water response teams. Maj. Gen. Gregory Vadnais, Spl/F/Lt. Dave Kaiser, Genesee County Sheriff's Office and the American Red Cross participated in the event. Roughly 10 local, state and national media outlets attended.
  - o MSP F/Lt. Dave Kaiser conducted interviews with WNEM-TV 5, ABC 12, and MLive after the briefing. Maj. General Vadnais

conducted a live interview with WNEM-TV 5 during the noon newscast.
• Media hotline staff answered over 10 emails and phone calls ranging from donations to updates about the water response teams.
• Key agency PIOs conducted multiple news interviews throughout the day, including interviews with Michigan Radio, Flint Journal and Detroit News.
• Coordinated with FEMA to arrange a Congressional/Legislative briefing for tomorrow afternoon.
• Created a media monitoring report and looked for information requiring correction; found none.
• Updated internal and general talking points about the ongoing Flint water emergency.
• Continued routing public information materials for approval, including communications from MDE and MDARD.
• JIC is planning to issue the nightly activity news release around 7 p.m.

Agriculture and Rural Development (MDARD)

Monday, Jan. 25 - Compliance Tracker spreadsheet drafted to be updated daily based on field assessments of food operations in Flint. Once approved, this spreadsheet will be posted on the Flint water website daily. Additional field assessments completed since COB Friday is 41 (3 from the high risk list); and 7 additonal water samples were taken. Conference call with animal industry stakeholders being planned. Responded to referrals from the JIC regarding questions about animal health.

American Red Cross (ARC)

The American Red Cross deployed and supported 11 teams for neighborhood canvassing (Water Response Teams). 33 Event-Based volunteers were included in our teams.
The Volunteer Reception Center (VRC) was in full operation today.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. The Michigan Civil Rights Commission (MCRC) has adopted a resolution to hold hearings on the Flint water crisis starting in the next 30 days; will post/forward a copy of the resolution once it becomes available. Pursued copies of the palm card/door hanger and water sampling instructions in all available languages. Reviewed media coverage of local protests and weekend water delivery/community engagement activities. Addressed concerns received from staff from community and advocates through internal channels.

Community Health (MDCH)

The CHECC remains activated at a Level 2. Phone bank received a low volume of calls today.

MDHHS leadership and CHECC staff met with federal partners from SAMHSA and CDC/HHS today to discuss technical assistance and federal activities. Michigan's HHS Regional Coordinator will serve as the lead within a Unified Coordination Center that will be stood up within the next couple of days to help streamline information and coordinate activities. An LNO will be located in the CHECC and serve as the liaison between the Unified Coordination Center and MDHHS.

Confirmed with the local health department that the palm cards that have been translated to Arabic will be delivered to Flint's Arab-American Heritage Council.

Participated in tactics meeting and updated ICS Form 204.

Confirmed with FEMA that blood lead testing kits may be an allowable purchase under the "other related necessary resources" within the Emergency Declaration if, and only if, the State and Locals are unable to procure them otherwise. Therefore, MDHHS has proceeded today with fulfilling the LHD order for blood lead testing kits and ancillary supplies.

Corrections (MDOC)

At this time the MDOC has assumed responsibility for all warehouse operations. The mission is to supply the PODS (Point of Distribution) with water, filters and test kits. Additionally, we will be handling requests to support "rapid response" deliveries as directed for homebound residents and deliveries identified by the Local EOC and SEOC. Lastly, we will also be assisting in returning rented and donated vehicles to their point of origin.

We continue collecting and delivering water test kits from Flint to the DEQ lab in Lansing.

We will continue to fill resource requests and track/monitor all ground resources throughout the week and report the final assets in our daily reports.

The MDOC will have the following resources dedicated to Warehouse Operations for Tuesday, January 26, 2016:

(13) - MDOC employees

(6) - MDOC SAI prisoners w/Corporal – SAI supplying

(2) - Passenger vans w/driver – SMT and RGC supplying

(1)- Regular Cab Pickup w/driver – Regional Maintenance supplying

(1) – F-250 Pickup – Mike Whitford and Lt. Fred Bevins supplying

(5) – Box Trucks w/driver – DRC, WHV (Vehicle Only) and Regional Maintenance supplying

(1) – 20 Person Shuttle Bus w/driver (Sent to Red Cross Volunteer Sight) – Mike Whitford and Lt. Fred Bevins supplying

(1) - 53' Refrigerated Semi-Trailer – Mike Whitford and Fleet Supplying

(3) - Electric Pallet Jacks - Regional Maintenance supplying

(7) – Hand Pallet Jacks - Regional Maintenance supplying

(1) – Warehouse Manager - Regional Maintenance supplying

(1) – Warehouse Security Person w/vehicle – TCF Supplying

All vehicles drivers have 800 MHz Radio Operability (G EVENT 9)

Education (MDE)

1. The Michigan Department of Education (MDE) is requesting additional USDA Commodity Foods under the Household Disaster Feeding Distribution program from the United States Department of Agriculture (USDA) Food and Nutrition Service (FNS). These additional foods will be distributed to eligible TEFAP (The Emergency Food Assistance Program) participants by current distributing agencies within the 16 affected zip codes for the Flint Water Crisis.

2. USDA approved the request from the Michigan Department of Education (MDE) submitted on January 21, 2016, seeking additional federal funds in the amount of $62,700 for immediate expansion of the Fresh Fruit and Vegetable Program (FFVP) in Flint, Michigan.

3. Michigan School for the Deaf report that Lieutenant Governor visit went very well. No issues reported.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

Coordinated GIS support staff from DNR and EMHSD. ARC GIS accounts to be established for support staff, DEQ Director, DEQ EMC and DEQ SEOC Representatives to view all available data.

Requested modification to iPad application utilized by volunteer plumbers who are assisting residents with water filter installation to allow for capturing the water service line type.

Activation of the department emergency coordination center and establishment of SharePoint site.

Requested IT support for modification of laboratory Crystal Reports this has been fulfilled by DTMB.

Forwarded Holmes STEM Academy, Doyle Ryder Elementary and Potter Elementary Reports to SEOC PIO for posting to website.

Human Services (MDHS)

MDHHS Budget provided break down of funds expensed through 01/25/16 on the Flint Water Project.

Conferencing with 211 about their concerns, their ability to cover surges of calls, and a standardized form for rapid response deliveries.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

-Updated the LARA Executive Team

-Re-assigned translation of water analysis request forms to DTMB; they have a resource that can provide translation of documents with 24 hour turnaround.

-Finalizing Health Care Facility survey information and comparison.

Military and Veterans Affairs (DMVA)

1. DTG: 2516002016

2. UNIT: Points of Distribution (PODs), TF FLINT (1-125 IN)

3. POC: 1LT Roland, John G. Cell: 7 Email: john.g.roland2.mil@mail.mil

4. PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5. SITUATION OVERVIEW: 1-125 IN has Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs). Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits.

6. OWN SITUATION DISPOSITION /STATUS: Currently 1-125 IN has Soldiers on ground supporting the mission.

7. OPERATIONS: Operations for the next 24 hours are to sustain water/filter distributions throughout the esignated fire stations and track all distribution incoming and outgoing through the PODs.

8. PERSONNEL: Soldiers are currently assigned to the POD operations. Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8.

9. INTELLIGENCE / FORCE PROTECTION: No force threats have been identified.

10. LOGISTICS: PODs are short on pallet jacks.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: N/A

13. COMMANDER'S EVALUATION:
• Changes to water distribution guidelines have been implemented seamlessly with each change. Proficiency and efficiency in reporting procedures for filter/water distribution and tracking has improved the logistics of keeping water in stock at the PODs.

National Weather Service (NWS)

NWS Detroit will begin providing morning SEOC brief and Activity Log posts effecting Tuesday, January 26th. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co. EOC for water and filter follow-up.

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E. Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

11 Red Cross Teams completed WRT duties, homes continue to be visited. MDOC continues to staff the warehouse, and the Michigan National Guard staffed 5 distribution PODS.

The ⌣ cyber trained personnel from MING who were called upon to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters reported to Headquarters on 1/22/16. MING personnel are currently on stand-by and will be called upon when needed.

Technology, Management and Budget (MDTMB)

Genesee Sherriff Dept is retaining 20 IPADs for extended use
Arabic Palm Cards have been printed. Working with Logistics on delivery.
3 trucks to be redeployed for POD resupply 1/25
Demobilizing passenger vehicles and U-Haul trucks.
Providing additional office space for Federal partners at the Flint State Office Building.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

Subject: SEOC Update 1/22/16 - Flint Water - Limited Distribution
Attachments: SitRep17.pdf; HHS PPP.PPTX

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA *(due to time only finished 75%)*

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local , type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- *Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.*
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.

- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

    1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

    2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

    3. Resources purchased:
        a. Cases of water 130,782 (additional 21,682 donated)
        b. Filters 115,700
        c. Filter Cartridges 266,200
        d. Test kits 61,161

    4. Teams going out tomorrow:
        a. National Guard State (t) type 3 teams -- Goal tomorrow 300 homes per team
        b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B

and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard/state/local agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed 18 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:
  - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed

- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:
- SitRep 16

Status on Governor's request letter to the President:
- Emergency declaration received.

Key items for tomorrow to note are:
- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard (MSP supported), type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note
- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

  - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
   a. Number of cases of water 90,337
   b. Filters 73,229
   c. Filter cartridges 185,852

d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation -- Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- 100 NG personnel on the ground with the WRTs tomorrow with 100 more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794
   b. Filters 69,730
   c. Filter cartridges 184,457
   d. Test kits 16,671

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 95,760 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:

a. National Guard) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.

- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

    - <u>As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)</u>

1. 21,393 homes visited by the FWRTs to date.

    2. Distributed:
        a. Number of cases of water 37,313
        b. Filters 53,713
        c. Filter cartridges 169,520
        d. Test kits 7,379

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 82,992 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. ; State s) type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

<u>Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency</u>

<u>Mission focus for the day:</u>

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs

- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
    - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
    - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
    - 4,963 homes visited today.
-

01/16/16

01/17/16

- As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State ;) type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have 10 state agency, type 3 teams (6-9 personnel), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 57,456 (additional 12,884 donated)
   b. Filters 108,520
   c. Filter cartridges 239,081
   d. Test kits 28,901

5. Teams going out tomorrow:
    a. State (type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have state agency, type 3 teams , with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
    - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

    - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 18,576
    b. Filters 45,916
    c. Filter cartridges 165,382
    d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.

- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.

- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have 3 soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- *Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with* the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	394	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.

- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)

- Ordered on 1/12/16 to arrive Wednesday
  - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR Vertical faucet mount
    - 2,500 – PUR Horizontal mount
  - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
    - 10,000 – PUR replacement filters (3 pack)
    - 10,000 – PUR replacement filters (single pack)
  - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
    - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:

    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***

- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers

- 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
  - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
  - We have ordered an additional (expedited delivery with ETAs tomorrow)
    - 40,000 Brita Filters
    - 40,000 Brita Replacement Filters
    - 1000 Zero 8-Cup Pitchers
    - 1000 Zero 8-Cup Pitchers
    - 2000 PUR Replacement Filters
    - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
  - Requested PSA on the radio. Media has been approved and working with MAB.
  - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
  - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
    - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
    - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.

- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff (2-positions) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.

- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**

        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area

    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:13 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: RE: Update - Genesee County Declaration

I forgot to advise that we have asked key state agency PIOs to be in the SEOC for the briefing.

From: Kelenske, Chris (MSP)
Sent: Tuesday, January 05, 2016 6:06 PM
To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	01/19/2016 08:00:00
Operational Period End:	01/26/2016 08:00:00
Situation Report No.	17
SEOC Status:	Full
SEOC Hours of Operation Begin:	01/22/2016 08:00:00
SEOC Hours of Operation End:	01/22/2016 20:00:00

Executive Summary

SEOC Update:
Accomplished today (January 22):

The SEOC continues to provide:
- Situational awareness.
- Common operating picture/objectives.
- Coordination with city/county.
- Potential coordination with federal agencies.
- Incident prioritization.
- Coordination of life/health safety measures.
- *Resources.*
- Public Information Control.

- Logistics:
o Worked with FEMA/DHHS on warehouse tracking status/strategy.
o Coordinated resources and needs with donations management.
o Working with Red Cross to provide food bank delivery resources.
o Continuing inventory monitoring and hot shots resolution and tracking.
o Ordering and projecting future orders of water resources and commodities.
o Working on local business commodity supply plan.
o Coordinated filter/cartridge donation list.
o Worked with MDTMB for more iPad's, more vests, and more door hangers for weekend volunteer surge.
o Worked with the JIC and GOV to establish a business resource submission tab on www.helpforflint.com.

- JIC:
o News release concerning the water response teams went out this morning.
o Have had a number of media request concerning resources for immigrants and population less proficient in English.
o Have received numerous inquiries from celebrities on how they can assist and donate.

- Recovery Branch:
o Continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
o Data is for 1/22/16 as of 5:00 pm:
o Total homes visited.
- 37,679 (round 2 total).
- 5,920 (today).
o Water Cases.
- 6,439 (round 2 total).
- 3,634 (today).
o Replacement Cartridges.
- 2,494 (round 2 total).
- 1,827 (today).
o Faucet Filters.
- 3,373 (round 2 total).
- 1,855 (today).

- Planning Section:
o Published Sit Rep # 17.
o Worked with GIS to outline required maps for future planning efforts.
o Participated in daily SEOC briefings and distribution process conference call.
o Worked on the further development of Long-Term Recovery.

- Operations Section:
o Facilitated daily SEOC briefing and local EOC call.
o Continued to develop phased canvassing roll out.
o Worked on getting local contact into the JIC.
o Worked with JIC to develop messaging for resources and donations.

o Warehouse Numbers as of 1800:
- Water (cases).
- 65,592.
- Filters (faucet).
- 24,806.
- Replacement cartridges.

- 134,859.
❑ Filters (pitcher).
- 14,922.
❑ Test Kits (prepped).
- 1,398.
❑ Test kits (un-prepped).
- 21,024.

o PODs (1700 1/20 – 1600 1/21)
❑ Water (cases).
- 10,321.
❑ Filters (faucet).
- 954.
❑ Replacement Cartridges.
- 449.
❑ Filters (pitcher).
- 0.
❑ Test kits.
- 699.

- Finance Section:
o Develop report of state agency purchases made since January 6th activation.
o Work with state agency financial contacts to let them know how they should be capturing costs.
o Developed state agency reporting schedule of financial information.
o Work with local EM to obtain incident related costs from City of Flint and Genesee County.
o Reviewed information from FEMA regarding use of donations as state match.

- GIS Branch Updates:
o Refined version 3 of GIS mobile application data.
o Began repairing V2 and V1 of the mobile application data. 85% complete.
o Prepared map of vulnerable population in the affected area.
o Prepared a map of hot spots of vulnerable population for MDARD.
o Created a map of the water mains for MDARD.
o Pulled data from GIS mobile application for the recovery unit.
o Provided total installed filters from V3 to planning section.
o Provided map for local EOC to use for team assignments.
o Provide maps for JIC to utilize for press release.
o Coordinated with FEMA on lead lines mapping (ongoing).
o Coordinated with local GIS and confirmed they do not have unit counts for multi-tenant in databases.
o Working on tying app data to parcels for running total by residence.

DTMB:
- Process additional resource requests for warehouse commodities, supplies for volunteer teams for the weekend.
- Provided FEMA staff with access cards, office space, and parking for Flint office building.
- MI CIMS will be monitored this weekend for performance issues.

DHHS-CH:
- CHECC will remain operational from 0800-1700 over the weekend to field calls.
- EPA nutrition pamphlets arrived today.
o 10,000 English.
o 3,000 Spanish.
- GIS is providing assistance for the US DHHS.
- Liaison officer from the US DHHS will be in the CHECC.

DEQ:
- 853 water samples have been processed and an additional 1200 will be processed today.
- Map requested from GIS on locations that have offered to be a testing site.
- Michigan School for the Deaf will be sampled tomorrow.
- Samples from the food establishment will be prioritized in the lab (5-day turn around).

Local EOC Update:
- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
- Working on tracking incidents at warehouse and car accident with local EOC personnel.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.

Incident Response/Recovery Priorities/Objectives

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy and process.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Maintain GIS strategy.
8. Maintain coordination between partner agencies and organizations to include FEMA IMAT.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Emergency Declarations

Local Declarations

Jurisdiction(s): Date/Time:

Genesee County, Public Health Emergency, 10/01/2015
City of Flint, Declaration of State of Emergency, 12/15/2015

Genesee County, Request for Governor's Emergency/Disaster Declaration, 01/04/2016

State Declarations

Jurisdiction(s): Date/Time:

Declaration of Emergency for the City of Flint and the County of Genesee, 01/05/2016

Federal Declarations

Jurisdiction: Date/Time:

Declaration of Emergency for Michigan Contaminated Water (EM-3375), 1/16/2016

Weather Conditions

Watches/Warnings

Upcoming Forecast

Forecast Update for Flint, MI - January 22

- Cold continues through the weekend, though not as cold as earlier in the week
- On and off light snow possible Friday (January 22) and Saturday (January 23). No significant accumulation expected.

Slightly warmer weather expected over the weekend. Above freezing temperatures will be possible starting Sunday.

Some rain mixed with snow is possible Monday (January 25).

Risk for Frostbite from Exposure over the next week is low unless exposure time for the individual is several hours in length with the person engaging in little to no activity.

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Jan. 22.

State agencies at the JIC included the Governor's Office, Michigan State Police, Michigan Economic Development Corporation, and Departments of Environmental Quality, Health and Human Services, Agriculture and Rural Development, Licensing and Regulatory Affairs, and Military and Veterans Affairs. The Federal Emergency Management Agency, Genesee County Sheriff's Office and American Red Cross were also present.

Tasks accomplished:
- Drafted social media posts about water response operations taking place.
- Observed rumors about identification being required at water resource sites. Drafted a news release to provide clarification.
- Created a media monitoring report and looked for misinformation.
- Media hotline staff answered over 15 emails and phone calls ranging from contractor services to complaints about ID being required at water resource sites.
- Updated internal and general talking points about the ongoing Flint water emergency.
- Continued routing public information materials for approval, including communications from MDE, MDARD, MDEQ, LARA and DMVA.
- JIC is planning to issue the nightly activity news release around 6 p.m.
- MSP F/Lt. Dave Kaiser worked with the news media about ongoing water emergency efforts, conducting interviews with Fusion TV and Yahoo News. He will conduct an interview on WNEM-TV 5 tonight about ongoing to water response efforts.
- MDHHS spokesperson conducted an interview with WNEM-TV 5 about bathing in water and whether it's safe to bathe in water.

Agriculture and Rural Development (MDARD)

Friday, Jan. 22 - 1) MDARD is continuing their assessments and water sampling at food establishments. We are talking with businesses about their needs and potential needs before making resource requests. 2) MDARD is coordinating closely with FDA-Detroit District Office and sharing information for possible joint activities. 3) Animal Industry Division has been calling veterinary clinics in Genesee County and talking personally with veterinarians and staff. 4) MDARD is coordinating with MDEQ to get water lead level results to food businesses faster.
MDARD response strategy is to assess all designated as high and medium-risk establishment; 100% assessment and water sampling of high-risk establishments. Total Number of Establishments Planned for Assessments for MDARD Food & Dairy (FDD) and Genesee County Health Department (GCHD): 175 (FDD-84, GCHD-91)
High-Risk- 19 (8-GCHD, 11-FDD), Medium-Risk- 156 (83-GCHD, 73-FDD)

Cumulative totals:

95 assessed to date
67 found in compliance (working with those other businesses on specific needs)
18 water samples have been collected
26 assessment will require follow-up visits within 10 days

58 calls have come in for scheduling water sampling appointments.

American Red Cross (ARC)

The American Red Cross continued assembly of water test kits at ARC headquarters.
We deployed and supported 15 teams for neighborhood canvassing (Water Response). We expect to field 40 teams on Saturday.
A total of 124 Red Cross volunteers were active on this operation today.
We supplied lunches for all of the event-based volunteers.
The Volunteer Reception Center (VRC) was in full operation on Thursday. 68 volunteers were processed.
The Volunteer Reception Center (VRC) will remain open on Saturday and Sunday.
We continued to provide warehouse and inventory management.

Civil Rights (MDCR)

Continue to review activities to provide support and assistance to assigned Human Services branch and other SEOC entities. Requested clarification on data capture and ID validation at PODs for water and filter distribution, mapping, and messaging as to same. Posted SOM lists of available translators/interpreters (rev. Dec 2015). Briefed senior leaders MDCR on current operations and issues. Engaged community group as possible bi-cultural/bi-lingual resource for water resource teams; will follow up with Logistics as possible service donation. Confirmed 2-1-1 has language line capacity for handling non-English speaking calls within 60-90 seconds of learning of language need.

Community Health (MDCH)

Worked with GIS and SEOC Logistics to update the maps provided from GIS to also include the locations for "hot shot" requests filled as of 1/20/16, in addition to separating-out the homecare patients from the other categories of medically-dependent individuals identified. Created a resource request for SEOC Logistics to provide this hot shot location data weekly. Maps provided in Activity Log.

Emailed GCHD EPC regarding concerns reported from the Michigan School of the Deaf in Genesee County in reference to bathing for students who live in the school dormitory (information relayed from LARA EMC). Inquired if GCHD could send a SME, suggested the local Medical Director, to the February Parents meeting to answer their questions and provide additional information. LHD EPC forwarded this request to GCHD leadership and will confirm whether or not they can send someone from the health department.

Forwarded hot shot request received in the CHECC to SEOC Logistics to track and coordinate with the LEOC.

Provided information from MDHHS/CDC Medical Epidemiologist to 2-1-1 regarding an "unresolved" question received by 2-1-1. Abbreviated version below:
Q: Can Legionella bacteria be aerosolized and inhaled if people boil water on the stove or use a humidifier to humidify the air in their homes?

A: Boiling water is one effective way to kill bacteria including Legionella, so steam that comes directly from a source of boiling water will not contain live Legionella and is not a source for Legionella transmission.

Followed-up with LEOC EMHSD Liaison and SEOC Ops regarding health-related calls being forwarded from 2-1-1 to the CHECC hotline after hours. Confirmed that neither the CHECC hotline, nor the GCHD phone number, is being monitored after hours to receive health-related calls. 2-1-1 should inform callers to call back during normal business hours (0800 - 1700) for health related questions that 2-1-1 is unable to answer. The CHECC is not considering answering calls to the hotline after hours due to their current low call volume.

GCHD EPC confirmed that the 13,000 EPA nutritional pamphlets that were ordered DID arrive this morning to the GCHD (23 boxes).

St. Joseph Mercy Health System offered to provided resources and support for lead screening. This information was forwarded to SEOC logistics. The St. Joseph Health System POC asked to speak to someone today; therefore, contact information was provided to them via the MDHHS PIO for them to contact GCHD.

Requested information from DEQ to confirm whether or not zip codes 48531, 48550-48557 are on the Flint Water Authority system. Medicaid includes these zip codes in their reports related to Flint; however, they were not listed in the 16 zip codes that have been identified for the response. DEQ is still working on this request and will provide information when available.

Provided MDARD EMC with GCHD Environmental Health POC contact information for coordinating efforts to ensure restaurants in Flint receive the water resources they need. Efforts will focus on the restaurants in the most highly impacted areas first.

Inquired with MSP regarding the Water Response Teams visiting zip code 48502. This is a business district; however 138 children are on Medicaid live in that area. Confirmed with GIS and MSP that the WRTs have canvassed the zip code area 48502, when the teams canvassed zip code area 48503 that completely surrounds the 48502 area. Map provided in Activity Log.

Corrections (MDOC)

We continue to fill resource requests and track/monitor all ground resources throughout the day and report the final assets in evening reports. Executive Team (MDOC) was briefed as follows:

1. The primary duty of our employees is to transport and support the (18) ten member Flint Water Resource Teams on the ground, going door to door providing water, filters and special individual needs. This team is made up primarily of Michigan National Guard troops and Michigan State Police staff.
2. Provide for the pickup and transportation of the water samples from the seven designated collection sites in Flint and deliver to the DEQ Laboratory daily.
3. Assist the Flint Food Bank to deliver/transport emergency food deliveries to ensure available warehouse space is available to receive additional emergency food items.
4. Provide pickup and delivery of water bottle testing kits from the warehouse to the American Red Cross so they can be assembled and transported back to the warehouse where they will be delivered to the citizens by the Water Resource Teams.
5. Provide management and organizational support to the main 80,000 square foot main warehouse located on Clio Road.
6. Provide prisoner work crew support inside the warehouse to load and unload, stack water deliveries and assist in garbage/debris management.
7. The weekend operational period requires an increase in the need for logistical support due to the notable increase in available volunteers. Specifically, the weekend force is expected to increase by over 300 persons. Each of these volunteers will be assigned as a Flint Water Resource Team and require transportation, supplies, law enforcement security oversight and lunch. Our staff are a primary source of transportation for Water Resource Teams and their participation is critical to the success of the mission.

We also had a water main break at DWH (Prison Hospital in Jackson). Bottled water is being brought in from the Regional Warehouse (6000 bottles). The situation was handled locally without incident.

All current resources will remain for tomorrow, January 23, 2106.

Education (MDE)

Michigan School for the Deaf:

1. Landlord's action plan added to MiCIMS.
2. Team of LARA and DEQ staff have mapped school building and LRC dorm building for water testing. They will be back 1/23 for collecting samples in those areas.
3. Testing in Stevens Hall dorm will be delayed until after faucets are changed and 3 new drinking fountains are installed. Drinking fountains are on order and probably will not be installed until next weekend, meaning testing in Stevens Hall is probably at least two weeks away.
4. Plumbers have begun swapping faucets in Stevens Hall and are planning to be finished by Sunday evening.
5. Genesee County Health Department (GCHD) to be at MSD blood testing students whose parents consent; February 8th.
6. MSD is polling staff to see if there is sufficient interest to have GCHD set up a blood testing clinic for all state and contracted staff.
7. Working with DHHS to have a health expert attend the February 9th parent meeting.

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today:

- Requested compiled list of residents who have agreed to participate as a monitoring site from GIS. This list was provided to George Krisztian and Mike Glasgow, City of Flint, WTP.
- Flint School of the Deaf testing has been rescheduled. Mapping and inspections were completed on the two school buildings today and sampling will commence tomorrow. The dormitory will be scheduled at a later date due to current construction of faucet replacements.
- Submitted request for lab sample forms to be printed in Spanish and distributed to all distribution points.
- Prioritized sample analysis at DEQ lab for Michigan Department of Agriculture and Rural Development samples relative to

residential samples.
- Requested Department of Corrections resource of sample pickup and transportation to extend through Friday, January 29.

Human Services (MDHS)

Discussing with DTMB, addition of Federal agencies to Flint Union street, and effects it may have on MDHHS day to day operations, including parking for clients.

Children Services Agency working on phased plan to ensure all foster care, CCI, etc. have needed clean water resources and their facilities are being tested.

Providing MDHHS cost information available to finance chief.

Worked with DTMB to provide 300 palm cards for our Chief Deputy Director.

CHECC continues to maintain a Level 2 Activation

Licensing and Regulatory Affairs (LARA)

Updated the LARA Executive Team

Joe Madziar and Andy Neuman were up in Flint assisting DEQ with mapping of the Michigan School for the Deaf (MSD). They were able to complete the two school building. Construction to replace all of the fixtures in the dormitory at the school was in process today. Because of this Joe and Andy were unable to complete the mapping for the dormitory. Water testing will be completed at MSD tomorrow (Jan. 23).

Alesha Gensler, Joe, Andy and the DEQ had a conversation with MSD's principal and administrative manager regarding issues and concerns of the parents of students at the school. There is a lot of concern regarding showering due to the fact that a number of these students have medical issue that could result in water getting underneath the skin and being absorbed into the body (example: feeding tubes).

MSD is having a meeting with parents on Feb. 9 to address these issues. LARA has communicated these concerns with DHHS and MDE. DHHS is working to see if there are medical issues with bathing, given these skin openings. DHHS and MDE is also coordinating to see if there can be a medical person available for the parent meeting on Feb. 9.

Joe completed a materials list required to finish construction at Freeman Elementary School to replace the remaining 22 fixtures. After these materials are recieved, LARA will coordinate with the school to complete construction and then coordinate with DEQ to complete a re-testing of the water.

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1. DTG: 221300012016

2. UNIT: TASK FORCE FLINT

3. POC: CPT Shuster, Stephen M. Cell: :mail: stephen.m.shuster.civ@mail.mil

4. PRESENT LOCATION: 1101 Beach St., Flint, MI 48502. Room G51.

5. SITUATION OVERVIEW: TF FLINT has Soldiers deployed to the Flint Water Crisis in support of DSCA Operations. In the last 24 hours, TF Flint conducted WRT operations with 18 teams and made 6,300 contacts throughout the City of Flint, MI. The Point of Distribution (POD) continued receiving, tracking, and issuing out water, filters, replacement filters, and water test kits and receiving water test samples from the citizens of Flint, MI.

6. OWN SITUATION DISPOSITION /STATUS: TASK FORCE FLINT currently has Soldiers deployed in support of the Flint Water Crisis.

a. . Soldiers conducting Mission Command operations out of Room G51, Genesee County EOC.

b. . Soldiers assigned to POD operations Breakdown as follows; Soldiers are assigned and divided to man (5) Pods. 1 Soldier is assigned to be the Supply NCO Soldiers are assigned to the Genesee County EOC Soldier is assigned as the Public Affairs NCOIC.

c. . ers assigned to WRT operations divided into Teams, operation out of the Genesee County EOC.

d. Fi) Soldiers assigned to warehouse operations at the AMR run Clio Rd. water resource distribution warehouse.

7. OPERATIONS: Next 24 consists of deploying 15 WRTs (180 PAX) with MSP and Genesee County Sheriff Department. PODs continue water/filter distributions throughout the 5 designated fire stations. Soldiers conduct warehouse operations at the AMR operated Clio Rd. water resource distribution warehouse. TF FLINT Mission Command conducts battle tracking and completes/issues OPORD 16-002 (OPERATION FLINT WATER RESPONSE).

8. PERSONNEL: Soldiers currently assigned to the Flint Water Crisis. Composition as follows: conducting Command and Control, conducting water distribution from the PODs, 180 conducting water distribution as WRTs, and conducting warehouse operations at the AMR operated Clio Rd. water resource distribution warehouse.

9. INTELLIGENCE / FORCE PROTECTION: The PODs have been experiencing 2-4 daily occurrences of above average aggravation from citizens. No force protection measures have been taken at this time. Genesee County Sheriff's Department and the Michigan State Police have been notified of said incidents and are offering assistance when available. WRTs receiving daily weather reports during their morning brief.

10. LOGISTICS: See below.

a. Accountability of units from the Clio Rd. water resource distribution warehouse is being addressed with the addition of a five (5) Soldier logistics element.

11. COMMUNICATIONS: No communications issues at this time.

P: 800 MHz radios issued to PODs and WRTs.
A: RRF cell phones alternate for WRTs.
C: Personal cell phone
E: Runner

12. NARRATIVE: Not used.

13. COMMANDER'S EVALUATION:
• Talking points from the state JIC CUB slides have been disseminated to all Soldiers ISO POD operations. In conjunction with the media talking points provided by the RSOI, all of the Soldiers are well prepared to handle the increased media coverage and presence at the fire stations.
• Test kits that are returned to the PODs are being picked up no less than every other day by Mark (517-420-3392).
• FEMA is scheduled to conduct daily inventories of the supplies at the PODs.
• CPT Betz, TF FLINT S4, took receipt of laundry bags from mobile 220730R January 2016. The bags are in the process of being distributed to the soldiers.
• Total of all items at POD as of COB 21 January 2016 currently being calculated.
• TF FLINT WRTs made 6,300 contacts on 20 January 2016. Since doubling the number of PDAs issued to the teams, resource distribution has increased dramatically. As of 1230 today, over 8,000 contacts have been made on 22 January 2016.

National Weather Service (NWS)

Jim Maczko from NWS Grand Rapids will participate in SEOC morning briefings via phone call and will coordinate support with local forecast office that serves Flint - NWS Detroit/Pontiac.

NWS Detroit will begin providing morning SEOC brief and Activity Log posts effecting Tuesday, January 26th. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed.

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur.

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC.

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt. Steven B. Burton.

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

State Police (MSP)

MSP and GCSD supported National Guard staffed teams that were out today and there were 15 Red Cross teams. 6284 homes were visited today.

The MSP/National Guard teams are not currently tooled to conduct on-demand services and are singularly focused on reaching all areas of the City of Flint with our Water Response Team assets for phase 2 operations by Sunday, January 24th.

Further, we are not currently equipped to take in volunteers to work on our teams. All volunteers should be directed to the American Red Cross.

MSP SEOC received approval for MING to provide cyber trained personnel to support Michigan State Police, Michigan Cyber Command Center at the MC3 located on the 3rd Floor of State Police Headquarters beginning on 1/22/16 for 30 days with possibility of extension, or until mission complete. Mission is to coordinate, advise, and assist with cyber defense efforts related to the Flint water crisis. The MING personnel reported to MC3 today (1-22-16).

Supreme Court

08:50 - State Judiciary EMC John Ort reported to the SEOC regarding the Flint water emergency. Nothing to report from the Judiciary regarding the emergency. DEQ website resources shared with our State Court Administrative Office (attn: Region II) in case our Genesee County courts have any questions regarding the emergency.

Technology, Management and Budget (MDTMB)

DTMB Mail Services has drivers with trucks assisting in transporting supplies to support point of distribution centers and Flint Water Resource Teams. Six (6) drivers on Friday, January 22 and three (3) drivers on Saturday, January 23.

Additional 30 tablets being configured for the Water Response Teams (151 tablets to date)
Provided an additional 500 credentialing badges for Water Response Teams (1165 credentials to date).
Procured 90 rolls of stretch wrap for the Clio Rd. Warehouse. 21 delivered tonight (1/22) and remaining delivered tomorrow (1/23).
Provided additional access cards for FEMA staff for parking and access to the Flint State Office Building.
Providing costs for DTMB resources to Financial Chief.

Transportation (MDOT)

MDOT is providing traffic measures at Fire Station #6 on Pierson Rd. and Fire Station #3 on Martin Luther King Blvd:
-4 portable changeable message boards (2 each site).
-100 grabber traffic cones (narrow reflective cones) (50 each site)

FEMA-3375-EM-MI

David Samaniego
Federal Coordinating Officer

Captain Chris A. Kelenske
State Coordinating Officer

Incident Period: April 25, 2014 – Continuing

FEMA

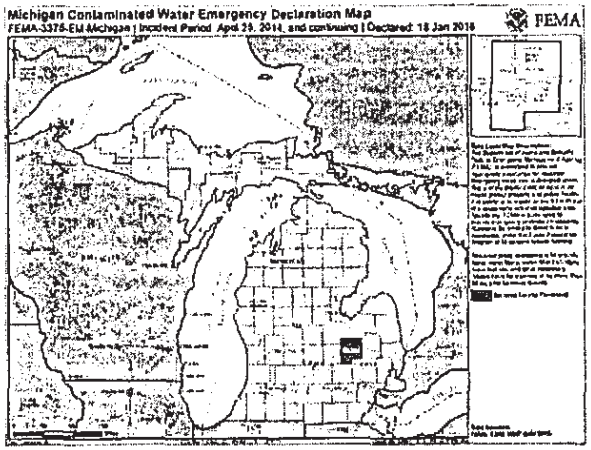
January 21, 2016

Overview

FEMA-3375-EM-MI

Event	City of Flint – Contaminated Water
Incident Period	April 25, 2014 and ongoing
Governor's Request	January 14, 2016
President's Declaration	January 16, 2016
Programs Authorized	Direct Federal Assistance, appropriate assistance to save lives and to protect property and public health and safety under Category B, emergency protective measures
FEMA-State Agreement and *Amendments*	In process; currently with the Governor's office

FEMA



FEMA

OFFICE OF CHIEF COUNSEL

Linda Pollack

FEMA

OFFICE OF CHIEF COUNSEL

- What is the FEMA assistance pursuant to EM-3375-MI?
  - Limited to Direct Federal Assistance (DFA)
  - Limited to 90 days from date of declaration (1/16/16).
  - Cost share: FEMA 75%; State 25%
  - No back reimbursement to State prior to Declaration for any State cost
  - Limited to: water, water filters, water filter cartridges, water test kits, (commodities) and other necessary related items.

FEMA

OFFICE OF CHIEF COUNSEL

- What is the meaning of the additional language "and other necessary related items?"
- It is not meant to expand the scope of this limited declaration.
- Will have to be decided on a case-by-case basis.

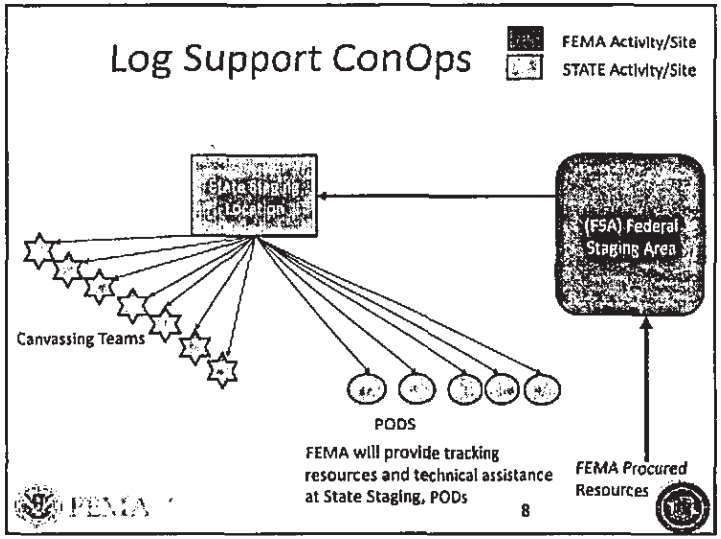
FEMA

Operations

Jason Gamble

FEMA

Log Support ConOps



FEMA

Operations/Logistics

- Identify State unmet resource needs:
  - Water (bottled)
  - Water filters (PUR & Brita)
  - Replacement Water Filter Cartridges
  - Water Test Kits
- Execute commodity distribution strategy
  - 8 trailers water delivered daily to the state staging area (115,200 liters).
  - Filters, Replacement Cartridges, Water Test Kits through State initiated resource requests.

FEMA

Operations/Logistics

- Work closely with the State to determine the required supply of filter cartridges to sustain the impacted community for one year.
- Coordinate with the State to assist in the development of a long term replacement cartridge strategy.
- Provide technical assistance for resource tracking and inventory management.

FEMA

FEMA

Incident Summary

- On April 25, 2014, the City of Flint, Michigan switched from the Detroit water system to the Flint River as a water source. The harmful effects of untreated water caused leaching of lead damaging the city's water infrastructure and potential negative health impact to the citizens. On October 16, 2015, The City of Flint switched back to the Detroit water system.
- On January 5, 2016, the Governor declared a State of Emergency for the City of Flint within the County of Genesee. On January 12, 2016, the Governor requested Non-Stafford Act support with the request being approved and a Federal Disaster Recovery Coordinator appointed. On January 15, 2016, the Governor requested an Emergency Disaster and a Major Declaration for the City of Flint, Genesee County, Michigan.
- On January 16, 2016 an Emergency Declaration was declared authorizing appropriate assistance for required emergency measures, authorized under Title V of the Stafford Act, to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in the designated area. Specifically, to provide emergency protective measures (Category B), limited to direct federal assistance, under the Public Assistance program at 75 percent federal funding.

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

Yes, I'm concerned about draining the commanders at the Flint Post (Tom, Paul and Amy) to staff the EOC. We still have a major policing operation that's a priority- and our commanders are neck deep in this. Can EMHSD provide staffing for the ops center?

> I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:
>
> Mission:
> teams DHHS employees), supported by marked MSP, and marked Sheriff units, and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.
>
> **Recommend to Sustain on 1-13-16:**
> -- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, DHHS personnel, and marked police units per street, and we covered streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to volunteers per truck, but lower than that would slow down progress, more than would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

Recommend to consider changing on 1-13-16:

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each person team.

Subject: Fwd: U of M Flint Campus Detail Update - Water Filter Distribution

5pm Update:

* This will be the final update as U of M Chief Hall has cleared all MSP Units from the detail.
* The organizers have approximately 100 people left in line and will finish the line before closing.
* There will be approximately 1,000 filters remaining.
* There are no protestors at the scene.
* No reported issues or concerns.
* Again, all MSP units are clear the scene and enroute back to their respective posts.

4pm Update:

* 2,100 filters remain.
* Approximately 80 people in line to receive a filter.
* No protestors at the scene.
* No reported issues or concerns.
* Organizers are stating they will shut down at 5pm as planned.

3pm Update:

* Activity has increased slightly. There are 200 people in line to receive a filter
* There are 3,000 filters remaining.
* No protestors at the scene.
* No reported issues or concerns.

1pm Update:

* 600 filters have been handed out.
* No protestors at the scene.
* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.
* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

Noon Update:

* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
* No protestors at the scene.
* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.

11am Update:

* No protestors at the scene.
* No reported issues or concerns.
* 30 people in line to receive filters.

10am Update:

* Doors are open for filter distribution with everything running smoothly.
* No protestors at the scene.
* Approximately 200 people in line.
* No reported issues or concerns.
* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall

* There are no protesters on scene.

* There are 5 people in line to receive a filter.

* There are no reported issues or concerns.

Thank you,

Ryan

Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. ***Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.***

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Subject: Trooper Staffing for Flint Water Emergency Situation

Importance: High

Commanders;

Ref the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16th and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting each from Lapeer, Caro and Tri-City to augment a squad from Flint consisting of a

The time frame of this request is January 16th and tentatively through January 22. (may end sooner or may go longer)

This will require a am arrival at the Flint operations center and curtail aroun on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your r to Lt. Dehner with a cc to me.

Thanks.

Subject: 10/13/2015 Flint Water Update

FYSA - The below is from the 3 p.m. Conference Call yesterday with MDHHS and Genesee County Health Department on the Flint Water issue.

GCHD Update:

Central Point of Communication/Coordination

- The United Way held a meeting with community partners today and the GCHD announced it would be acting as the communication hub.
- GCHD is working with the United Way to create a dissemination list for updates.
- The School Board President has been joining the meetings at the United Way and discussions with contacts at private and charter schools are occurring to supply them with filters.
- GCHD advised that they will proceed with a daily briefing at 4:00PM.

Filter Tracking System

- GCHD and Kris Schoenow (MDHHS) are working to expand the cloud-based database to include all needed information so that one database can be used to track filter distribution.
- It is important that the database track the types of filters provided since replacement filters need to be distributed to these families in a couple of months.
- The database will be used to cross reference the list of kids with elevated blood levels to ensure these households receive filters.

MDHHS Update:

Protocol for Identifying and Prioritizing Children that Require Testing and Case Management

- 151 children from all Flint zip codes have been identified with previous blood lead levels of 5 or over since April, 2014.
- 85% of the children are Hurley patients. 92% of the children receive Medicaid.
- 75 of the children need venous draws; 76 need venous retesting.
- Eden Wells, Rashmi Travis, Nancy Peeler, Toni LaRocco (GCHD) and Dr. Gary Johnson (GCHD) will work together to develop the testing and case management protocols.
- Possible completion date of protocol by October 14th.
- U of M Flint, and McLaren Health are interested in assisting with capillary lead testing. Public health students can also assist as needed.
- Training may be needed on the protocols and data reporting.
- There was discussion about parental requests to test older children. The risk based protocol will be customized given the situation.
- The environmental assessment protocol is currently available on the MDHHS website.

Funding

- Still awaiting approval of the supplemental funding request.

Communication

- There was discussion about communication/engagement with providers.

- Geralyn is working on a list of providers and partners list.
- She will work with Hilda on the dissemination of information to the appropriate groups and the community.
- The new lead toolkit has been completed and was sent to Mark today via links.
- An FAQ document has been created and is awaiting approval. An infographic also is in development.
    - Once approved, both the infographic and FAQ will be sent to Mark and posted to the site.

NEXT STEPS/ACTION ITEMS

- Completion of the testing and case management protocol
- Continue daily state-local update calls
- Send FAQ to Mark Valacak once it has been approved by MDHHS Communications

Completion of changes to the filter distribution database.

Chris

(U) CYBER ATTACKS RELATED TO STATE OF MICHIGAN, CITY OF FLINT, AND OTHERS

Cybersecurity Threat Level 2 – Medium (Yellow)

(U) EXECUTIVE SUMMARY

(U//FOUO) The Michigan Intelligence Operations Center (MIOC) and the Michigan Cyber Command Center (MC3) received information warning that the State of Michigan, Governor Snyder, the City of Flint, City of Flint Mayor Weaver, and other private individuals and entities are at an increased risk of cyber-attacks. In addition to doxing, the act of gathering and publishing individuals' personal information without permission, threat actors have attempted to compromise government servers, workstations, and email accounts. The Department of Technology Management & Budget (DTMB), MC3, and MIOC are working together to identify, mitigate, and remediate actions taken against state infrastructure.

(U//FOUO) To help reduce the risk of exposure and targeting by malicious actors, it is suggested the following considerations be implemented:

- Change passwords regularly (use a passphrase with 15 characters or more)
- Be wary of suspicious phone calls or emails from unknown individuals/organizations
- Be cautious when clicking on links or attachments contained in emails
- Search yourself online so you are aware of what information is publically available
- Set up a Google alert for your name so you are alerted when information has been posted about you online
- Use privacy settings on social media accounts
- Limit personal postings on media sites and consider comments being made
- Do not list law enforcement employment on your social media accounts
- Monitor personal credit and banking activity
- Update hardware and software applications continually

  Up posted a YouTube video titled "Anonymous Resistance - #OpFlint." This video is similar to the one posted on January 31, 2016, by Anonyous RedCult. Additional content stated that cyber attacks would occur against the Department of Human Services if children were removed from their homes due to unpaid water bills. It also called on "crackas, cyber warriors, anarchists, and black blockers" to take action. A copy of the video and transcript are included below.

Greetings dissidents of the world. *We are Anonymous. We are the resistance* The Flint Water Crisis has drawn the attention of Anonymous Anonymous would first like to pay respect to the victims of this deliberate poisoning. We will not rest until the families of the murdered people and lead poisoned children get justice. The victims of unspecified ills and rashes. We will support you and magnify your voice. For Michigan Governor Rick Snyder your failed cost cutting measures has caused the death of the people you have been charged with the responsibility of protecting. The decent and responsible next action from you would be to step down from office. This isn't what you have chosen to do. Instead you are allowing the people of Flint to be further terrorized by the system you set up. You gave the power of Flint's government to an emergency manager.

Darnell Early rejected using Flint River water in 2012 after meeting with the EPA. Yet you overrode his decision You used the contaminated river water and deteriorated plumbing. You also decided to save another $100 per day by not adding the critical *chemicals to keep from further degrading the aging infrastructure* City and State workers have been provided clean drinking water for quite some time now. Yes, these deaths and lifelong illnesses are squarely are on your hands. The people of Flint are still being mailed bills for poisonous water. Further you threaten them with condemnation of their homes, removal of their children and placement of those children in a state agency that you also govern. We will not stand idly by while you murder, poison, and terrorize our brothers and sisters in Flint Michigan

This is a call to all hacktivists, activists, trolls, protestors, marchers, agents, phishers, crackas, cyber warriors, anarchists, and black blockers. Those who work in this corruption can speak through us Anonymously as well. *All people of humanity should know that* Michigan has the largest reserve of fresh water on earth. If this can happen in Michigan it can most assuredly happen where you live. We ask that you use your skills, talents, and time to help bring justice to our fallen and injured family in Flint. Cyber attacks are *already underway.*

In the event that children are taken from their homes because of failure to pay for poisonous water there will be concentrated cyber attacks on Michigan State Department of Human Services, Governor Snyder, any and all government websites, Brian Larkin, Howard Croft, Natasha Henderson, and Dayne Walling, you also have found yourselves targets of Anonymous. Protestors should peacefully occupy the water department, 1101 Saginaw Street, Flint, Michigan.

This document is the property of the Michigan Intelligence Operations Center (MIOC) for Homeland Security and is prepared for the limited purpose of information sharing. This information is designated **UNCLASSIFIED//FOR OFFICIAL USE ONLY** *and is shared in confidence. This document must not be reclassified in any way, in whole or in part. Further distribution is restricted without the consent and prior approval of the MIOC. Release to the media of any information in this document is prohibited. Violation of these restrictions will be cause for removal from MIOC distribution lists.*

Don't let your neighbors pay for poisonous water. Protest at the Governor's mansion, protest the EPA in all states. They are allowing the poisonous water to still flow and further victimization of people who live in and visit Flint. Rick Snyder, you operate outside the law as do your officers and city officials You have turned your state into a third world We will do whatever it takes to bring you to justice.

State officials of Michigan and city officials of Flint your days of lawlessness are at an end. Environmental Protection Agency this has been a long time coming. And to all of you who violate the people it is far too late to expect us. We are Anonymous, we are the resistance, united as one, divided by zero, we do not forgive, we do not forget, we stand with your victims. Operation poisoned H2O engaged.

- **01/31/2016**

posted a YouTube video focusing on the water issues in Flint. In this video the actor states "Cyber attacks are already under way. In the event that children are taken from their home because of failure to pay for poisonous water there will be concentrated cyber attacks on Governor Snyder, government websites, Brian Larkin, Howard Croft, Natesha Henderson, and Dayne Walling." The video urges protesters to peacefully occupy the Flint water department. A full transcript of the video is below.

; published a video via the YouTube channel, TruthSec Official, on behalf of the group Anonymous using the hashtag #OpYouDrinkThat. The video stated the following:

Greetings fellow citizens of the United States of America, to all of our supporters and followers, and a special hello to Governor Richard Snyder of Michigan This is anonymous We've been watching what has been going on in Flint Michigan Gov Snyder and the fact that nothing is being done by you, Mayor of Michigan Dayne Allen Walling, or any of their staff in an attempt to fix this current state of emergency with the drinking water supply is unacceptable, and needless to say we are not happy.

Until you, Gov. Snyder decide to change this attrocitiy that you have started we will be doxing not only you but your entire family and the families of all the government workers of Flint. This will involve but is not limited to, Darnell F Earley, Howard D Croft, Dayne Allen Walling, and Dr. Edward J Kurtz, just to name a few.

We would like to explain to you that normally we do not involve families in matters like this, but this is a different case entirely. Where as you're going about and poisoning children daily we will have no remorse this time, and will not hold any documents back

Everything will be released about you Mr. Snyder, your wife, and your children's . The same goes for all who worked directly under Mr. Walling who resigned And We hope you decide to fix this now, before it is too late. This will be our last warning. We are Anonymous, We are Legion, We do not Forgive, We do not Forget, You should have expected us Mr. Snyder.

In March 2014, Flint government officials made the decision to switch Flint's water source from the DWDS to the Karegnondi Water Authority The purpose of the Authority is to provide and distribute raw water to the region which they did using the Flint River as their source. Immediately upon the switch, the residents of Flint noticed a difference in the taste, smell, and color. How did your staff and you not notice the difference?

Did it ever occur to you when General Motors decided to close their doors to Flint's public water source and invest in a private company for their water supply, that this water may not be safe for drinking? After all, if it wasn't good enough to manufacture cars with, how was ingesting it safe or beneficial to one's health?

Ask yourself this Governor. If the water running from your faucet, that your children Jeff, Melissa, and Kelsey use to brush their teeth with, or that your wife Sue bathes in was yellow, polluted, and lead infused, would you be okay with it? The physical appearance of the water itself is off putting When residents questioned it, they were assured by Flint public officials that the levels of TTHM in the water were safe for human consumption All false

Only after Virginia Tech conducted a study on the harmful agents in Flint's river water supply was the truth revealed. In addition to increased levels of TTHM in the water, there was up to three times the levels of lead in Flint water than what is approved for human consumption in the United States. As a first world country, we are living in third world conditions. Our innocent children have had to pay for your uninformed and illegitimate decision to sell poisoned water and play russian roulette with their health.

We need to focus on this immediately A state of emergency was declared yet nothing was done. The majority of people in Flint, reside in low income neighborhoods. They are being forced to live off of bottled water for cooking, cleaning, showering, and everything else The children in Flint have already been exposed to lead poisoning Along with you, the elected city officials are failing to acknowledge the crumbling infrastructure they have created. Someone has to be held accountable, including you Governor. To save a couple pennies in your budget, you sacrificed not only innocent lives but the faith of the community.

You have lost all credibility and will be remembered as a man who traded a basic human right for profit. You poisoned our children knowingly and capitalized on this Your nonchalant approach and inaction to the apparent genocide you have help create in the city of Flint, has dictated your position in this matter. Governor, it's time you suffer the consequences of your bad decision.You will be made an example of

On behalf of the entire community, we are demanding your resignation in concurrence with making the switch back to the Detroit Water System. We are demanding clean, free water

We are Legion. We do not forgive, we do not forget. Expect us, Governor. The world is watching.

- **01/20/2016**

  ɔ published a video via YouTube by Anonymous titled "#OpFlint." The video stated:

  Greetings Citizens of the world,

  We are Anonymous.

This document is the property of the Michigan Intelligence Operations Center (MIOC) for Homeland Security and is prepared for the limited purpose of information sharing. This information is designated **UNCLASSIFIED//FOR OFFICIAL USE ONLY** *and is shared in confidence. This document must not be reclassified in any way, in whole or in part. Release to the media of any information in this document is prohibited Violation of these restrictions will be cause for removal from MIOC distribution lists.*

For over a year now the citizens of Flint, Michigan have been subjected to drinking tap water filled with lead and other poisons.

Over 3000 children residing in flint have been diagnosed with lead poisoning andother contaminated water illnesses

This issue went unreported by the mainstream media for entirely too long.

A resident of Flint, Michigan and activist by the name of "@C1tyOfFl1nt" has worked for countless hours, weeks, and years to bring awareness to the water crisis in flint.

And now that OpFlint is in the media and people are aware, we must remind the city officials of flint that we do not forget and we do not forgive

The crimes committed by Governor Snyder as well as other city officials will not go unpunished

The city of Flint deserved to be informed and made aware of the problem with the town drinking water.

The fact that Governor Snyder stayed silent while the children of flint were poisoned says a lot about his character.

It is safe to assume that children may already be doomed to die due to this. It says a lot about how Snyder and those who answered to him on this matter feel about the citizens of Flint.

It's clear to us that Governor Snyder needs to be reminded that he is a servant for the very same people he has poisoned and made sick Or perhaps he never forgot. Perhaps corruption is at play here. In that case, he is now going to simly be shown the error of his evil ways.

We feel that there currently exists enough evidence to arrest Governor Snyder for either voluntary or involuntary manslaughter, and that a full scale investigation into the Flint Water crisis and a criminal trial will yield the information that will send governor Snyder to prison

We encourage the city of Flint to be vocal and demand that Governor Snyder face criminal charges. Anonymous will stand beside you.

We will amplify your voice where the mainstream media will surely fail you, as it has in the past.

We will also join you in calling bullshit on any spin that the corporate media is prepared to put on this, as they have on other past crises that affect the welfare of the common people in this country-most notably the poor and people of color. Governor Snyder and his cronies have brought pain and suffering, and possible death to the people of Flint.

They have also clearly displayed contempt for the children of flint. Certainly they have displayed no remorse or guilt.

But it all stops now.

Because what Governor Snyder will soon learn is what we do not forgive We do not forget. The people responsible for this crises will be held accountable. Every wrong doing will be rectified

The city of Flint deserved better, governor. Instead they got a murderer.

One again justice will arrive in the form of a pale mask.

We are Legion.

We are the citizens of #OpFlint.

Governor Snyder, did you really not expect us?

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

Importance: High

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

NOTABLE EQUIPMENT REQUIREMENTS:

High visibility vest (in vehicle)
Garrison cap and/or department issued cold weather headgear

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

GROUND OPERATION OIC(s):
Tpr. Rick Jones – Security Group One
Sgt. Duane Zook

EOC SITE SAFETY OFFICER:
Lt. Amy Dehner

OTHER INFORMATION:
This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

SECURITY GROUP ONE:

Tpr. Gooch
Tpr. Poyhonen
Tpr. Lutz
Tpr. Easlick
Tpr. Cairnduff
Tpr. Stickel
Tpr. Kramer
Tpr. Brown

SECURITY GROUP TWO:
Tpr. Martin
Tpr. Hessling
Tpr. Dhooge
Tpr. Hutchinson
Tpr. Swales
Tpr. Richter
Tpr. Faucette

Subject: "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at [redacted], it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence. The event description indicates the group will continue to protest on Wednesdays between 5:30 p.m. - 6:30 p.m. in front of Governor Snyder's residence in Ann Arbor.

The next protest will be held on Wednesday, **February 10 between 5:30 p.m. – 6:30 p.m.** also in front of Governor Snyder's residence in Ann Arbor. Currently 45 individuals have RSVP'd they plan to attend.

This is for situational awareness only.

Thanks,

Sue

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

MDHHS begins investigation into rash reports in Flint's water crisis

Free iPhone app shows Flint residents water distribution sites in city

UM-Flint's enrollment dropped 3 percent after water crisis went national

All Stories

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

"We're encouraging people to donate to the **FlintKids.com** website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water.**

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his $30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the $28 million our partners in the Legislature approved last week to provide immediate relief and the $9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

Subject: 10/13/2015 Flint Water Update

FYSA - The below is from the 3 p.m. Conference Call yesterday with MDHHS and Genesee County Health Department on the Flint Water issue.

GCHD Update:

Central Point of Communication/Coordination

- The United Way held a meeting with community partners today and the GCHD announced it would be acting as the communication hub.
- GCHD is working with the United Way to create a dissemination list for updates.
- The School Board President has been joining the meetings at the United Way and discussions with contacts at private and charter schools are occurring to supply them with filters.
- GCHD advised that they will proceed with a daily briefing at 4:00PM.

Filter Tracking System

- GCHD and Kris Schoenow (MDHHS) are working to expand the cloud-based database to include all needed information so that one database can be used to track filter distribution.
- It is important that the database track the types of filters provided since replacement filters need to be distributed to these families in a couple of months.
- The database will be used to cross reference the list of kids with elevated blood levels to ensure these households receive filters.

MDHHS Update:

Protocol for Identifying and Prioritizing Children that Require Testing and Case Management

- 151 children from all Flint zip codes have been identified with previous blood lead levels of 5 or over since April, 2014.
- 85% of the children are Hurley patients. 92% of the children receive Medicaid.
- 75 of the children need venous draws; 76 need venous retesting.
- Eden Wells, Rashmi Travis, Nancy Peeler, Toni LaRocco (GCHD) and Dr. Gary Johnson (GCHD) will work together to develop the testing and case management protocols.
- Possible completion date of protocol by October 14th.
- U of M Flint, and McLaren Health are interested in assisting with capillary lead testing. Public health students can also assist as needed.
- Training may be needed on the protocols and data reporting.
- There was discussion about parental requests to test older children. The risk based protocol will be customized given the situation.
- The environmental assessment protocol is currently available on the MDHHS website.

Funding

- Still awaiting approval of the supplemental funding request.

Communication

- There was discussion about communication/engagement with providers.
- Geralyn is working on a list of providers and partners list.
- She will work with Hilda on the dissemination of information to the appropriate groups and the community.
- The new lead toolkit has been completed and was sent to Mark today via links.
- An FAQ document has been created and is awaiting approval. An infographic also is in development.
    - Once approved, both the infographic and FAQ will be sent to Mark and posted to the site.

NEXT STEPS/ACTION ITEMS

- Completion of the testing and case management protocol
- Continue daily state-local update calls
- Send FAQ to Mark Valacak once it has been approved by MDHHS Communications

Completion of changes to the filter distribution database.

Chris

Subject: FW: Arrest Snyder Event Today at 4:40 p.m., Flint City Hall UPDATE
Attachments:

Good Morning,

In reviewing The MIOC has prepared the below information for situational awareness and public safety concerns.

Participants of this rally will meet up at Flint City Hall to discuss why arresting the Governor is "the only action that is appropriate." The group plans to move from Flint City Hall to a nearby overpass and display light boards with the message "Flint Arrest Snyder." One individual will be dressed as Snyder in a black/white stripe prison jumpsuit with the number 66247 (see attached photo). The number is significant to them as it is meant to signify Snyder is "the Devil 24/7."

This rally is described as a nonviolent action intended to support the community affected by the tainted water. No guns or weapons are welcome. No drugs or alcohol are welcome. This is to be a family friendly event working toward the health of the community.

At this time there are no known credible threats. Unfortunately, this issue has received a large amount of negative media exposure. Cher has "tweeted" the Governor should be executed over the Flint water issue and filmmaker Michael Moore has started a petition asking the U.S. Attorney General to prosecute and arrest Snyder and called for a thorough FBI investigation over his handling of the Flint water crisis. Rachel Maddow, MSNBC, reported the responsibility for the tragedy falls to Governor Snyder. They have emailed Maddow inviting her to attend the rally. All of this media exposure creates the potential for attendance by groups with divergent views or lone wolf individuals who seek to engage in destruction of property, assault, or other types of crimes which may potentially result in incidents at, or associated with the event.

The MIOC will continue to monitor open source today for any threats and provide updates as any new information or suspicious activity connected to the event is located.

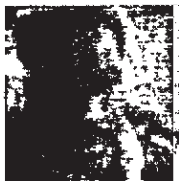
Subject: Governor Rick Snyder in Flint today

ɔ. I'm wondering if the information is accurate?



Quincy Murphy
1 hr ·

Governor Rick Snyder will be in Flint today at 10:00 a.m. located at fire station #1 on fifth st next to the police station with the concern pastors to announce forgiveness of citizens paying there water bills.

Quincy Murphy has appeared before the Board of Canvassers with petitions to recall Governor Snyder. During his first appearance last week the language was rejected. Murphy plans to appear again at the meeting February 8, 2016, with new recall petition language. In the meantime, Murphy has suffered two incidents where an older white male has shot at his home twice in one day. He did report these incidents to the police.

I don't view Murphy as a threat but he may be a target. I do expect Murphy to attend the 10 a.m. announcement.

This information is being shared with you for situational awareness. If you have any questions please don't hesitate to contact me.

Hello All, just wanted to keep you in the loop. Will advise as I learn more. Thanks, BJ

Subject: Flint Water

Hello, I attended meetings today at Genesee Co DHHS and Genesee Co Untied Way ref the continuing problem with Flint's water. The first meeting consisted of DHHS, GCCARD, Dept. of Human Services, Genesee CO Health Dept., Commission on Aging, EM Jen Boyer, and a few other county depts. The distribution of filters was the main topic of conversation. I learned that so far 20,000 Britta filters were purchased from Home Depot with the million dollars the state provided. The filters are in Flint and will be housed at the GCCARD warehouse awaiting distribution. Genesee Co Public Health Dept is taking the lead on public messaging/press releases. Overall, a fairly productive meeting. Everyone from this meeting headed over to the next meeting at the United Way in Flint. Reps from the United Way ran the meeting which also included reps from the school district, public housing, and one rep, Sean Kammer, Asst to the City Administrator at the City of Flint. Unfortunately, Sean left early and requested he be emailed the information. Once again, a fairly productive meeting with distribution being the main topic of conversation, the use of volunteer groups to help install filters for elderly clients, school distribution, and public education/messaging. Much was worked out for distribution with it starting with priority groups. Attached is a summary of the meeting. Today, 1800 filters were being distributed to Flint Public Housing incl Section 8 housing with the agreement their building maintenance will install the filters for those who can not. Other priority groups should start in the morning. It was also requested the UPC codes be blacked out so returns could not be made to Home Depot. Zero Water is providing filtered cups for after school activities and athletes. All classrooms will get filtering units with a 24 cup capacity. There are talks of filters for all drinking fountains. For those who can not attach a regular filter to their faucet, ZeroWater filtered pitchers are going to be supplied. United Way ordered some today and may be in this week. Under sink filters will not be purchased due to cost and potential installment issues. Britta pitchers do not meet lead standards so they will not be used.

Jen Boyer has reached out to volunteer groups (CERT, VDF) for help with installments of filters for elderly or special needs people. There are also talks by the City fo Flint water dept. of connecting outdoor spickets so people can go fill jugs for free. This may be decided by the end of the week. This water is good being it isn't going through any distribution pipes. There were talks of paying UAW plumbers ,etc to help with installs but I voiced my concerns ref that so hopefully that does not happen. Talks of military trucks (Camels) were brought up for water distribution for possibly the next week while the city works on getting their outdoor spickets figured out but I believe that has to be authorized by the Governor.

Genesee Co Public Health Dept is taking the PIO lead with help from the PIO from the United Way, Tom Wickersham. Tom is a PIO for Gm and volunteers for the United Way. 211 will be used as well as some websites to advise of distribution points and as well as education. Right now 4 points will be used :2 DHHS offices, and 2 GCCARD locations. The Genesee County Community Action Resource Department **(GCCARD)** is an organization of individuals whose overall goal is to eliminate barriers and level the playing field for the poor, seniors, children and the hard to serve population of Flint and Genesee County. These opportunities may include pre-school training through our Head Start department for the young; receiving additional and/or job training in order to find a permanent job; seeking and finding

of adequate housing if displaced; receiving of nutritional meals delivered on a daily basis, or receiving home improvement repairs when necessary.

Water Filter Distribution

Funding Availability
$100,000 - CS Mott Foundation
$225,000 - private funding and grant requests to UWGC
$1,000,000 - from DHHS for filter purchase
$250,000 - from Community Foundation (not public yet)

Filters

- 1,500 were distributed through Concerned Pastors - Harvey has list
- 4,000 given to Health Department will be distributing to special populations, started Saturday. There are 1,000 left. Working with Hurley to distribute through Healthy Start programs. IT will be taking spreadsheet to see who has already received this.
- Do not get Brita pitchers - they are not lead compliant
- 2,500 pitchers will be purchased by UWGC today

Public Housing is automatically going to get filters dropped today. Call Frank Woods to ask questions.

- Howard - 96 units
- Aldridge - 93 units
- River Park - 188 units
- Atherton - 192 units
- Scattered Sites - 68 units
- Garland - 40 units
- Forrest Park - 19 units
- Richert Manor - 132 units
- KMS - 159 units
- Centerview - 90 units
- Mince - 110 units

20,000 units through DHHS - housed at GCCARD

- Can be given to all residents
- 1,800 will be sent to Housing commission (section 8) today
- Veterans - there is a community department for veterans, these filters would secure through GCCARD.
- Health Dept needs some for their WIC department and wellness clinic and kidney dialysis centers. DHHS will supply filters to health dept to fill this need.
- Senior Citizens - Meals on Wheels - 653 households, will be distributed through GCCARD filters
- Family Service agency - 800 seniors are helped through this program, GCCARD will reach out and make sure there is not a duplication with Meals on Wheels. This group of residents a special plan will be put together for install through seniors homes.

- Senior Resident Communities - can we give filters to these housing facilities and can their maintenance person install. Health Dept will get those contacts to GCCARD.
- 20,000 vouchers will be distributed through case workers - vouchers will be received at DHHS today.
- DHHS clients will be able to receive their filters from either office as early as tomorrow. GCCARD will be available in those lobbies as well for non clients.
- Home Depot can deliver for FREE water filters to site

5,000 donated to UWGC from Zero Filter for after school and UWGC is purchasing one picture for every classroom at cost from Zero Filter to Flint Community Schools - we are also looking at purchasing one filter for every faucet, those filters are $250 each. UWGC will order today and they should be delivered by Wednesday.

City of Flint Water Dept - we have asked city to allow residents to come to the City of Flint Water plant and fill jugs of water. City of Flint plans to have a plan put together by week end.

UWGC has requested the state to appoint a full time emergency person to convene these meetings.

October 3, 2015 Distribution
Lead Agency - Genesee County Health Department
Distribution Site - University of Michigan-Flint Recreation Center
Requirements

- Live within zip codes 48501-48507
- Currently pregnant, breastfeeding or formula feeding an infant
- Have a child between the ages of 0-5

One filter will be given per household
Filter name and model being given - Pur Ult Vert Mount Water Filter System
Quantity of filters being given - 4,000
Contact - Tamara Brickey

2-1-1 will be phone number for residents to call
Site can be setup within 24 hours.
Distributions Points
Information that can be shared to public
Eligibility for filters - open distribution within zip codes
Questions - health specific (ex. can my child take a bath, how do I install filter, filter type or intake type, (filters will be faucet and pitchers only)

Subject: RE: MSP Resource Request - Flint Water Response Teams

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

F/Lt. Mike Johnson

$28M Flint Supplemental Expected In House Approps Wednesday

A $28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is $28.03 million with $22.63 million from the General Fund.

It would provide:

- $935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;
- $5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- $17.2 million ($2.85 million in federal, $2.55 million in state restricted revenues and $11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;

- $2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;
- $2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- $100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

Subject: FW: Publicly posted email - FLINT WATER
Attachments: Wurfel-to-Hollins-Email-Legionnaires_Published_2-4-2016.pdf

All:

For your situational awareness. An email has been posted publically purporting to show that Harvey Hollins, a principal advisor to Governor Snyder, was aware of an uptick in Legionnaires disease in Genesee County and that a county health official was attributing the cases directly to the Flint River as the source of drinking water in Flint.

http://www.progressmichigan.org/2016/02/38933/

Thelen, Mary Beth (DEQ)

To:	Hollins, Harvey (GOV)
Cc:	Wyant, Dan (DEQ)
Subject:	Part II
Attachments:	FOIA Request Flint Water.doc
Importance:	High

OK D-

This is the second issue I mentioned earlier today.
In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.
b

Subject: FW: Information Request and Documentation
Importance: High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry

Subject: Fwd: Rally Today at Capitol - Flint Water Crisis

Subject: Rally Today at Capitol - Flint Water Crisis

This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!"

. It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

An another note, as I mentioned yesterday '

Also there is plenty of negative response to the Governor's comment yesterday at the Auto Show: ""Why the delay in calling FEMA?" for help with the Flint water crisis was the first question for Snyder before he began his journey around the auto show floor. "I'm here at the auto show today," he replied. "It's great to be at the North American International Auto Show. What a great way to showcase Detroit and Michigan." People are posting photographs of an envelope with Attorney Jeffrey Feiger's address as their response.

I will continue to monitor open source for any threats or suspicious postings. So far I haven't seen any evidence of counter protestors or any groups with a counter-view.

Thanks,

Subject: Fwd: U of M Flint Campus Detail Update - Water Filter Distribution

5pm Update:

* This will be the final update as U of M Chief Hall has cleared all MSP Units from the detail.
* The organizers have approximately 100 people left in line and will finish the line before closing.
* There will be approximately 1,000 filters remaining.
* There are no protestors at the scene.
* No reported issues or concerns.
* Again, all MSP units are clear the scene and enroute back to their respective posts.

4pm Update:

* 2,100 filters remain.
* Approximately 80 people in line to receive a filter.
* No protestors at the scene.
* No reported issues or concerns.
* Organizers are stating they will shut down at 5pm as planned.

3pm Update:

* Activity has increased slightly. There are 200 people in line to receive a filter
* There are 3,000 filters remaining.
* No protestors at the scene.
* No reported issues or concerns.

1pm Update:

* 600 filters have been handed out.
* No protestors at the scene.

* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.
* Next update will be at 3pm unless there is a significant change or operational need to report sooner.

Noon Update:
* Restrictions on the order in which filters are being handed out have been lifted. Anyone living in a zip code that is affected, and showing proof, will be given a filter as they arrive.
* No protestors at the scene.
* No reported issues or concerns.
* Approximately 20 people in line to receive a filter.

11am Update:
* No protestors at the scene.
* No reported issues or concerns.
* 30 people in line to receive filters.

10am Update:
* Doors are open for filter distribution with everything running smoothly.
* No protestors at the scene.
* Approximately 200 people in line.
* No reported issues or concerns.
* Media is on scene; Channels 12 and 5

The water filter distribution to affected city of Flint residents is expected to start at 10am this morning on the University of Michigan, Flint Campus. No additional filters arrived throughout the night and there are only approximately 5000 filters to hand out.

9am:

* MSP personnel are on scene to assist and currently in a briefing with U of M Chief Ray Hall

* There are no protesters on scene.

* There are 5 people in line to receive a filter.

* There are no reported issues or concerns.

Thank you,

Ryan

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

Mission:
-' teams (40 DHHS employees), supported by marked MSP, and marked Sheriff units, and (2) 24' UHaul trucks, conducted water nater delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

Recommend to Sustain on 1-13-16:
-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and (2) marked police units per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

Recommend to consider changing on 1-13-16:

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/16/2016 1900 HRS

Prepared by Lt. Paul Pummill

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Public Service Commission, Michigan Army National Guard

ACTIVITY SUMMARY:

- MSP/DHHS/GCSO Distribution teams (75 personnel/11 Teams/11 vehicles) conducted in 1 -4 Wards
- 22 iPad are in use today. All returned.
- 10 vehicles loaded and ready for tomorrow distribution start.
- 62 Volunteers participated today. The expected volunteers for tomorrow 114. At present, we have sufficient trooper and deputies scheduled to meet these anticipated numbers.
- ARC teams distributed 1532 kits.
- Sgt. Sparks assessed the water storage location reference security.

SAFETY ASSESSMENT:

In the distribution areas there is light now and windy. The streets in the area have icy spots. National weather service reports are monitored hourly.

NEXT ANTICIPATED SITREP PUBLISH TIME:

0900 HRS 01/17/2016 by Lt. Pat Young

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

UNCLASSIFIED//FOR OFFICIAL USE ONLY

(U) CYBER ATTACKS RELATED TO STATE OF MICHIGAN, CITY OF FLINT, AND OTHERS

Cybersecurity Threat Level 2 – Medium (Yellow)

(U) EXECUTIVE SUMMARY

(U//FOUO) The Michigan Intelligence Operations Center (MIOC) and the Michigan Cyber Command Center (MC3) received information warning that the State of Michigan, Governor Snyder, the City of Flint, City of Flint Mayor Weaver, and other private individuals and entities are at an increased risk of cyber-attacks. In addition to doxing, the act of gathering and publishing individuals' personal information without permission, threat actors have attempted to compromise government servers, workstations, and email accounts. The Department of Technology Management & Budget (DTMB), MC3, and MIOC are working together to identify, mitigate, and remediate actions taken against state infrastructure.

(U//FOUO) To help reduce the risk of exposure and targeting by malicious actors, it is suggested the following considerations be implemented:

- Change passwords regularly (use a passphrase with 15 characters or more)
- Be wary of suspicious phone calls or emails from unknown individuals/organizations
- Be cautious when clicking on links or attachments contained in emails
- Search yourself online so you are aware of what information is publically available
- Set up a Google alert for your name so you are alerted when information has been posted about you online
- Use privacy settings on social media accounts
- Limit personal postings on media sites and consider comments being made
- Do not list law enforcement employment on your social media accounts
- Monitor personal credit and banking activity
- Update hardware and software applications continually

chemicals to keep from further degrading the aging infrastructure. City and State workers have been provided clean drinking water for quite some time now. Yes, these deaths and lifelong illnesses are squarely are on your hands. The people of Flint are still being mailed bills for poisonous water. Further you threaten them with condemnation of their homes, removal of their children and placement of those children in a state agency that you also govern. We will not stand idly by while you murder, poison, and terrorize our brothers and sisters in Flint Michigan.

This is a call to all hacktivists, activists, trolls, protestors, marchers, agents, phishers, crackas, cyber warriors, anarchists, and black blockers. Those who work in this corruption can speak through us Anonymously as well. All people of humanity should know that Michigan has the largest reserve of fresh water on earth If this can happen in Michigan it can most assuredly happen where you live. We ask that you use your skills, talents, and time to help bring justice to our fallen and injured family in Flint. Cyber attacks are already underway.

In the event that children are taken from their homes because of failure to pay for poisonous water there will be concentrated cyber attacks on Michigan State Department of Human Services, Governor Snyder, any and all government websites, Brian Larkin, Howard Croft, Natasha Henderson, and Dayne Walling, you also have found yourselves targets of Anonymous. Protestors should peacefully occupy the water department, 1101 Saginaw Street, Flint, Michigan.

Don't let your neighbors pay for poisonous water. Protest at the Governor's mansion, protest the EPA in all states. They are allowing the poisonous water to still flow and further victimization of people who live in and visit Flint. Rick Snyder, you operate outside the law as do your officers and city officials You have turned your state into a third world. We will do whatever it takes to bring you to justice.

State officials of Michigan and city officials of Flint your days of lawlessness are at an end. Environmental Protection Agency this has been a long time coming. And to all of you who violate the people it is far too late to expect us. We are Anonymous, we are the resistance, united as one, divided by zero, we do not forgive, we do not forget, we stand with your victims. Operation poisoned H2O engaged.

- **01/31/2016**

The governor is dispatching his fixer and confidant, Rich Baird, to Flint to help coordinate the state response and to reassure the city's elected leaders of direct

posted a YouTube video focusing on the water issues in Flint. In this video the actor states "Cyber attacks are already under way. In the event that children are taken from their home because of failure to pay for poisonous water there will be concentrated cyber attacks on Governor Snyder, government websites, Brian Larkin, Howard Croft, Natesha Henderson, and Dayne Walling." The video urges protesters to peacefully occupy the Flint water department. A full transcript of the video is below.

Greetings citizens of the world we are Anonymous The Flint water crisis has drawn the attention of Anonymous. Anonymous would first like to pay respect to this deliberate poisoning We will not rest until the families of the murdered people and lead poisoned children get justice The victims have been specified (garbled). We will support you and magnify your voice.

For Michigan Governor Rick Snyder your failed cost cutting measures have caused the death of your people you are charged with the responsibility to protect The decent and responsible next action from you would be to step down from office. This isn't what you have chosen to do. Instead you are allowing the people of Flint to be further terrorized by the system you set up. You gave the power of Flint's government to an emergency manager. Darnell Earley rejected using Flint River water in 2012 after meeting with the EPA. Yet you overrode his decision.

You used the contaminated river water and the deteriorated plumbing. You also decided to save another $100 per day by not adding the critical chemicals to keep from further degrading the aging infrastructure. City and State workers have been provided clean drinking water for quite some time now. Yes, these debts and lifelong illnesses squarely are on your hands. The people of Flint are still being mailed bills for poisonous water.

Further you threaten them with condemnation of their homes, removal of their children and placement of those children in a state agency that you govern We will not stand idly by while you murder, poison, and terrorize our brothers and sisters in Flint Michigan. This is a call to all hacktivists, activists, trolls, protestors, marchers, agents, vishers, those who work in this corruption can speak through us Anonymously as well All people of humanity should know that Michigan has the largest reserve of fresh water on earth. If this can happen in Michigan it can most assuredly happen where you live. We ask that you use your skills, talents, and time to help bring justice to our fallen and injured family in Flint.

Cyber attacks are already under way. In the event that children are taken from their home because of failure to pay for poisonous water there will be concentrated cyber attacks on Governor Snyder, government websites, Brian Larkin, Howard Croft, Natasha Henderson, and Dayne Walling you should do the right thing as well. Protestors should peacefully occupy the water department, 1101 Saginaw Street, Flint, Michigan. Don't let your neighbors pay for poisonous water. Protest at the Governor's mansion protest the EPA in all states. They are allowing the poisonous water to still grown and further victimization of people who live in and visit Flint. Governor Rick Snyder, State of Michigan, City of Flint, US Environmental Protection Agency, we are Anonymous united as one, divided by zero, we do not forgive we do not forget, expect us.

published a video via the YouTube channel, TruthSec Official, on behalf of the group Anonymous using the hashtag #OpYouDrinkThat. The video stated the following:

Greetings fellow citizens of the United States of America, to all of our supporters and followers, and a special hello to Governor Richard Snyder of Michigan. This is anonymous We've been watching what has been going on in Flint Michigan Gov. Snyder and the fact that nothing is being done by you, Mayor of Michigan Dayne Allen Walling, or any of their staff in an attempt to fix this current state of emergency with the drinking water supply is unacceptable, and needless to say we are not happy.

Until you, Gov. Snyder decide to change this attrocity that you have started we will be doxing not only you but your entire family and the families of all the government workers of Flint. This will involve but is not limited to, Darnell F Earley, Howard D Croft, Dayne Allen Walling, and Dr. Edward J Kurtz, just to name a few.

We would like to explain to you that normally we do not involve families in matters like this, but this is a different case entirely. Where as you're going about and poisoning children daily we will have no remorse this time, and will not hold any documents back.

Everything will be released about you Mr. Snyder, your wife, and your children's . The same goes for all who worked directly under Mr. Walling who resigned And We hope you decide to fix this now, before it is too late. This will be our last warning. We are Anonymous, We are Legion, We do not Forgive, We do not Forget, You should have expected us Mr. Snyder.

published a video via the YouTube channel "TruthSec Official" on behalf of the group Anonymous titled, "A Message To Gov. Richard Dale Snyder." The video content is on the following page.

In March 2014, Flint government officials made the decision to switch Flint's water source from the DWDS to the Karegnondi Water Authority. The purpose of the Authority is to provide and distribute raw water to the region which they did using the Flint River as their source. Immediately upon the switch, the residents of Flint noticed a difference in the taste, smell, and color. How did your staff and you not notice the difference?

This document is the property of the Michigan Intelligence Operations Center (MIOC) for Homeland Security and is prepared for the limited purpose of information sharing. This information is designated **UNCLASSIFIED//FOR OFFICIAL USE ONLY** ***and is shared in confidence.*** *This document must not be reclassified in any way, in whole or in part. Violation of these restrictions will be cause for removal from MIOC distribution lists*

Did it ever occur to you when General Motors decided to close their doors to Flint's public water source and invest in a private company for their water supply, that this water may not be safe for drinking? After all, if it wasn't good enough to manufacture cars with, how was ingesting it safe or beneficial to one's health?

Ask yourself this Governor. If the water running from your faucet, that your children Jeff, Melissa, and Kelsey use to brush their teeth with, or that your wife Sue bathes in was yellow, polluted, and lead infused, would you be okay with it? The physical appearance of the water itself is off putting. When residents questioned it, they were assured by Flint public officials that the levels of TTHM in the water were safe for human consumption. All false.

Only after Virginia Tech conducted a study on the harmful agents in Flint's river water supply was the truth revealed. In addition to increased levels of TTHM in the water, there was up to three times the levels of lead in Flint water than what is approved for human consumption in the United States. As a first world country, we are living in third world conditions. Our innocent children have had to pay for your uninformed and illegitimate decision to sell poisoned water and play russian roulette with their health.

We need to focus on this immediately. A state of emergency was declared yet nothing was done. The majority of people in Flint, reside in low income neighborhoods. They are being forced to live off of bottled water for cooking, cleaning, showering, and everything else. The children in Flint have already been exposed to lead poisoning Along with you, the elected city officials are failing to acknowledge the crumbling infrastructure they have created. Someone has to be held accountable, including you Governor. To save a couple pennies in your budget, you sacrificed not only innocent lives but the faith of the community.

You have lost all credibility and will be remembered as a man who traded a basic human right for profit You poisoned our children knowingly and capitalized on this. Your nonchalant approach and inaction to the apparent genocide you have help create in the city of Flint, has dictated your position in this matter. Governor, it's time you suffer the consequences of your bad decision.You will be made an example of

On behalf of the entire community, we are demanding your resignation in concurrence with making the switch back to the Detroit Water System We are demanding clean, free water.

We are Legion. We do not forgive, we do not forget. Expect us, Governor. The world is watching

- **01/20/2016**

published a video via YouTube by Anonymous titled "#OpFlint." The video stated:

Greetings Citizens of the world,

We are Anonymous.

For over a year now the citizens of Flint, Michigan have been subjected to drinking tap water filled with lead and other poisons.

Over 3000 children residing in flint have been diagnosed with lead poisoning andother contaminated water illnesses.

This issue went unreported by the mainstream media for entirely too long.

A resident of Flint, Michigan and activist by the name of "@C1tyOfFl1nt" has worked for countless hours, weeks, and years to bring awareness to the water crisis in flint.

And now that OpFlint is in the media and people are aware, we must remind the city officials of flint that we do not forget and we do not forgive.

The crimes committed by Governor Snyder as well as other city officials will not go unpunished.

The city of Flint deserved to be informed and made aware of the problem with the town drinking water.

The fact that Governor Snyder stayed silent while the children of flint were poisoned says a lot about his character.

It is safe to assume that children may already be doomed to die due to this It says a lot about how Snyder and those who answered to him on this matter feel about the citizens of Flint

It's clear to us that Governor Snyder needs to be reminded that he is a servant for the very same people he has poisoned and made sick. Or perhaps he never forgot. Perhaps corruption is at play here. In that case, he is now going to simly be shown the error of his evil ways.

We feel that there currently exists enough evidence to arrest Governor Snyder for either voluntary or involuntary manslaughter, and that a full scale investigation into the Flint Water crisis and a criminal trial will yield the information that will send governor Snyder to prison

This document is the property of the Michigan Intelligence Operations Center (MIOC) for Homeland Security and is prepared for the limited purpose of information sharing This information is designated UNCLASSIFIED//FOR OFFICIAL USE ONLY and is shared in confidence. This document must not be reclassified in any way, in whole or in part Further distribution is restricted without the consent and prior approval of the MIOC. Release to the media of any information in this document is prohibited. Violation of these restrictions will be cause for removal from MIOC distribution lists

We encourage the city of Flint to be vocal and demand that Governor Snyder face criminal charges. Anonymous will *stand beside you.*

We will amplify your voice where the mainstream media will surely fail you, as it has in the past.

We will also join you in calling bullshit on any spin that the corporate media is prepared to put on this, as they have on other past crises that affect the welfare of the common people in this country-most notably the poor and people of color. Governor Snyder and his cronies have brought pain and suffering, and possible death to the people of Flint.

They have also clearly displayed contempt for the children of flint. Certainly they have displayed no remorse or guilt.

But it all stops now.

Because what Governor Snyder will soon learn is what we do not forgive We do not forget. The people responsible for this crises will be held accountable. Every wrong doing will be rectified.

The city of Flint deserved better, governor Instead they got a murderer.

One again justice will arrive in the form of a pale mask.

We are Legion.

We are the citizens of #OpFlint.

Governor Snyder, did you really not expect us?

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

Subject: Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3rd HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

F/Lt. assigned to the Joint Information Center (JIC) has and continues to work with local and national media, for MSP, and other agencies.
. F/Lt. as the Water Response Team Commander.

t. as the logistics – Distribution Coordinator.
Sgt as the EOC – Safety Officer.
ts. As Ground Operation Coordinators.
Troopers providing security to the teams.

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you
Gene

Beckner, Jessina (MSP)

From: Governors office - List
Sent: Wednesday, February 03, 2016 6:15 PM
To: Sipes, Stephen (MSP)
Subject: "Flint residents should not have to pay for water they cannot drink"

Budget recommendation will include $30 million request for Flint water bill repayments

When Governor Rick Snyder presents his budget recommendation next Wednesday, Feb. 10, he will include a $30 million request for the residents of Flint to keep their water service on and eliminate the need to pay for water they cannot completely trust to drink.

Under the governor's ask, the funding would enable the city of Flint to apply credits for customers on future bills. Estimates show water is roughly 47 percent of billing and sewer costs are around 53 percent. The credit would be applied to consumption usage (roughly

65 percent) of a resident's water portion of the bill, such as for bathing, drinking, cooking, and washing your hands. Residents still would be responsible for paying the sewer portion of their water bills.

Professor Marc Edwards of Virginia Tech said, "This essentially refunds all the money associated with consumption or consumer use. I think it's an amazing gesture of common sense and good will and it corrects an injustice. I don't think there's a precedent for this. I feel so encouraged by the direction this is going.

Click here to learn more about the budget request.

We spoke with Staff Sgt. Thomas Vega about the critical resources they're providing to Flint families every day. He also encouraged residents to pick up and return their water testing kits to Flint fire stations. Test results will be posted online at www.mi.gov/flintwater. **Click here to watch the video.**

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/20/16 at 1230 HRS

Prepared by Lt. Amy Dehner

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

ACTIVITY SUMMARY:

- National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0830 today on ops plan for) teams that begin water/filter dissemination on 01/20/16. Teams will have MSP and GSCO marked unit as security escort during operations.
- National Guard personnel are providing drivers for U-Haul distribution vehicles, and 15 passenger vans (to transport distribution teams).
- 20 U-Haul vehicles are in use to sustain mobile re-supply concept.
- Anticipating the arrival of another National Guard personnel this evening, which will result in the formation of another distribution teams to be sustained through Sunday 1/20/16, operating 1000HRS through 1800HRS.
- It is anticipated that contact will have either been made or attempted at all 45,000 residences in the City by mid-afternoon today.
- MSP and GCSO met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution. A follow-up meeting will be held this afternoon to coordinate with National Guard personnel in an effort to address these issues prior to tomorrow's deployment.

SAFETY ASSESSMENT:

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

MSP RESOURCES REQUESTED THIS DATE/STATUS:

additional troopers were requested to augment current trooper staffing, beginning tomorrow 1/20/2016 from 0830 to 1800HRS

NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/20/2016:

1800 HRS 01/20/2016

Subject:	Assistance to the City of Flint
Importance:	High

Good afternoon all,

PCA 28670 has been established to track the OT worked assisting with the City of Flint with the water contamination. Please continue to use Project # FLTWAT and Phase 16 to track non-OT hours to that are spent assisting with this issue, as this will help us when asked the overall impact of assisting the City of Flint.

If for some reason you run into an issue where meals, lodging, supplies, etc. are necessary for this assistance, please contact me so that I can make a decision on how to handle that cost.

Please let me know if you have any questions.

Thanks,
Dave

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

ACTIVITY SUMMARY:

- 180 National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0930 today on ops plan for (15) for WRT. Teams will have MSP and e GSCO marked unit as security escort during operations. In addition the American Red Cross is fielding 15 teams (apx 150 personnel) within the City. At their request, the Red Cross continues to operate without law enforcement support, and has consistently stated that law enforcement escorts go against their service model, with their agency assuming liability for the safety of their volunteers.
- The National Guard will sustain the soldiers they have on ground through COB Sunday January 24th.
- MSP, GCSO and National Guard met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution, in particular at the Red Cross staffed warehouse.
- At time of publish, all involved ground teams have made or attempted contact at apx. 20,000 residences as part of Phase II of water distribution operations.

SAFETY ASSESSMENT:

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

Based on information provided by National Guard personnel staffing water pods at fire stations #3 and #6 with regards to

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/23/16 at 1300 HRS

Prepared by Lt. Amy Dehner

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission, Genesee County Health Department, DTMB, United Way

ACTIVITY SUMMARY:

- National Guard personnel, _ MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for (15) water distribution teams. In addition, the American Red Cross is fielding (40) teams, with apx. 200 personnel acting as water distribution teams.
- As of 1200HRS today teams had completed contacting residences in their assigned operational areas (meeting the end phase of having either attempted or made contact in the estimated 45,000 residences in the City), and were beginning a 3rd pass in some neighborhoods..
- Per the SEOC, the operational plan as of COB today is to stand down the law enforcement/National Guard street water distribution teams, and allow the Red Cross to continue to address and complete their assigned operational areas through Tuesday.
- The National Guard will continue to staff the (5) water distribution pods at local fire stations. Current plans are underway to move those pods to locations that maintain accessibility, without putting pressure on fire station operations.
- MSP personnel on ground have been coordinating with local EMHSD personnel for the return of 20 Penske trucks, and 15 MDOC vans – all of which will be empty and staged at the Clio Road warehouse for transport back to Lansing and/or rental stations in Flint tomorrow.
- Combined team activity for the last three days has averaged apx. 13,000 residences contacted per day. As of 1300HRS, it is anticipated that teams will reach another 12-13,000 residences again today by 1800HRS

SAFETY ASSESSMENT:

(2) National Guard soldiers were taken to McClaren Hospital this morning for minor issues, unrelated to water distribution efforts. As of publish time, both had returned to normal duty status.

Inspector,

Just a heads up on activities downtown. The EOC is located in the basement of the county building. They are generally running administrative type hours from 8:00 am until 7:00 pm. The 14's and myself will begin a rotation for MSP downtown starting tomorrow with Lt. Pummill and myself on Wednesday. Lt. Young will also be assigned in a uniform capacity in the coming days. We are tracking OT hours for any personnel downtown.

I've been in touch with Lt. Draves a few times this morning reference the Governor's visit. As of now there are no protesters, and the likelihood of having any is unlikely given the parking and weather conditions today. I will be down at the EOC starting at noon. We will keep you updated.

Attachments:	How to UNZIP.html; SecureZIP Attachments.zip
Importance:	High

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location. Below is operational assembly information that is critical for you to read as this is very short notice :

MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

NOTABLE EQUIPMENT REQUIREMENTS:

High visibility vest (in vehicle)
Garrison cap and/or department issued cold weather headgear

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

GROUND OPERATION OIC(s):
Tpr. Rick Jones –
Sgt. Duane Zook

EOC SITE SAFETY OFFICER:
Lt. Amy Dehner (3504) 989-225-3487

OTHER INFORMATION:
This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

SECURITY GROUP ONE:

Tpr. Gooch
Tpr. Poyhonen
Tpr. Lutz
Tpr. Easlick
Tpr. Cairnduff
Tpr. Stickel
Tpr. Kramer
Tpr. Brown

SECURITY GROUP TWO:
Tpr. Martin
Tpr. Hessling
Tpr. Dhooge
Tpr. Hutchinson
Tpr. Swales
Tpr. Richter
Tpr. Faucette

Any questions regarding the information contained in this email can be directed to me via cellphone at 989-225-3487.

Subject:	FLINT WATER DETAIL MOBILIZATION

Third District Commanders

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

Current Duties:

- EOC Safety Officer – Sgt.

- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. This includes Street Sgts.
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

TROOPER MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment Troopers only

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

Please call with any questions and advise me by e-mail if you were able to make a site visit.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/17/2016 1900 HRS

Prepared by Lt. Patrick Young

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

ACTIVITY SUMMARY:

- Distribution teams totaling roughly 104 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP, MDOC, GCSO, or truck drivers.
- We are currently coordinating loading procedures for 15 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC is reporting 1732 residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.

SAFETY ASSESSMENT:

Local access shows 13 Degrees Fahrenheit with a light wind. The streets are icy in spots. The National Weather Service reports are being monitored.

NEXT ANTICIPATED SITREP PUBLISH TIME:

1000 HRS 01/18/2016 from Lt. Patrick Young.

MSP EMHSD/Flint Post Personnel, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, Michigan Army National Guard.

ACTIVITY SUMMARY:

- MSP/DHHS/GCSO/all other/Distribution teams totaling roughly 172 are in operation. This includes team leaders. At present, we have sufficient trooper and deputy staffing to effectively run this days operation. The expected hard numbers of volunteers will be passed down by the SEOC this evening. We have fielded 12 teams with 12 vehicles. 4 additional vehicles (box trucks) are being utilized as resupply vehicles. Distribution operations are taking place on the West and North ends of Flint per local intelligence and the latest distribution map provided by the SEOC.
- 20 + iPads are in use today.
- The ARC reported 12 ARC teams deployed at approximately 9am.

SAFETY ASSESSMENT:

Local access shows 16 Degrees Fahrenheit. Wind chill factor feels like -3 degrees. The streets have icy spots in the distribution areas. National weather service reports are being monitored.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/18/2016 1800 HRS

Prepared by Lt. Patrick Young

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

ACTIVITY SUMMARY:

- Distribution of 12 teams totaling roughly 110 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP and the GCSO.
- We are currently coordinating loading procedures for 16 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC did not report residential contacts for the day.
- *The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.*
- Working on deployment operations for tomorrow along with support vehicles and personnel.

SAFETY ASSESSMENT:

Local weather access shows 17 Degrees Fahrenheit with a wind chill of 0 degrees. The streets are icy in spots. The National Weather Service reports are being monitored.

NEXT ANTICIPATED SITREP PUBLISH TIME:

1000 HRS 01/19/2016 from Lt. Amy Dehner or Lt. Julin.

Subject: Flint Water Emergency-Genesee County EOC

Lts.,

The address for the Flint Emergency Operations Center is 1105 Beach St. This is a county owned building. It is directly across the street from Flint City Hall and the EOC is located in the basement, or level "G" if you use the elevator. Once you exit the elevator, you will see an old cafeteria to the left. Walk past the cafeteria and the EOC is down the hall on the right. The door is labeled Emergency Operations Center. BJ Roach is the EMHSD coordinator for the incident. Her cell phone number is (Please include Sgt. Keith Sparks at our post as to whom you will be sending. We are putting together paper squads for this response.

Parking is available behind the sheriff department which is one building north of the county building or there is a parking ramp available off 7th street.

We appreciate all the assistance.

Subject: Flint Water Informational e-mail

Good Morning

I am sending this as an informational e-mail.

Currently, the Flint Post and 3rd HST are fulfilling the SEOC - requests for personnel and coordination command to the Flint Water Situation. With over 125 volunteers scheduled today and tomorrow, troopers are providing security to volunteer teams handing out water and filters, street-by-street and house-by-house.

Today we have the following enlisted numbers in place:

-/Lt. assigned to the Joint Information Center (JIC) has and continues to work with local and national media, for MSP, and other agencies.
F/Lt. as the Water Response Team Commander.
t. as the logistics – Distribution Coordinator.
gt. as the EOC – Safety Officer.
Sgts. As Ground Operation Coordinators.
Troopers providing security to the teams.

There are many assignments that fall under this portion of the overall operation and the Response Commander reports to command within the EOC.

I will send these out periodically as there may be a request to up our commitment based on the number of volunteers and supply of filters over the next weeks.

Thank you
Gene

Subject: "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis"

Good Morning,

The first "Weekly Ann Arbor Protest: ArrestGovSnyder FlintWaterCrisis" was held last night in front of Governor Snyder's residence at g, it is reported that over 80 individuals turned out for the demonstration. Participants loudly chanted, carried posters, and wrote messages on the sidewalk in front of the residence. The event description indicates the group will continue to protest on Wednesdays between 5:30 p.m. - 6:30 p.m. in front of Governor Snyder's residence in Ann Arbor.

The next protest will be held on Wednesday, **February 10 between 5:30 p.m. – 6:30 p.m.** also in front of Governor Snyder's residence in Ann Arbor. Currently 45 individuals have RSVP'd they plan to attend.

This is for situational awareness only.

Thanks,

Sue

Protesters: 'Arrest Rick Snyder! Make him drink the water!'

It's hard out here for a governor.

Facing continued pressure to resign over the Flint water crisis, Michigan Gov. Rick Snyder has been **publicly heckled** while trying to dine out in Ann Arbor, he's been the subject of criticisms written in chalk on downtown sidewalks, his face is on wanted posters plastered around multiple cities, and then there's the protests.

Dozens of protesters demonstrated once again Wednesday night outside the embattled governor's personal condo in downtown Ann Arbor.

Protest organizer Jan BenDor of Michigan Rising said they're planning to continue holding weekly protests outside the Main Street loft condo the governor and his wife moved into this past year. The Snyders had been living in a gated community just outside the city before deciding to make the move downtown.

"We're just hoping to keep this situation in the public eye," BenDor said of the Flint water crisis. "Often even the worst tragedies just disappear after a week or so of concern, and this is a long-term horrible thing that has happened in our state. So, we want to make sure everybody keeps helping with this."

UM-Flint's enrollment dropped 3 percent after water crisis went national

All Stories

The condo's window blinds were closed Wednesday night, and it wasn't clear that anybody was home, but protesters still chanted loudly.

"Arrest Rick Snyder! Make him drink the water!" they yelled as they marched along Main Street.

"Jail the nerd!" they chanted in unison multiple times.

"No more procrastination! We want incarceration!"

The protesters didn't channel all of their energy into anger and frustration toward the governor, though.

They also handed out fliers informing passersby how they can help the residents of Flint, with suggested charities to support.

"We're encouraging people to donate to the **FlintKids.com** website for the long-term health care of the poisoned children," BenDor said. "And we are also encouraging donations to some other agencies that are doing uniquely good work."

The flier also directs people to a CrowdRise page for a charity for Flint residents called **Crossing Water.**

Ann Arbor resident Susan Fecteau was among those protesting. She's also behind the anti-Snyder sidewalk chalk messages seen around downtown.

"You enjoying your clean water up there, Rick?" read one of the messages written on the sidewalk right outside the governor's window Wednesday night.

Fecteau said she's been out chalking just about every day for weeks now and she's been watched and photographed. She's not sure who's doing it, but somebody has been wiping away her messages after she leaves, but she keeps going back.

She said Wednesday's protest was about making sure people are fully aware of what has happened in Flint.

She said people need to take back their government.

"People need to to get educated about it, and understand that when we vote guys in like this, this is what happens, this is the result," she said.

"And I've been stunned as I've been talking to people. I'm surprised people still don't know what has happened. People don't understand about the emergency manager law. They don't understand about FOIA and that he's FOIA-proof."

Not everyone was happy with the protest, though.

Paula Porter, an employee of the Four Directions store on the ground level under the governor's condo, came out and confronted the protesters. She questioned whether what they were doing was constructive or effective.

"I'm on their side, but I'd prefer they go to Flint," she said. "I've lived in Flint. Go spend time in Flint, get things done."

Porter said she doesn't think the governor is going to care much about what protesters outside his condo have to say.

A city police officer was on the scene at one point responding to complaints that people were stuffing fliers into one or more mail slots.

Dave Murray, a spokesman for the governor, said in response to the protest that Snyder is focused on the people of Flint, not politics.

"He's making sure Flint residents are getting the assistance they need as we move forward, addressing issues related to health, education and infrastructure," he said.

"Today the governor discussed his $30 million proposal to bring relief to Flint residents who have been paying for water they cannot use to drink or cook with. This is on top of the $28 million our partners in the Legislature approved last week to provide immediate relief and the $9 million approved in October.

"People across our state, from both sides of the aisle, are coming together to help the people of Flint."

"A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY"

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/20/16 at 1230 HRS

Prepared by Lt. Amy Dehner

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, National Guard, Michigan Public Service Commission

ACTIVITY SUMMARY:

- 95 National Guard personnel, MSP troopers, GCSO deputies, and 25 MDOC personnel on ground for distribution teams, briefed at 0830 today on ops plan for (10) teams that begin water/filter dissemination on 01/20/16. Teams will have one MSP and one GSCO marked unit as security escort during operations.
- National Guard personnel are providing drivers for U-Haul distribution vehicles, and 15 passenger vans (to transport distribution teams).
- 20 U-Haul vehicles are in use to sustain mobile re-supply concept.
- Anticipating the arrival of another 90 National Guard personnel this evening, which will result in the formation of another 10 distribution teams to be sustained through Sunday 1/20/16, operating 1000HRS through 1800HRS.
- It is anticipated that contact will have either been made or attempted at all 45,000 residences in the City by mid-afternoon today.
- MSP and GCSO met with Red Cross coordinator Lauren Twohig this morning to review coordination issues that continue to be problematic in refining efficiency processes for distribution. A follow-up meeting will be held this afternoon to coordinate with National Guard personnel in an effort to address these issues prior to tomorrow's deployment.

SAFETY ASSESSMENT:

National Guard personnel were briefed for the purposes of situational awareness in the City of Flint. The safety threat assessment remains low, with cold weather as the only operational deterrent at this time.

MSP RESOURCES REQUESTED THIS DATE/STATUS:

additional troopers were requested to augment current trooper staffing, beginning tomorrow 1/20/2016 from 0830 to 1800HRS

NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/20/2016:

Subject: FW: Arrest Snyder Event Today at 4:40 p.m., Flint City Hall UPDATE

Good Morning,

The MIOC has prepared the below information for situational awareness and public safety concerns.

Participants of this rally will meet up at Flint City Hall to discuss why arresting the Governor is "the only action that is appropriate." The group plans to move from Flint City Hall to a nearby overpass and display light boards with the message "Flint Arrest Snyder." One individual will be dressed as Snyder in a black/white stripe prison jumpsuit with the number 66247 (see attached photo). The number is significant to them as it is meant to signify Snyder is "the Devil 24/7."

This rally is described as a nonviolent action intended to support the community affected by the tainted water. No guns or weapons are welcome. No drugs or alcohol are welcome. This is to be a family friendly event working toward the health of the community.

At this time there are no known credible threats. Unfortunately, this issue has received a large amount of negative media exposure. Cher has "tweeted" the Governor should be executed over the Flint water issue and filmmaker Michael Moore has started a petition asking the U.S. Attorney General to prosecute and arrest Snyder and called for a thorough FBI investigation over his handling of the Flint water crisis. Rachel Maddow, MSNBC, reported the responsibility for the tragedy falls to Governor Snyder. They have emailed Maddow inviting her to attend the rally. All of this media exposure creates the potential for attendance by groups with divergent views or lone wolf individuals who seek to engage in destruction of property, assault, or other types of crimes which may potentially result in incidents at, or associated with the event.

The MIOC will continue to monitor open source today for any threats and provide updates as any new information or suspicious activity connected to the event is located.

Importance: High

Good morning Ladies,

We received unconfirmed information via the local EOC that a water rally is being planned for this morning at First Trinity church in Flint, where both Jesse Jackson and Russell Simmons are scheduled to attend. In addition, the information provided indicated that this may also be linked to the novement and that individuals in attendance may purposefully engage in civil unrest in an attempt to be arrested by law enforcement.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/17/2016 1900 HRS

Prepared by Lt. Patrick Young

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

ACTIVITY SUMMARY:

- Distribution teams totaling roughly 104 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP, MDOC, GCSO, or truck drivers.
- We are currently coordinating loading procedures for 15 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC is reporting 1732 residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.

SAFETY ASSESSMENT:

Local access shows 13 Degrees Fahrenheit with a light wind. The streets are icy in spots. The National Weather Service reports are being monitored.

I just saw this:

Details on water crisis march with Jesse Jackson, Greg Mathis in Flint

FLINT, MI -- Several organizations are expected to come together Friday, Jan. 19 for a mile-long national march organized in part by Rev. Jesse Jackson to highlight the push for clean water in Flint.
Pastor Alfred Harris, president of the Concerned Pastors for Social Action Group, said the **march will begin at 11 a.m. Friday, Feb. 19 at the Metropolitan Baptist Tabernacle, 930 E. Myrtle Ave.**
The roughly one-mile march will run from Myrtle, up Industrial Avenue, east on Stewart Avenue, and end at the Flint Water Plant, 4500 N. Dort Highway.
Jackson announced during a Feb. 2 press conference on a class-action lawsuit seeking $150 million to help refund water bills and repair infrastructure that a "major national march" was in the works.

Organizations involved in the planned march include Jackson's Rainbow PUSH Coalition, the Michigan Legislative Black Caucus, and the Concerned Pastors group.
Jackson has appeared at several recent events in Flint, including a Jan. 17 rallyduring which he called a "disaster zone" and a "crime scene."
He said he's been in contact with Doctors Without Borders to have every home in the city tested and is working on a "broad-based coalition" for action that includes the concerned pastors and Water You Fighting For? groups.
Jackson is expected to be in attendance at the march, along with Judge Greg Mathis who made a Jan. 30 stop at Quinn Baptist AME Church to chat with resident about their legal rights concerning the water crisis.

Harris previously said the group is partnering up with Jackson who will be with them "shoulder to shoulder" in the days ahead.
"What we want to do, we want to go from bottled water to pipes to restoration," he said. "We want the citizens of Flint to be restored in all aspects of their lives."

I just checked the websites and social media of the three main groups (RPC, MLBC and CPSA) and none of them have put anything up about the march yet. I will continue to monitor this and forward any pertinent information.

Heads up on the latest.. it appears as though we may need to pull some outside troops if they push the guard troop total to on Thursday, unless we want to use "floating" security going between a WRT or two... we are only looking at or more uniforms with the added ANG troops.

Subject: RE: Flint Water OIC for Friday 1/22

Clear on those responses –

Our ground and mapping personnel are asking if it is possible to have the NG assemble at the EOC, instead of the warehouse, tomorrow morning? Operationally, it is easier for our mapping personnel, the team leaders, and tech section, to stage the delivery trucks here in the morning, and push out from the EOC. We seem to run into last minute logistic issues that require iPad fixes, and/or map route re-draws, and it is more helpful to be able to address those issues here, rather than going to another facility where we can't have direct access to all of our personnel in the morning.

Also, if we anticipate going past Friday, we made need to have another request for personnel generated by the SEOC as our current plan is only projected through Friday the 22nd.

Answers are starred below

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.
**We will need to feed our personnel and Logistics can add meals to the Local EOC dinner plan. The guard is eating on the economy.

- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying . This includes personnel that staff the mapping operations, which has been critical to our success to this point.
**We are discussing having the Guard shift be strictly 1300-2100 with ARC covering the normal day shift. If we switch to this model, we will need to provide staff for 18 teams, 1300-2100. Day shift teams will continue for the Red Cross as current (no MSP or GCSD staff).

- Is the number of National Guard soldiers anticipated to be TOTAL for the day, or soldiers per shift? We have enough projected staffing through the Flint Post to support up to soldiers, (1 marked unit per team) working

12 hour shifts through Friday January 22nd. We don't have resources in place past that point. Anything past bodies will require that we seek staffing outside of Post resources.
** Beginning on Thursday, the Guard will be providing solders for WRT detail and command staff. teams of

- Will the data for residences that show as "no answer" be produced by the SEOC, prior to Thursday so that we have an opportunity to pre-plan distribution routes?

**I am submitting a MiCIMS resource request to GIS for this right now. The resource request number is SEOC – 8951057
Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Okay.

We will adjust our schedule here.

Can I get contact #s for Julin and Mapes?

I have the following for Sims and Luty, please advise if they are incorrect:
Sims -
Luty ?

Finally, FYSA: we are working on modifying the hours of operation starting on Thursday. Right now, we are considering a two shifts, the normal shift we have been running (0800-1700) and an afternoon shift of 1300-2100. Please advise if we will be able to support the guard for this shift. We still need to figure out the number of teams on each shift.

I'm open to suggestions.

Tom,

Just t/t the City Administrator and Finance Director, there are no overtime funds available to dedicate FPD personnel to escort water deliveries. I can use personnel from our Inside/Out detail which is once a month, (next I/O is February). Additionally, can we set up a process that if a water location calls for assistance (unruly people) and we cannot response FPD can contact an MSP supervisor to respond?

UD-040 (10/02)
MEMORANDUM

STATE OF MICHIGAN
DEPARTMENT OF STATE POLICE

DATE: January 11, 2016

TO: Department Members

FROM: Col. Kriste Kibbey Etue, Director

SUBJECT: Activation of State Emergency Operations Center

On January 5, Gov. Rick Snyder declared a state of emergency for Genesee County due to the ongoing health and safety issues caused by lead in the city of Flint's drinking water. By declaring a state of emergency, Governor Snyder has made available all state resources in cooperation with local response and recovery operations.

The declaration authorizes the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD) to coordinate state efforts. In addition, Governor Snyder activated the State Emergency Operations Center (SEOC) to coordinate the action's of state departments in the state's response and recovery efforts.

The SEOC is the emergency operations center for the state of Michigan and is overseen by the MSP/EMHSD. The SEOC is supported by staff from MSP/EMHSD and staffed by members of state agencies and other partners for decision making and information coordination during disasters or emergencies in the state of Michigan.

On January 6, a State of Michigan Joint Information Center (JIC) was also established to lead the state's messaging and information response in support of the SEOC and in coordination with the Genesee County Emergency Operations Center and the City of Flint.

Going forward, to better coordinate the health and safety of the residents of Flint and to ensure they are aware of and have access to the resources available within their community, the SEOC will serve as a central point of coordination between the local and state response efforts.

The state of Michigan is working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, to find both short-term and long-term solutions to ensure the health and safety of Flint residents.

As a resource, an informational flyer can be found here. For updates and additional information, visit www.mi.gov/flintwater.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/15/2015 1400 HRS

Prepared by Lt. Amy Dehner

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Public Service Commission, Michigan Army National Guard

ACTIVITY SUMMARY:

- MSP/DHHS/GCSO Distribution teams) continue to conduct operations in 5th and 7th Wards; this is an increase in 2 teams from Thursday's model and was a decision made on the ground this morning due to an unanticipated increase in personnel and distribution vehicles
- Supply issues continue to remain a challenge with maintaining water on distribution vehicles due to a supply conflict with firehouses.
- iPad issues related to a technology upgrade prevented the real time capture of data for the first 2 hours of operation. This information was captured by hand, and will need to be manually uploaded.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- Volunteer (state employees) numbers are at apx. 50-75 personnel for Saturday, Sunday and Monday. The expected hard numbers will be passed down by the SEOC this evening. At present, we have sufficient trooper and deputy staffing to meet these anticipated numbers.

SAFETY ASSESSMENT:

MCU reported a non-fatal shooting in the area of Tuxedo and Alvord Streets in the City of Flint at around 10am. This was passed to distribution teams, who advised they we all working a significant distance from this south part of the City.

NEXT ANTICIPATED SITREP PUBLISH TIME 01/15/2016:

Subject: RE: MSP Resource Request - Flint Water Response Teams

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have s (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Insp. Matt Bolger

Cc: Dehner, Amy (MSP)
Subject: MSP Troopers for Water Emergency

Inspector,

With the (proposed)deployment schedule moving to an afternoon shift, this will have significant impacts upon trooper availability for the water emergency from our post. Is this a necessary change? Is it possible to spot check residences on an "as needed" basis on an afternoon shift? We could probably make that accommodation. At this point, I'm not sure that completely changing the schedule that has been so effective up to this point is really necessary.

To: MSP-EOC-MDSP
Cc: Pummill, Paul (MSP); Kish, Thomas (MSP); Sparks, Keith (MSP); Young, Patrick (MSP)
Subject: MSP Water Distribution Operation - AAR

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

Mission:
teams (40 DHHS employees), supported by and marked Sheriff units, and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

Recommend to Sustain on 1-13-16:
-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and
: per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with

transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

Recommend to consider changing on 1-13-16:

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

$28M Flint Supplemental Expected In House Approps Wednesday

A $28 million supplemental to fund various Flint needs as it continues to work through its ongoing water crisis is expected to be taken up in the House Appropriations Committee on Wednesday.

Budget Director John Roberts formally submitted today the requested supplemental to the chairs of the House and Senate Appropriations committees.

The supplemental would provide funding for various initiatives, according to information obtained by Gongwer News Service. In total, the supplemental is $28.03 million with $22.63 million from the General Fund.

It would provide:

- $935,000 in General Fund dollars for hiring nine additional school nurses and two Early On service coordinators, a psychologist and a health professional to coordinate the provision of wrap around services. The funds would also provide fresh fruit and vegetables to the Genesee Intermediate School District;
- $5.79 million from the General Fund for an infrastructure integrity study to assess the status of the Flint water system and additional lab and testing costs in the Department of Environmental Quality. The funds would also assist the city in paying for corrosion control procedures for one year and potentially help with utility issues and water system needs;
- $17.2 million ($2.85 million in federal, $2.55 million in state restricted revenues and $11.8 million in General Fund revenues) to help with purchasing of bottled water, water filters and replacement cartridges; Department of Health and Human Services field operations costs; epidemiological analysts and case management of those with elevated lead blood levels; nutrition support; support for child and adolescent health centers; assessment of potential links to other diseases; food inspections and crisis counseling;

- $2 million in General Fund for emergency efforts related to the water system, specifically purchasing and replacing plumbing fixtures in schools, child care and adult foster care centers, nursing homes, dialysis centers and surgery centers in the city;
- $2 million in General Fund dollars to address immediate needs, including paying for the National Guard's role in providing support for three months; and
- $100,000 in General Fund dollars for the Flint Water Interagency Coordinating Committee.

It was also indicated this would be the first of multiple supplemental appropriations to address the ongoing crisis in Flint.

Gongwer News Service will have more on this story in Tuesday's Michigan Report.

OK D-

This is the second issue I mentioned earlier today.
In December, our staff became peripherally aware that the hospitals in Genesee were seeing an uptick in Legionnaires cases.

Legionnaires is a water-borne illness. It essentially is a type of pneumonia caused by a bacteria. It is treated with antibiotics. Untreated, it can be deadly. It most often manifests in nursing homes and assisted living facilities, because the transmission is through water vapor getting into lungs – via air conditioners, vaporizers or low-flow shower heads that produce a lot of misting. You can drink water with this bacteria in it and not get sick – it has to enter the lungs in vapor.

I don't have any details on the cases, but here is what I understand to this point:

- More than 40 cases reported since last April. That's a significant uptick – more than all the cases in the last five years or more combined.
- April / May is usually the start of Legionnaires season – it proliferates in warmer months – but April also is the point at which the city switched to the Flint River as a source.
- County Health Departments are supposed to perform epidemiological tracebacks on all confirmed cases of this disease, to locate the source and address it. Genesee County Health had not done this work as of November. At a January meeting with area hospitals, MDCH, DEQ and others, Nick Lyon reportedly directed the county health folks, in terms not uncertain, to get this done as a priority. As I'm sitting here today, it still is not done to my knowledge.
- My counterparts at MDCH informed me today that they cannot step in unless they are invited or unless the outbreak is multi-county. They've not been invited until, I believe, today. That may be in part because of the email string and letter I've enclosed here, which was unknown to MDCH until I shared it over to them.

The email thread below is best read bottom-to-top, and read prior to reading the enclosed FOIA to the city.

Essentially, Jim Henry with Genesee County Health is putting up the flare. He's made the leap formally in his email that the uptick in cases is directly attributable to the river as a drinking water source – this is beyond irresponsible, given that is his department that has failed to do the necessary traceback work to provide any conclusive evidence of where the outbreak is sourced, and it also flies in the face of the very thing a drinking water system is designed to do.

DEQ did not receive this FOIA, which appears designed to buttress his position in the email -- that sections of the water delivery system may be harboring this bacteria. We think it would be highly unlikely that anything would be found around the plant, where the water is treated. Most often, this bacteria forms at the building / residential point in the system. Legionnaires is NOT among the 90 water contaminants screened in the Safe Drinking Water Act, but in the absence of action by county health, our staff are now considering taking samples from various points in the system and working with DCH's lab to test for it, if for no other reason than to rule it out.

Regardless, the accusation is serious and the nature of the communication leaves me thinking we would be advantaged to bring together all the agencies asap to share what information we have and develop a response / screening strategy before the weather gets warm again.

I realize these are long emails. Thanks for your patience.
b

Subject: FW: Information Request and Documentation
Importance: High

The district received this late Tuesday.

Steve Busch has indicated that the district has not received a meeting request from Jim Henry or the Genesee County Health Department as indicated in his email below.

The FOIA is specifically directed to the City of Flint not the DEQ.

While the change in source may have created water quality conditions that could provide additional organic nutrient source to support legionella growth, there is no evidence or confirmation of legionella coming directly from the Water Treatment Plant or in the community water supply distribution system at this time.

Seems like the next step is to communicate with DCH and possibly develop a joint strategy/response. Not sure who in Exec wants to take the lead on this. Steve Busch and Mike Prysby will continue to be lead for us on this. They have been in contact with DCH recently but only to learn that little progress has been made in identifying a source or sources for the illnesses.

EMAIL FROM DEQ TO HENRY SENT THIS AFTERNOON:

Mr. Henry,

The January 27, 2015, FOIA request you provided was directed to the City of Flint, not the DEQ. The DEQ has no record of a FOIA request from your office for such information. It is our understanding that the City has responded to your FOIA request, has helped you adequately redefine your request within the City's scope of public record to address such ambiguities as "any additional areas of concern", and provided you with additional information beyond the scope of your request.

The DEQ fully recognizes the public health threat posed to individuals that contract Legionnaires' Disease with the understanding that the disease is not contracted by ingestion of potable water and therefore not regulated under the federal Safe Drinking Water Act. Your email below claims that you have explicitly explained the situation to our Department. However, since contacting our office early last October to indicate a rise in cases, we have not received any further information regarding your epidemiological investigation into this matter.

Further, conclusions that legionella is coming from the public water system without the presentation of any substantiating evidence from your epidemiologic investigation appears premature and prejudice toward that end.

It is highly unlikely that legionella would be present in treated water coming from the City of Flint water treatment plant given the treatment plant's use of ozone along with complete treatment and chlorine disinfect contact time to comply with federal surface water treatment rules for potable water. Detections of total coliform or heterotrophic bacteria in the City's public water distribution system indicate an environment where bacterial growth may be supported. However, there is no direct correlation that can be made to the presence of legionella. While total organic carbon levels in potable water may serve as a food source for bacteria growth in private plumbing system, water temperatures in the City's distribution system are below legionella growth range, and chlorine residual levels would also limit such growth.

Our office agrees that water main breaks, water leaks, and system repairs are possible vectors for legionella to enter the public water system. These should be investigated as part of your epidemiology. DEQ staff can be made available to assist GCHD and the City regarding such matters, but to date no request by GCHD for any such meeting has been received, let alone declined as alleged in your email.

If GCHD is seeking assistance to complete its epidemiological investigation regarding this matter, such resource requests should be directed to the Michigan Department of Community Health. Our Office agrees that a multi-agency partnership would be beneficial to move forward and develop a unified response. In that respect, if our Office can be of any further assistance you may contact me directly.

Subject: Information Request and Documentation

Hello everyone,

The Genesee County Health Department has made several written and verbal requests for specific information since October, 2014, including a Freedom of Information Act Request on January 27, 2015. The information still has not been received and the city's lack of cooperation continues to prevent my office from performing our responsibilities.

The Genesee County Health Department has the responsibility to conduct illness investigations and consider all potential sources, this is not optional. In 2014, Genesee County experienced a significant increase of confirmed Legionella illnesses relative to previous years. Legionella can be a deadly, waterborne disease that typically affects the respiratory system.

The increase of the illnesses closely corresponds with the timeframe of the switch to Flint River water. The majority of the cases reside or have an association with the city. Also, McLaren Hospital identified and mitigated Legionella in their water system. This is rather glaring information and it needs to be looked into now, prior to the warmer summer months when Legionella is at its peak and we are potentially faced with a crisis.

This situation has been explicitly explained to MDEQ and many of the city's officials. I want to make sure, in writing that there are no misunderstandings regarding this significant and urgent public health issue. The Trihalomethane issues "pale in comparison" to the potential public health risks of Legionella.

I am submitting the attached FOIA request again and requesting that the legal obligations of the request are met. If the information is not available, please let me know. In the past, I have requested to meet with the water plant staff and MDEQ regarding Legionella concerns. I did not receive a response from the water plant staff and MDEQ declined. I think it is in the best interest for all stakeholders that we meet and discuss the issues.

Respectfully,

Jim

RE: Flint Water Plant Information Request

Dear FOIA Coordinator,

Under provisions of the Michigan Freedom of Information Act (MCLA 15.231 et seq; MSA 4.1801 (1) et seq) please provide copies of the following:

Provide specific water testing locations and laboratory results within the City of Flint public water system for Coliform, E-coli, Heterotrophic Bacteria and Trihalomethanes from January 1, 2010 to January 27, 2015. Provide any additional water testing that has been conducted for identifying potential public health risks. Include any available mapping of the water testing areas.

Provide a map delineating the boundaries of the City of Flint water distribution system. Include any changes to the boundaries, along with corresponding dates from January 1, 2014 to January 27, 2015.

Provide a map or list of locations, detailing dead ends, pooling, low pressure and any additional areas of concern within the City of Flint water distribution system. Include any modifications to the water distribution system addressing concerns, along with corresponding dates from January 1, 2014 to January 27, 2015.

If you determine that any of the requested information is exempt from disclosure, please detail what is being withheld and cite the exemption under FOIA. I anticipate the request being filled within five working days of receipt of this letter, as provided under FOIA. Please contact me at (810) 257-3618 if there are fees associated to comply with this request.

Sincerely,

Jim Henry

Good Afternoon,

Tomorrow evening Rachel Maddow of MSNBC will host her show from Holmes School, 6602 Oxley Drive, Flint, Michigan. Guests of Maddow include Flint Mayor Karen Weaver, U.S. Senator Debbie Stabenow, Dr. Mona Hanna-Allisha of Hurley medical Center, and more. Two other events are scheduled in correlation to this show.

(I'm not aware how people have been selected to attend the show or if there will be an audience.)

I will continue to monitor open sources for new information.

Thanks,

Sue

> **Subject: Rally Today at Capitol - Flint Water Crisis**
>
> Good Morning,
>
> This morning the organizer indicated he has a head count of about 150 people coming from Flint, there are two groups caravanning to the Capitol. One group leaving around 9:30 and another around 10:00. He did not indicate how many, if any were coming from Detroit, Benton Harbor, Ecorse, or Allen Park. They do mention that "other brethren from across the state are meeting us!" . It appears this group wants to have a peaceful protest to express their opinions on the water crisis in Flint.

Also there is plenty of negative response to the Governor's comment yesterday at the Auto Show: ""Why the delay in calling FEMA?" for help with the Flint water crisis was the first question for Snyder before he began his journey around the auto show floor. "I'm here at the auto show today," he replied. "It's great to be at the North American International Auto Show. What a great way to showcase Detroit and Michigan." People are posting photographs of an envelope with Attorney Jeffrey Feiger's address as their response.

I will continue to monitor open source for any threats or suspicious postings. So far I haven't seen any evidence of counter protestors or any groups with a counter-view.

Thanks,

Sue

Subject: Revised: Volunteers needed for water resource teams in Flint

From The Desk Of | Col. Kriste Kibbey Etue
Providing Service With A Purpose

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Subject: Trooper Staffing for Flint Water Emergency Situation

Commanders;

Ref the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16th and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting /

The time frame of this request is January 16th and tentatively through January 22. (may end sooner or may go longer)

This will require a 7:30am arrival at the Flint operations center and curtail around 5p on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell ' She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your assigned trooper to Lt. Dehner with a cc to me.

Thanks.

Steve

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/18/2016 1800 HRS

Prepared by Lt. Patrick Young

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, and the Michigan Army National Guard.

ACTIVITY SUMMARY:

- Distribution of 12 teams totaling roughly 110 volunteers have returned to the EOC and or left for the evening. This does not include personnel from the MSP and the GCSO.
- We are currently coordinating loading procedures for 16 trucks.
- 22 iPad have been turned back in, secured in the EOC and are charging for tomorrow's mission.
- It has been reported that the 10 ARC teams have returned and are clear.
- The ARC did not report residential contacts for the day.
- The numbers for this day's residential contacts for MSP/GCSO have yet to be determined.
- Working on deployment operations for tomorrow along with support vehicles and personnel.

SAFETY ASSESSMENT:

Local weather access shows 17 Degrees Fahrenheit with a wind chill of 0 degrees. The streets are icy in spots. The National Weather Service reports are being monitored.

NEXT ANTICIPATED SITREP PUBLISH TIME:

1000 HRS 01/19/2016 from Lt. Amy Dehner or Lt. Julin.

> > The address for the Flint Emergency Operations Center is 1105 Beach St. This is a county owned building. It is directly across the street from Flint City Hall and the EOC is located in the basement, or level "G" if you use the elevator. Once you exit the elevator, you will see an old cafeteria to the left. Walk past the cafeteria and the EOC is down the hall on the right. The door is labeled Emergency Operations Center. BJ Roach is the EMHSD coordinator for the incident. Her cell phone number is (517)819-0841. Please include Sgt. Keith Sparks at our post as to whom you will be sending. We are putting together paper squads for this response.

I'm sure after action reports are probably being done within the SEOC, but for what it is worth, a quick snapshot of today's day one operations may be beneficial for the higher planning to put more boots on the ground in Flint in the coming days, so here it goes:

Mission:
teams (40 DHHS employees), supported by , and , and (2) 24' UHaul trucks, conducted water filter delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

Recommend to Sustain on 1-13-16:

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck, 20 DHHS personnel, and , per street, and we covered 2 streets at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

Recommend to consider changing on 1-13-16:

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

Attachments: SITREP 1410.docx

Please see attached SITREP for State Security Officer operations in the Flint EOC.

Lt. Paul M. Pummill
Assistant Post Commander
Shiawassee Operations
Michigan State Police – Flint Post
G4481 Corunna Road
Flint, Michigan 48532
Office: (810) 732-1111

A PROUD tradition of SERVICE through EXCELLENCE, INTEGRITY, and COURTESY

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/12/16 at 1410 HRS

Prepared by Lt. Paul Pummill

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff

ACTIVITY SUMMARY:

- MSP/DHHS Distribution teams continue the water/filter dissemination.
- GIS maps have been printed and a target area of Precinct 43 (intersection of Dupont and Chevrolet) has been identified as the distribution operation. These maps have been pushed via email to troopers' in car mobile computers.
- City iPads have been delivered and are be tied into real-time system DHHS portal to track addresses where filters are delivered.

SAFETY ASSESSMENT:

The National Weather Service has issued a Winter Weather Advisory affecting Tuesday morning commutes.

Streets and major expressways in Flint remain ice covered, with freezing temperatures further complicating clearing operations and travel in the area. Most city streets have not yet been cleared, which could negatively impact distribution operations. National weather service reports are monitored hourly.

MSP RESOURCES REQUESTED THIS DATE/STATUS:

-NO ADDITIONAL RESOURCES REQUESTED AS OF THIS PUBLISH TIME

NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/12/2016:

Subject: Index/PCA for Sergeants/Troopers for Flint Water Emergency

Importance: High

Inspector Sipes:

Lt. Dehner spoke with me last night and instructed me to contact you reference an Index/PCA for sergeants and troopers who are working the Flint Water Emergency. She advised the Index 28900/PCA 28670 was to be used only for lieutenants and above. Please let know ASAP as we have early payroll and I have started entering time. Otherwise, I will have to enter it under regular overtime PCA 32910 for sergeants and 32920 for troopers. Thank you.

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/17/2016 1140 HRS

Prepared by Lt. Patrick Young

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Community Service Commission, Michigan Army National Guard

ACTIVITY SUMMARY:

- MSP/DHHS/GCSO/all other/ Distribution teams totaling roughly 160 are in operation. This includes team leaders. At present, we have sufficient trooper and deputy staffing to effectively run this operation. The expected hard numbers of volunteers will be passed down by the SEOC this evening. We have fielded teams with vehicles. Distribution operations are taking place on the South, East, and North ends of Flint per the latest distribution map provided by the SEOC.
- 22 iPad are in use today.
- Gas cards have been obtained to resolve local level re-fuel issues of distribution vehicles.
- It has been reported that 10 ARC teams were out at 9am.

SAFETY ASSESSMENT:

Local access shows 16 Degrees Fahrenheit with a light wind. The streets have icy spots in the distribution areas. National weather service reports are monitored hourly.

NEXT ANTICIPATED SITREP PUBLISH TIME:

1700 HRS 01/17/2016

MSP Flint City Water Detail

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

1/16/2016 1900 HRS

Prepared by Lt. Paul Pummill

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff, Genesee County Health Department, Michigan Public Service Commission, Michigan Army National Guard

ACTIVITY SUMMARY:

- MSP/DHHS/GCSO Distribution teams (*conducted in 1 -4* Wards
- 22 iPad are in use today. All returned.
- 10 vehicles loaded and ready for tomorrow distribution start.
- 62 Volunteers participated today. The expected volunteers for tomorrow 114. At present, we have sufficient trooper and deputies scheduled to meet these anticipated numbers.
- ARC teams distributed 1532 kits.
- Sgt. Sparks assessed the water storage location reference security.

SAFETY ASSESSMENT:

In the distribution areas there is light now and windy. The streets in the area have icy spots. National weather service reports are monitored hourly.

All,

Lt. Amy Dehner has been briefed and will be responding to the Genesee County EOC as soon as possible today.

I anticipate her phone call to Inspector Bolger shortly to close the loop. Amy will provide updates today and tomorrow.

Tom

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

BJ

This should really be a Flint PD responsibility per the Captain. Where is the DEQ person starting from? How long will this detail last? Is this a one-time thing or will this be an ongoing DEQ effort? These are important questions we want to know the answers to before a precedent is set.

We need to begin to shift this security responsibility to FPD. I would be willing to contact Tolbert in the morning to offer a trooper to handle calls for service if he can break a car away for this security issue.

Let me know.

Tom

Subject: FLINT WATER DETAIL MOBILIZATION

Third District Commanders

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

Current Duties:

- *EOC Safety Officer – Sgt.*

- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. *This includes Street Sgts.*
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - *Determine hours of operation based on assessment of area, hours of daylight, and any other safety* information pertinent to operations.
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

TROOPER MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) *who will be distributing water filters door to door tomorrow* in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment Troopers only

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)

Third District Commanders

As a heads up I ask you to review this information, make a phone call to F/Lt. Kish or Lt. Dehner, and make arraignments (You and/or a Sgt.) to visit the EOC – Flint. As this effort continues and possibly ramps up, you, your staff, and your troops will be called on for support. The request and direction for troopers will come as soon as we have information they will be needed, and will include details such as DCDS codes and reporting plans.

As a F/Lt. or Lt. you may be specifically assigned as the Water Response Team Commander for all team operations. To prepare, please make every effort to visit the EOC during operation hours 730am-9pm, and discuss duties with the on-site commander.

It is my plan to keep Lt. Dehner as a consistent presence / commander in the EOC, but you can be assigned to be part of that team. The following information is for your review and I will keep you advised as information is available.

Current Duties:

- EOC Safety Officer – Sgt.

- Water Response Team Commander for all team operations – F/Lt – Lt. and or assistant.
  - Coordinate and manage Water Response Team structure. This includes Street Sgts.
  - Coordinate and manage Water Response Team resources.
  - Coordinate walking routes with concentration in the most hazardous lead level areas.
  - Coordinate logistics for Water Response Teams.
  - Coordinate iPad distribution and tracking.
  - Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
  - Coordinate and manage team security with MSP and County personnel.
  - Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
  - Coordinate with Sheriff's department resources.
  - Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
  - Provide a daily report of all activities to include best practices and issues or concerns.

In addition there is a 9:30 am and 4:30 pm SEOC briefing via conference call as well as any other conference calls necessary to complete the above mission.

TROOPER MISSION:
Providing water filter escort/traffic control/security for 60+ MSP volunteers (broken into 3 distribution teams) who will be distributing water filters door to door tomorrow in the City of Flint. The majority of operations will be conducted from patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment Troopers only

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

To: MSP-EOC-MDSP; Kish, Thomas (MSP)
Subject: RE: Flint Water OIC for Friday 1/22

Clear on those responses –

Our ground and mapping personnel are asking if it is possible to have the NG assemble at the EOC, instead of the warehouse, tomorrow morning? Operationally, it is easier for our mapping personnel, the team leaders, and tech section, to stage the delivery trucks here in the morning, and push out from the EOC. We seem to run into last minute logistic issues that require iPad fixes, and/or map route re-draws, and it is more helpful to be able to address those issues here, rather than going to another facility where we can't have direct access to all of our personnel in the morning.

Also, if we anticipate going past Friday, we made need to have another request for personnel generated by the SEOC as our current plan is only projected through Friday the 22nd.

Subject: RE: Flint Water OIC for Friday 1/22

Answers are starred below

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.
**We will need to feed our personnel and Logistics can add meals to the Local EOC dinner plan. The guard is eating on the economy.

- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying ' 'his includes personnel that staff the mapping operations, which has been critical to our success to this point.
**We are discussing having the Guard shift be strictly 1300-2100 with ARC covering the normal day shift. If we switch to this model, we will need to provide staff for eams, 1300-2100. Day shift teams will continue for the Red Cross as current (no MSP or GCSD staff).

- Is the number of National Guard soldiers anticipated to be TOTAL for the day, or soldiers per shift? We have enough projected staffing through the Flint Post to support up to ' ;oldiers, (ı) working 12 hour shifts through Friday January 22nd. We don't have resources in place past that point. Anything past _ bodies will require that we seek staffing outside of Post resources.
** Beginning on Thursday, the Guard will be providing ılders for WRT detail and :ommand staff teams of 10.

- Will the data for residences that show as "no answer" be produced by the SEOC, prior to Thursday so that we have an opportunity to pre-plan distribution routes?
**I am submitting a MiCIMS resource request to GIS for this right now. The resource request number is SEOC – 8951057 Resource request is for the following:
Please prepare a GIS Map for Water Response Team use with the following layers:
Ward/Precinct
"Homes Visited" Resource delivered
Homes Visited, but "No Answer"

Julin is Mapes is

A couple of things worth mentioning for planning to move to a ;hift concept on Thursday:

- Will this require us to supply dinner to the volunteers/distribution teams? Currently, we are supplying only lunch.
- The GCSO advised that they are at minimum staffing with our current distribution model. If we push to delivery after 1700HRS, they CANNOT assist us outside of supplying marked units. This includes personnel that staff the mapping operations, which has been critical to our success to this point.
- Is the number of National Guard soldiers anticipated to be for the day, or .t? We have enough projected staffing through the Flint Post to support up to (1 marked unit per team) working 12 hour shifts through Friday January 22nd. We don't have resources in place past that point. Anything past bodies will require that we seek staffing outside of Post resources.

Okay.

We will adjust our schedule here.

Can I get contact #s for Julin and Mapes?

I have the following for Sims and Luty, please advise if they are incorrect:
Sims
Luty

Finally, FYSA: we are working on modifying the hours of operation starting on Thursday. Right now, we are considering a two shifts, the normal shift we have been running (0800-1700) and an afternoon shift of 1300-2100. Please advise if we will be able to support the guard for this shift. We still need to figure out the number of teams on each shift.

I'm open to suggestions.

Sir,

I spoke with LTC. Stemitz and his POD commander reference the below. On 1/21/16, there were 2 total incidents in which individuals threatened to bring members of their gangs back (one verbally identified his gang as the "Pierson" gang) at both the #8, and #6 fire stations, because they felt they weren't being given enough water. No weapons were displayed in these incidents, and nothing has occurred since that date that could be construed as a continuation of those events.

As a side note, we were made aware following our 6pm distribution conference call by a member of the National Guard that one of their soldiers was spit on earlier today by an unruly female citizen. MSP and GSCO law enforcement in the meeting reviewed the contact procedures with POD soldiers by which they can notify by both agencies via radio at the EOC for response should this happen again in the future.

I hope this helps to clarify the issue you outlined in the original email. Please let me know if you have further questions.

Subject: RE: GCVM Militia Rally - City of Flint, Flint City Hall,- Sunday January 24, 2016, 2 p.m.

Can we confirm the information on gangs and guns. I spoke with the NG at the PODs and they advised they have seen guns but when people are reaching for water and their shirts go up exposing a side arm. Are there other specific cases we need to be made aware? We are getting a different story on this. Thanks,

---

Good Afternoon,

MIOC Analyst Koko Bempong disseminated information earlier this afternoon indicating there have been problems with gang members at some of the fire stations distributing water in Flint. There are individuals coming to get water who are flashing gang signs and showing weapons they have on their persons. There is a potential for rival members from neighborhood gangs to come in contact with each other. With the current animosity toward law enforcement, the gang members could also have a negative view of the uniformed militia members. A copy of Koko's email is attached.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

Lt. Cronkright of the Genesee County Sheriff's Office (working in the EOC) advised that a member of the Michigan Militia (MM) showed up to volunteer a short time ago at the local EOC in Flint. He was provided information for the American Red Cross's Volunteer Reception Center, at which point he notified the Lieutenant that the MM was planning a peaceful March on Flint City Hall on Friday January 22, 2016, beginning at approximately 10am. He stated that he was expecting approximately 1,000 militia members, and that they had informed local public officials, however he was unsure if anyone had notified personnel in the local EOC.

Captain Kapp,

The Karegnondi Water Authority (KWA) is holding a public meeting on Wednesday, February 17, 2016 at 2 p.m. in the Lapeer County Council Chambers, 255 Clay Street, Lapeer, Michigan. The KWA notice indicates all citizens wishing to express opinions or make comments during the meeting are invited to attend. It appears there could be a large presence of Flint Citizens at the meeting.

This information is being shared for situational awareness.

Good Morning,

This is expected to be a peaceful show of support to collect water for the citizens of Flint.

I will continue to monitor this event for public safety and situational awareness. I will send an update if new information is posted in the event page. Please let me know if you have any questions.

Thanks,

Sue

I discussed with Matt Bolger and Mike Johnson and we are on the same page. The only thing that all need to be aware of is I anticipate ramping up the teams significantly as logistics can support. We will likely need to add a layer between the MSP WRT Commander and field commanders – that would probably be an ARC lead, A State Agency lead, Other volunteer lead, and a County lead so the WRT commander has good span of control. I am thinking we could get to the point where we have teams (best case scenario).

The WRT commander can figure that out but I am good with this - MSP needs to coordinate all the teams sir.

Subject: MSP Resource Request - Flint Water Response Teams

Capt. Kapp,

Per our discussion, the SEOC has requested MSP FSB coordinate and manage the Flint Water Response Teams for the City of Flint-Water Contamination / Shortage incident. The POC at the EOC is Ms. Michelle Kuzera, she will be able to assist with any questions or concerns. MSP FSB will be responsible for the following:

- Establish a Water Response Team Commander for all team operations.
- Coordinate and manage Water Response Team structure.
- Coordinate and manage Water Response Team resources.
- Coordinate walking routes with concentration in the most hazardous lead level areas.
- Coordinate logistics for Water Response Teams.
- Coordinate iPad distribution and tracking.
- Coordinate and integrate with state, county, and local personnel as well as volunteers assigned to work on Water Response Teams.
- Coordinate and manage team security with MSP and County personnel.
- Determine hours of operation based on assessment of area, hours of daylight, and any other safety information pertinent to operations.
- Coordinate with Sheriff's department resources.
- Staff each team with the appropriate number of MSP enlisted personnel for security purposes.
- Provide a daily report of all activities to include best practices and issues or concerns.
- Attend the 9:30 am and 4:30 pm SEOC briefings via conference call as well as any other conference calls necessary to complete the above mission.

In addition to the above Water Response Team objectives MSP FSB is still responsible for all previously assigned tasks and functions.

Please feel free to contact me if you have any questions regarding this assignment. Please forward the contact information of the commander you have identified for this mission as well as a schedule for staffing this position once it has been assigned and established.

Inspector,

With the (proposed)deployment schedule moving to an afternoon shift, this will have significant impacts upon trooper availability for the water emergency from our post. Is this a necessary change? Is it possible to spot check residences on an "as needed" basis on an afternoon shift? We could probably make that accommodation. At this point, I'm not sure that completely changing the schedule that has been so effective up to this point is really necessary.

> >
> > Mission:
> > teams (employees), supported by and (2) 24' UHaul trucks, conducted water delivery operations within the 43rd precinct, beginning at apx 1030 HRS, and ending at 1700 HRS today. The target for today was 150 houses, however final data was not available at the time of publish.

Recommend to Sustain on 1-13-16:

-- Continued use of UHaul type trucks. They are low to the ground, easy to load and more important, to off-load. Easily maneuvered on city streets, especially given poor road conditions, and parked/disabled vehicles on city side streets. DTMB trucks are at a height that makes accessing cargo difficult, and puts volunteers at risk of injury clearing the 5' high box entry.

--iPads and in car mobile terminals. (8) iPads supplied by the City and used by DHHS, made real time data uploads possible and gave a more accurate depiction of ground operations. The ability to push GIS mapping material to troopers vehicles via email facilitated their abilities to make on the ground changes with routes, without having to coordinate through the EOC directly.

--Coordinated efforts with Deputies. A GCSO Lt and Captain on the ground and in the EOC were integral in helping us quickly put together a delivery system that was efficient, and allowed us to skip past obstacles they had already encountered in their previous day's work. In addition, it was GCSO that secured the UHaul trucks for us to use.

--Maintaining a large, central distribution point. This makes it easy to get trucks, vehicles, and supplies in and out very quickly.

As a side note, the delivery model used today was 1 UHaul truck. DHHS personnel, and ; per street, and we covered at a time. DHHS doubled up going door to door (this was an internal decision made by them). If we were using only law enforcement, we could reduce this number to 10 volunteers per truck, but lower than that would slow down progress, more than 20 would just result in people getting in each other's way, and would make transporting them difficult, not to mention clogging up the street with transport vehicles (which happened today). We used the Sheriff's bus to move volunteers instead of their SUVs because the number of vehicles ended up creating congestion issues on the streets we were delivering on.

Recommend to consider changing on 1-13-16:

--Use of DTMB box trucks (see above). Securing more UHaul type trucks would speed up loading and off-loading.

--We can sustain meals from the EOC for the 60 personnel involved today. More than that is going to require an outside source.

--Using less vehicles to transport volunteers. We used the GCSO bus today, and can continue that until Sunday, however a central transportation unit seems to work best at this point, not individual SUVs for each 4 person team.

Subject: Revised: Volunteers needed for water resource teams in Flint

Note: Dates are January 14 and January 15.

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Teams are being assembled for shifts on Thursday, January 14 and Friday, January 15. Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1 p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location, as there are resources being utilized outside that of the Flint Post. Below is operational assembly information that is critical for you to read as this is very short notice:

MISSION:
Providing water filter escort/traffic control/security for 120 MSP and DHHS volunteers (broken into 10 distribution teams) who will be distributing water and filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)

Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

NOTABLE EQUIPMENT REQUIREMENTS:

High visibility vest (in vehicle)
Garrison cap and/or department issued cold weather headgear

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

GROUND OPERATION OIC(s):
Tpr. Rick Jones -

EOC COMMANDERS FOR FRIDAY JANUARY 14, 2016:
Lt. Amy Dehner
(Relief Officer) Lt. Pat Young !
F/Lt. Tom Kish

OTHER INFORMATION:
This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

If there are any questions about this assignment, please contact any of the above EOC Commanders for Friday, January 14, 2016.

Subject: RE: Troopers for water delivery in Flint

All,

We need to sustain (and slightly add) to our current trooper strength now through Sunday 1/24. Some end-game discussions have already begun. I am requesting the continued use of troopers from Lapeer , Tri-City and Caro). You'll see that I am asking for one additional from Lapeer and Tri-City to support the expected National Guard soldiers arriving. Again, our mission is one of security to the water team deliveries. The hours have changed and will be 1000-1800 each day. Reporting location remains the same at the EOC in Genesee County.

Thank you for your contributions to this critical MSP effort. Call myself or Lt. Dehner with questions.

Genesee County EOC – MSP State Security Officer SITREP

DATE/TIME:

01/13/16 at 1300 HRS

Prepared by F/Lt. Thomas Kish, Flint Post

AGENCIES PRESENT:

MSP EMHSD/ Flint Post Personnel, DEQ, American Red Cross, Genesee County local emergency manager, Genesee County Sheriff

ACTIVITY SUMMARY:

- Distributions into hotspot #2 are accelerating ahead of schedule as we gain efficiency
- National Guard water distributions are ongoing and proceed with no incidents reported
- Currently water supply is considered adequate, with filter inventory low. Additional filters expected by 1330 HRS today.
- Ongoing discussion about how many additional volunteers may be needed. The availability of an additional 75 civilian and uniformed may be unnecessary for Thursday and Friday. Additional information to follow as supply chain and logistical issues continue to be worked out.

SAFETY ASSESSMENT:

Streets and major expressways in Flint remain ice covered and slippery. City streets are more easily navigated today. National weather service reports are monitored hourly. Temperatures inspected to rise this afternoon.

MSP RESOURCES REQUESTED THIS DATE/STATUS:

-NO ADDITIONAL RESOURCES REQUESTED AS OF THIS PUBLISH TIME

NEXT SITREP PUBLISH TIME / SECURITY OFFICER for 01/12/2016:

1600 Sgt. Keith Sparks, Flint Post

Beckner, Jessina (MSP)

Subject: Trooper Staffing for Flint Water Emergency Situation

Importance: High

Commanders;

Ref the state of emergency response to the Flint water crisis – additional MSP resources are being requested. Currently the Flint Post is supplying a squad of troopers for security and traffic control for the water/filter distribution trucks that have been deployed in the neighborhood.

Effective Saturday, January 16th and continuing through Friday January 22- additional Third District troopers will be utilized to supplement the Flint post for this operation.

I am requesting . each from Lapeer, Caro and Tri-City to augment a squad from Flint consisting of Sgt and

The time frame of this request is January 16th and tentatively through January 22. (may end sooner or may go longer)

This will require a 7:30am arrival at the Flint operations center and curtail around 5p on the above listed dates.

Lt. Amy Dehner is the POC for this project and she can be reached at cell She can provide you with further reporting details and requirements of this assignment.

Note: Please staff with ON-DUTY personnel. If overtime is needed for staffing or end of shift hold overs, this will come from YOUR POST overtime line – with reimbursement down the road (hopefully!)- so do your best to staff with personnel working already.

SCP (Flint and Saginaw) overtime CAN NOT BE USED for this operation.

Lt. Dehner has PCA/INDEX for tracking purpose (not overtime) of those assigned – she can provide you with further on time accounting.

By noon on Thursday, January 14, please send the name of your assigned trooper to Lt. Dehner with a cc to me.

Thanks.

Steve

All,

In continuing State of Emergency water filter distribution operations in the City of Flint, you have been tasked to support security operations tomorrow for MSP volunteers, Thursday January 14, 2016. Please ensure those under your command have been notified about their report time and location, as there are resources being utilized outside that of the Flint Post. Below is operational assembly information that is critical for you to read as this is very short notice:

MISSION:
Providing water filter escort/traffic control/security for 120 MSP and DHHS volunteers (broken into 10 distribution teams) who will be distributing water and filters door to door tomorrow in the City of Flint. The majority of your operations will be conducted from your patrol car, on city streets. This mission is being sustained in coordinated support with deputies from the Genesee County Sheriff's Office, who are also supplying marked patrol units.

TIME:
0730 HRS Briefing
1700 HRS Release to home post assignment

LOCATION:
Genesee County Administration Building (Directly across from Flint City Hall)
Emergency Operations Center (EOC)
1105 Beach Street
Basement Level

PARKING:
Parking is available on Saginaw Street directly in front of the county building (east side), or in the adjacent church parking lot on Beach Street

NOTABLE EQUIPMENT REQUIREMENTS:

High visibility vest (in vehicle)
Garrison cap and/or department issued cold weather headgear

RADIO CHANNELS:

MEALS:
Lunch will be provided at noon at the EOC

GROUND OPERATION OIC(s):
Tpr. Rick Jones -

EOC COMMANDERS FOR FRIDAY JANUARY 14, 2016:
Lt. Amy Dehner
(Relief Officer) Lt. Pat Young
F/Lt. Tom Kish .

OTHER INFORMATION:
This is a high-visibility event for the public and media as well. Please expect members of Executive Council to attend and participate, and/or possibly want to ride along with you in your patrol car.

If there are any questions about this assignment, please contact any of the above EOC Commanders for Friday, January 14, 2016.

Lt. Amy Dehner
Assistant Post Commander
Michigan State Police - Flint Post
G-4481 Corunna Road
Flint, MI 48532
Phone: (810) 732-1111

Subject: Troopers for water delivery in Flint

Commanders,

I'm trying to gauge our ability to increase trooper strength by another This is already in addition to the troopers you are supplying now.

How many additional off duty troopers could you muster for 12 hour shifts in Flint? Pass along what you think you might realistically be able to send - starting Wednesday morning.

NOT PUBLIC KNOWLEDGE.

Send me a response by noon tomorrow

Subject: Volunteer Opportunity in Flint

The State Emergency Operations Center (SEOC) is coordinating a response to the ongoing health and safety issues in the city of Flint's drinking water. Teams from the Michigan State Police, Genesee County Sheriff's Department, Michigan Department of Health and Human Services, and volunteer organizations have been delivering bottled water, water filters, replacement cartridges and water testing kits at homes in the city of Flint since Tuesday.

To help with this critical work, the SEOC is looking for volunteers to expand this effort and continue this distribution during the upcoming holiday weekend. Teams are being assembled for shifts on Saturday, January 16; Sunday, January 17; and Monday, January 18, 2016. If you are interested in volunteering your time for this critical work, please complete the information in one of the attached surveys (depending on which day you are volunteering).

To volunteer on Saturday, January 16, https://www.surveymonkey.com/r/28NVJBL

To volunteer on Sunday, January 17, https://www.surveymonkey.com/r/26NMJKK

To volunteer on Monday, January 18, https://www.surveymonkey.com/r/26P7P5G

Volunteers will begin their assignment at the Local Emergency Operations Center located in the Genesee County Administration Building located at 1101 Beach St, Flint at 9 a.m. and end by 4 p.m. Parking is available at the corner of Beach Street and 8th Street. Lunch will be provided. This is strictly a volunteer effort, as all three days will be unpaid. Volunteers are responsible for their own transportation; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

This opportunity is for state employees and their immediate family members 16 years of age or older only, others looking to assist should volunteer through the American Red Cross in Flint. The volunteer coordination center for the Red Cross is located at 1401 S. Grand Traverse, Flint, MI. They are open from 9 a.m. to 7 p.m.

For more information on the state's response efforts, visit www.michigan.gov/flintwater.

Subject: Volunteers needed for water resource teams in Flint

The department is soliciting volunteers from within the department, both enlisted and civilian, to join water resource teams working to hand out bottled water, water filters, replacement cartridges, and water testing kits at homes in the city of Flint. This effort is part of the state's response to the ongoing health and safety issues caused by lead in the city of Flint's drinking water.

Volunteers will begin their assignment in Flint at 9 a.m. and end by 4 p.m. Volunteers can be available for one or both days. Lunch will be provided.

Employees chosen for this assignment are considered to be working on-duty; this assignment would be considered their scheduled work day. Overtime or compensatory time is not authorized for this assignment.

Transportation will be provided using state vehicles; mileage reimbursement for personal vehicles is not authorized. Volunteers should dress for working outdoors and wear foot attire appropriate for walking.

Interested employees should obtain the approval of their supervisor. **Supervisors must forward the names of approved volunteers and their email addresses through the chain of command to bureau with the date(s) available by 1p.m. tomorrow, Wednesday, January 13.**

Confirmation of selected employees, along with additional logistical details, will be made via email by 5 p.m. on Wednesday, January 13.

For questions, please contact Insp. Scott Marier at 517-373-7761.

Water Response Team: Concept of Operations and Support

Mission: Distribute filters and additional resources to all households within the impacted area

Concept of Operations and Support

1. Planning & Prioritization
    a. Plan Components
        i. Team Type: Mission, Resources (example: Vehicles, Team Members, Product)
        ii. Priority: Priority locations for distribution within the impact area
            1. Priority locations are determined based on 3 projections: lead concentration, locations of vulnerable populations, and previous distribution locations
    b. Accountable: SEOC Recovery Branch Director
    c. Approval: State EM Director
2. Resource Support
    a. Resource Components
        i. Vehicles
        ii. Product
        iii. Personnel
        iv. Team Support (example: lunch, rain ponchos)
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Logistics, SEOC Warehouse, American Red Cross Volunteer Resource Center
3. Execution
    a. Water Resource Team Daily Distribution
    b. Accountable: Genesee County Sheriff Office (GCSO)/Michigan State Police (MSP)
    c. Responsible: Water Response Team Officer In Charge (OIC), American Red Cross OIC
4. Execution Support
    a. Team Replenishment
    b. Accountable: SEOC Logistics Section Chief
    c. Responsible: SEOC Warehouse
5. Reporting
    a. Distribution Reporting
    b. Accountable: Water Response Team OIC
    c. Responsible: All Water Response Teams

Flint Water Response Team Plan
Sunday, 02.14.16 Final

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Diane Fodness		Diane.fodness@redcross.org

Plan

Agency	Team Types	Mission
ARC	6 Type V	800 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity: 6** (6 ERV + 6 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	6	6		2/14/16	8:00 am
ARC ERV	6	6		2/14/16	8:00 am
ARC ERV Driver	6	6		2/14/16	8:00 am
Team Member	15-20	15-20		2/14/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	6	6		2/14/16	8:00 am
Team Transport Vehicle Driver	6	6		2/14/16	8:00 am
iPads	6	6		2/14/16	8:00 am
Hand Warmers	50	50		2/14/16	8:00 am
Distribution Kit	800	800		2/14/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas

Team Priority – Visit (83) City of Flint Addresses that receive City Water and continue to classify as a No Contact. List of addresses sorted by Map Section and corresponding Maps are attached.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC. It is likely the iPads will not be used due to the extreme cold temperatures.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC. It is likely the iPads will not be used due to the extreme cold temperatures.

Transition:

Purpose: Plan for the transition of Local Emergency Operations Center (EOC) Operations, Logistics, and Planning Section Chiefs. The county Emergency Management Coordinator will assume the responsibility of staffing the three section chief positions through either mutual aid or county employees.

Transition Timeline: County officials should have personnel lined up to begin the transition on *(possibly Wednesday, February 17, 2016).* The incoming members will have three days to assume control and absorb all job duties. State staff will be off-site close of business *(possibly Friday, February 19, 2016).*

Execution: Incoming Operations, Logistics, and Planning Section Chiefs would be under the command of the Incident Commander.

Operational Period: Local EOC hours are dictated by the operational hours of the points of distributions (PODs). The Incident Commander will adjust the EOC hours as deemed appropriate. The incident commander will also dictate what the length of the operational period.

Positions: A minimum of three people are needed to staff the Logistics, Operations, and Planning Section Chiefs in the EOC. County government has already assigned a Sheriff's office Deputy to the Joint Information Center (JIC). Job training will be given during the transition period.

- *Local resources have identified two sheriff department employees that can be utilized for the response. One has already been assigned to the JIC. The second is yet to be assigned and duties are yet to be assigned. These positions are only available Monday to Friday, 8:00am to 5:00pm. Additional personnel will be needed beyond these pre-identified or existing personnel.*

Job Functions:

- Planning:
  - Complete all forms necessary to complete an Incident Action Plan (IAP) for each operational period.
  - Complete a daily situation report to account for the activities of the day.
  - Coordinate the proper allocation of resources provided through the Logistics Section.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation till the completion of the daily situation report.
- Logistics:
  - Complete and submit Rapid Response requests to the warehouse to be filled.
  - Assist in the securing and mobilization of resources for operations.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation and is completed at the end of the hours of operation or as the call volume stops and all daily tasks are completed.

- Operations:
    - Work with the Incident Commander on tactical mission assignments for teams canvasing the area.
    - This position functions at the beginning of the hours of operation till the end of the operational period.

Transition:

Purpose: Plan for the transition of Local Emergency Operations Center (EOC) Operations, Logistics, and Planning Section Chiefs. The county Emergency Management Coordinator will assume the responsibility of staffing the three section chief positions through either mutual aid or county employees.

Transition Timeline: County officials should have personnel lined up to begin the transition on Wednesday, February 17, 2016. The incoming members will have three days to assume control and absorb all job duties. State staff will be off-site close of business Friday, February 19, 2016.

Execution: Incoming Operations, Logistics, and Planning Section Chiefs would be under the command of the Incident Commander.

Operational Period: Local EOC hours are dictated by the operational hours of the points of distributions (PODs). The Incident Commander will adjust the EOC hours as deemed appropriate. The incident commander will also dictate what the length of the operational period.

Positions: A minimum of three people are needed to staff the Logistics, Operations, and Planning Section Chiefs in the EOC. County government has already assigned a Sheriff's office Deputy to the Joint Information Center (JIC). Job training will be given during the transition period.

- *Local resources have identified two sheriff department employees that can be utilized for the response. One has already been assigned to the JIC. The second is yet to be assigned and duties are yet to be assigned. These positions are only available Monday to Friday, 8:00am to 5:00pm. Additional personnel will be needed beyond these pre-identified or existing personnel.*

Job Functions:

- Planning:
  - Complete all forms necessary to complete an Incident Action Plan (IAP) for each operational period.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation till the completion of the daily situation report.
- Logistics:
  - Complete and submit Rapid Response requests to the warehouse to be filled.
  - Assist in the securing and mobilization of resources for operations.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation and is completed at the end of the hours of operation or as the call volume stops and all daily tasks are completed.

- Operations:
    - Work with the Incident Commander on tactical mission assignments for teams canvasing the area.
    - This position functions at the beginning of the hours of operation till the end of the operational period.

Flint Water Response Team Plan
Saturday, 02.13.16

Key

WRT	Water Response Team
OIC	Officer In Charge
ARC	American Red Cross
HH	Household
LEOC	Local Emergency Operations Center

Key Leaders

ARC OIC	Diane Fodness		Diane.fodness@redcross.org

Plan

Agency	Team Types	Mission
ARC	16 Type V	1600 HH

Resource Status

ARC

Team Type & Quantity	**Type:** Type V **Quantity: 16** (8 ERV + 8 Trucks)				
Resource	**Required**	**Confirmed**	**Notes**	**Date**	**Time**
Team Leader	8	8		2/13/16	8:00 am
ARC ERV	8	16		2/13/16	8:00 am
ARC ERV Driver	8	8		2/13/16	8:00 am
Team Member	20-32	20-32		2/13/16	8:00 am
Team Transport Vehicle for 2-4 Team Members	8	8		2/13/16	8:00 am
Team Transport Vehicle Driver	8	8		2/13/16	8:00 am
iPads	8	8		2/13/16	8:00 am
Hand Warmers	80	80		2/13/16	8:00 am
Distribution Kit	1600	1600		2/13/16	8:00 am

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas
Team Priority – Water deliveries.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

ADULT EXPOSURE TO LEAD
FACT SHEET

Where can adults be exposed to lead?

More than 80 percent of exposure to lead among adults is from work. The most common work exposures in Michigan are removal of lead paint, manufacture of brass and bronze fixtures, recycling of lead batteries, and as an instructor or doing maintenance in a firing range.

Adults can also be exposed to lead in tap water from water pipes, and renovation of homes built before 1978 with paint containing lead. The lead found in tap water in homes around Michigan would be from pipes installed before 1986.

- Lead is a heavy metal. The largest use for lead is in storage batteries in cars and other vehicles.
- Brass and bronze used in plumbing faucets may be about 10 percent lead. Lead is commonly used to make bullets.
- Historically, lead compounds were widely used as a pigment in paints, dyes, and ceramic glazes and in caulk, pipes and solder.

Should adults be concerned about exposure to lead?

Adults are at less risk of developing health effects from lead taken by mouth than children. Adult bodies tend to absorb less lead than children's bodies (smaller amounts of lead that is swallowed end up in adult's blood than would end up in children's blood). Adult's bodies remove almost all of the lead that is swallowed, while children's bodies only remove about a third of the lead amount they swallow.

However, health effects could still occur in adults who have had years of exposure. Exposure to lead can contribute to adult health effects such as:

- Essential tremor of their hands[1]
- Small increases in blood pressure, especially in middle-aged or older people[1,2]
- Decreased kidney function[1]
- Changes in sperm and possible difficulty becoming pregnant[1]

People exposed to higher levels of lead, like those measured during occupational exposures, could have other health effects, such as muscle weakness, irritability, difficulty sleeping, inability to concentrate, nerve damage in hands and feet, and anemia[2].

People with health effects should speak to their medical providers. Many of the listed health effects can be caused by things other than lead. If they are from lead, they would more likely be associated with exposure to lead over many years that occurred when the adult was younger.

Should adults get tested for lead?

People concerned about their exposure should speak with their healthcare provider about blood lead testing. If you don't have a primary care doctor, visit the Genesee County Health Department, South McCree Building at 630 S. Saginaw St. Suite 4 in Flint for blood testing and to be enrolled in health insurance.

LEAD IN FLINT WATER

GENERAL INFORMATION

- The amount of lead found in some Flint homes' drinking water could affect kids' health.
  - Even small amounts of lead can harm kids' health because they are still growing.
  - Adults are less likely to be harmed by the levels found in the water.
- Filter your drinking water using a National Sanitation Foundation (NSF)-approved filter.
  - You can receive a free a NSF-approved filter if you use City of Flint water.
  - Call 2-1-1 to find out where you can pick up a free water filter.
- Some filters can remove up to 99 percent of the lead in water when used properly. To be sure your filter is removing as much lead as it can, carefully follow the instructions that came with it.
  - Run only cold water through the filter.
  - Change the filter cartridge as often as the instructions say.
- Even after changes to the water system, it may take a while before lead levels in your home's water drop.
- Lead is hard to avoid completely. It can be found in water pipes and brass water faucets, old paint, in dirt, at some job sites, and in metal used for some hobbies.

There are a number of steps you can take to keep yourself and your family healthy. Use the tips below to learn more about how to stay healthy:

LEAD IN WATER

Although your water may be a different color sometimes, it is not caused by lead. It's important to remember:

- You can't see, smell, or taste lead in water.
- Lead won't change the color of your water.
- The only way to know what your home's lead levels are is by having your water tested.

LEAD IN BLOOD

- If your children live in Flint or go to school or childcare in the City of Flint, their blood-lead level should be tested.
- You should contact your doctor about testing.
- Testing is available for free at the Genesee County Health Department. Call 2-1-1 if you need help getting there.
- If you are pregnant or nursing, and you have tested negative for high blood-lead levels, it is safe to breastfeed.
- If you are pregnant or nursing and have tested positive for high blood-lead levels, talk to your doctor about the safety of breastfeeding.

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

WATER FILTERS

- Get your water tested. It's free. Call 2-1-1.
- Use a water filter. Call 2-1-1 for a free filter.
- If you do not have a water filter, use bottled water for drinking and mixing formula.
- Use cold, filtered water for cooking.
- Wash fruits and vegetables with filtered water.
- If you must use unfiltered water, run the water for at least five minutes before you use it. To save time and water in the future, it's a good idea to fill up as many containers as you can once you've run your water for five minutes.

CLEANING

- Wash dishes, bottles and toys with unfiltered soapy water and dry before use.
- It is safe to use unfiltered tap water to mop floors and wipe down countertops.
- It is safe to wash clothes in your washer and dryer.
- Use door mats. Take your shoes off when indoors.
- Vacuuming carpets may pull more lead dust to the surface. Use a non-motorized sweeper to clean carpets.
- Clean windowsills and play areas often with paper towels and soapy water.

FLINT RESPONSE TEAM www.michigan.gov/flintwater

TIPS TO KEEP YOUR HOME SAFE FROM LEAD

IN THE BATHROOM

- Use filtered tap water to brush your kids' teeth.
- Adults can use unfiltered tap water to brush their teeth.
- You can use unfiltered tap water to shower or bathe, but don't let kids drink the water when they play in the tub.
- Studies done by the Centers for Disease Control and Prevention show that parents can continue bathing their children in the tub but bath time should be used for bathing only, rather than allowing children to play in the water for a long time.
- Lead will not cause rashes or other skin problems. However, if levels of chlorine or other cleaners are high in the water, it may cause itchy or dry skin (similar to what can happen when you swim in a pool).

CARING FOR PETS

- Use filtered tap water for your family pets' water bowls.
- You can use unfiltered tap water to bathe your pets.
- If you notice your pet acting differently than normal, contact your vet.

HEALTHY DIET

- Eat foods high in iron, calcium and vitamin C.
- Wash hands with soap and warm water before eating.
- If you need fresh and healthy food, call the WIC office at 810-237-4537, or for SNAP food assistance apply at www.michigan.gov/mibridges or visit your local Michigan Department of Health and Human Services office.

GOOD SOURCES OF IRON INCLUDE:

- Lean red meats, fish, and chicken
- Cereals with added iron
- Dried fruits (raisins, prunes)

GOOD SOURCES OF CALCIUM INCLUDE:

- Milk
- Yogurt
- Cheese
- Green leafy vegetables (spinach, kale, collard greens)

GOOD SOURCES OF VITAMIN C INCLUDE:

- Oranges, orange juice
- Grapefruit, grapefruit juice
- Tomatoes, tomato juice
- Green peppers

LEAD INFO

The Flint water response team is focused on the lead in water crisis. In additon to water, scientists have long been concerned about all sources of lead including lead paint, dust, soil, etc.

LEAD PAINT

- Homes built before 1978 likely have lead paint, both inside and outside.
- Old paint is the most common way that kids are exposed to lead.

DIRT

- If you live in the city, there may be lead in the dirt outside your home.
- Before 1996, gas and the exhaust from cars contained lead. More lead will be found in dirt in busy traffic areas.

DUST

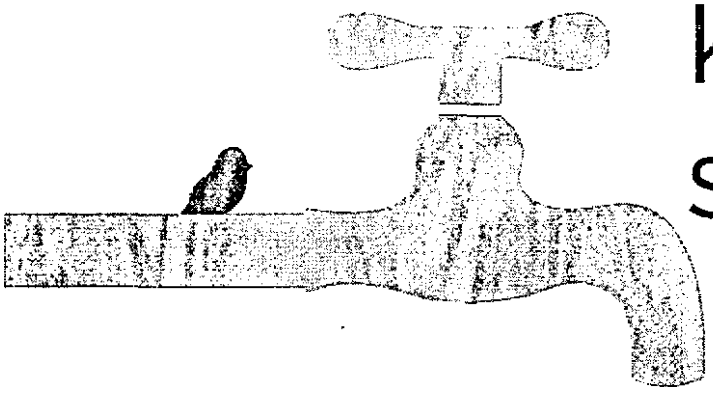
- The dust in your home can have tiny amounts of lead from paint and dirt.

HOBBIES AND JOBS

- Solder, fishing sinkers, bullets, and stained glass framing materials are some items that may contain lead. You could also track home lead dust from your job site.

HAVE QUESTIONS?

- For more information about protecting yourself and your family from lead, visit www.michigan.gov/flintwater.
- To find out where you can get a free water filter, call 2-1-1.
- For a free water test, call 2-1-1.
- For more information about lead in your home and what you can do, call the Michigan Department of Health and Human Services at 1-800-648-6942.
- For information on how to help, visit www.helpforflint.com.



Keep your pet safe from lead

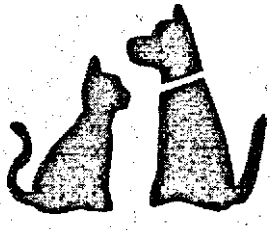
Lead poisoning is a potentially serious condition that calls for veterinary attention.

Things to watch for:

- Vomiting
- Seizures
- Behaviorial changes
- Sleepiness/ fatigue
- Poor appetite
- Weakness
- Extreme anxiety
- Diarrhea
- Blindness
- Belly/stomach ache
- Crying

These changes may develop over time. If animals display any of these signs, please seek veterinary care.

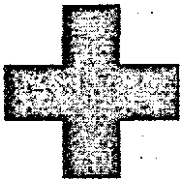
Causes:



Animals can come into contact with lead in a variety of ways:

- Drinking water
- Using improperly glazed ceramic food or water bowls
- Eating or licking paint chips
- Eating lead, like bullets, sinkers and golf balls

Diagnosis and Treatment:



Lead poisoning could be a serious condition.

If you suspect your pet has been exposed to lead, contact a veterinarian to talk about testing and treatment.

Pet safety tips for dealing with water that has lead in it:

- Give your pet bottled or filtered water to drink
- Use bottled or filtered water when making your pet's food
- Keep the toilet seat down! Do not allow pets to drink out of an unflitered water source
- Remember, this applies to all types of animals

Toxicities are reportable to the State Veterinarian's Office. Any veterinarian that suspects or has confirmed a case of toxicity, is to report the case to the Michigan Department of Agriculture and Rural Development by calling 1-800-292-3939.

Transition:

Purpose: Plan for the transition of Local Emergency Operations Center (EOC) Operations, Logistics, and Planning Section Chiefs. The county Emergency Management Coordinator will assume the responsibility of staffing the three section chief positions through either mutual aid or county employees.

Transition Timeline: County officials should have personnel lined up to begin the transition on Wednesday, February 17, 2016. The incoming members will have three days to assume control and absorb all job duties. State staff will be off-site close of business Friday, February 19, 2016.

Execution: Incoming Operations, Logistics, and Planning Section Chiefs would be under the command of the Incident Commander.

Operational Period: Local EOC hours are dictated by the operational hours of the points of distributions (PODs). The Incident Commander will adjust the EOC hours as deemed appropriate. The incident commander will also dictate what the length of the operational period.

Positions: A minimum of three people are needed to staff the Logistics, Operations, and Planning Section Chiefs in the EOC. County government has already assigned a Sheriff's office Deputy to the Joint Information Center (JIC). Job training will be given during the transition period.

- *Local resources have identified two sheriff department employees that can be utilized for the response. One has already been assigned to the JIC. The second is yet to be assigned and duties are yet to be assigned. These positions are only available Monday to Friday, 8:00am to 5:00pm. Additional personnel will be needed beyond these pre-identified or existing personnel.*

Job Functions:

- Planning:
  - Complete all forms necessary to complete an Incident Action Plan (IAP) for each operational period.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation till the completion of the daily situation report.
- Logistics:
  - Complete and submit Rapid Response requests to the warehouse to be filled.
  - Assist in the securing and mobilization of resources for operations.
  - Specific instructions for special projects are available.
  - This position functions at the beginning of the hours of operation and is completed at the end of the hours of operation or as the call volume stops and all daily tasks are completed.

- Operations:
  - Work with the Incident Commander on tactical mission assignments for teams canvasing the area.
  - This position functions at the beginning of the hours of operation till the end of the operational period.

Execution:

Key Locations

ARC	ARC 1401 S Grand Traverse St, Flint	0730-1600
Warehouse	4315 North Clio Road, Flint	0700-1900

Team Assignment – Target Areas
Team Priority – Water deliveries.

Sample Script for Team Members:

We're here to make sure you have all the resources you need. We have bottled water, a faucet and replacement filter, and a water test kit. Your water sample will assist in monitoring the lead and copper in the water system. Make sure to submit the water sample. The instructions are included here with the bottle, but make sure to submit within 14 days. If you need assistance or have other questions, you can call 211.

Execution Support:

Product Replenishment Process:

Team	Replenishment Trigger	Replenishment Location	Process
ARC	0 Distribution Kits Remaining	Clio Warehouse	Replenish ERV at warehouse

Warehouse

Tactics:

1. Load a minimum of 2 trucks in preparation for replenishment requests with product loads corresponding to Team Typing Matrix.

Lunch

Lunch will be provided by the ARC.

Reporting:

Tactics:

1. All WRTs will utilize iPads as the primary reporting method and the WRT Distribution Tracking Tool as a secondary method if iPads fail, unless specifically directed otherwise by the SEOC.
2. For apartment complexes, use the paper forms to record the contacts you make with residents. For reporting purposes, please report the names of the complex and the number of units per complex that the teams made contact with to the SEOC.

TAKING ACTION ON FLINT WATER
www.mi.gov/FlintWater

Schupan recycling
Problem solved.

Recycle.

Do The Right Thing!®

In just three easy steps, you can help keep Flint green by recycling your used water bottles!

Fire Station 1:
310 E 5th St
Flint, MI 48502

Fire Station 5:
3402 Western Rd
Flint, MI 48506

Fire Station 8:
202 E Atherton Rd
Flint, MI 48507

HOW TO RECYCLE

1. When you receive your case of water, you will receive a recyclable bag.
2. Fill the bag with your empty water bottles (cap on).
3. Return the bag when you pick up your next case of water.

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.

It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.

It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.

Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach . The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

I did receive a call from our contact at Church Hub St. Marks on Dupont. She was waiting for their weekly delivery of water. We need to communicate to the churches that the interim policy/procedure is for them to call and order water when needed.

Request for Water
At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Until Tom Weber and his team puts into place the long term Church distribution plan,,, we need to get this out to the Churches as a reminder. I will forward the plan to Pastors Ellison, Harris, and Overton for them to disseminate.

Importance: High

BJ and Jay,

Please see the email chain below. Basically, we were going to put the SBA in the Kroger store, but they have indicated they would rather be in a location where other organizations are providing assistance. Capt mentioned maybe City Hall and asked that you please work to identify a space locally that works best for all. They want to be here on Wednesday so we have to move fast. It's only for 3 people and attached are the specs of what they would need as well as the email indicating exactly what's needed. They said they could downgrade if need be. Please reach out to them ASAP. Thanks.

Subject: RE: BRC

Wendy...thanks for the information.

After speaking with senior field staff here, we had hoped that we could be placed in the location where other organizations are providing assistance to disaster survivors. The SBA's economic injury loan program is for businesses and if SBA is in an isolated location, we are less likely to be able to meet with businesses that have needs that our program may be able to address. We can modify our requirements so that the amount of space we need is minimal, say two tables to set up our computers. Also we have concerns that it would be difficult for us to be in a facility that has the outer door locked as the public we are trying to reach would not be able to gain entry.

If there is not space in the established facility with other agencies, would you mind if I contacted the City of Flint to see if there was another location which we could utilize. We have set up our field office operations in libraries, senior centers, fire stations and emergency management offices. We will only be on site for about two weeks and so being in a facility that businesses generally visit would be very helpful in providing information about our program. So while I appreciate the Kroger location, I am not sure it would allow us the greatest likelihood of providing service to our customers, the businesses in the Flint area that have sustained losses due to the water problem.

Please let me know at your earliest convenience...thanks...bob

Hi Bob,

Thanks again for chatting with me. As promised, the location for the old Kroger store, which we call Warehouse #2, is 2629 Pierson Road.

Americas Best Inn, 810-233-9000 - 6075 Hill Drive, Flint
Residence Inn, 810-424-7000 - 2202 West Hill Road, Flint
Hampton Inn, 989-624-2500 - 12130 Tiffany Blvd, Birch Run
Best Western, 989-624-9395 - 9087 Birch Run Road, Birch Run
Holiday Inn Express, 989-624-9300 - 12150 Dixie Hwy, Birch Run

Sorry it took so long. I immediately got off the phone with you and was pulled into another meeting. Hopefully one of these will work for you. We have our own staff staying at each of them. None of these are in the affective area.

Subject: POD Assessment - Mayor's recommendations

Jay and BJ,

Tony said you were already aware of the attached letter from the Mayor on potential POD sites. I believe he said someone (BJ/National Guard?) already went past these locations and ruled them out as good sites, however, Tony would like a semi-formal assessment done of these locations utilizing the POD training that FEMA provides (link below, starting on page 24). Please complete this assessment by Monday morning at 9:30 a.m. and return to me so that he can formalize a response to the Mayor from Captain Kelenske. Thank you.

All,

Attached please find the County EOC Incident Action Plan for the operational period that is starting tomorrow. The IAP includes an ICS 204 form that outlines the the work assignment for the Elevated Copper Initial Assessment Task Force. The IAP will be updated during the operational period with additional ICS 204 and ICS 215 forms that include the elevated lead level follow up outreach that is starting with 10 teams on Wednesday.

Best regards,

That sounds like a good start to a plan, these 3 items should be addressed concurrently:

1: Contact resident - provide bottled water and health information
2: Determine if grounding is done appropriately and clean aerators. Must be done with a plumber.
3: Provide homeowner with test bottle to resample.
4: Develop plan for RO installation, IF NEEDED

Subject: RE: ACTION REQUIRED - FOLLOW UP: Sharing Information regarding Copper Filtration

It is my understanding that all of the elevated Cu results are ones that were collected by the individual home owner, correct? Do we want to confirm that the samples result is accurate?

We can make initial contact with them and advise to use bottled water, etc., but before we spend a larger amount of money to install RO it might make sense to confirm the number reported is accurate. Thoughts?

Importance: High

Please see string and attachments for original request and additional information.

I spoke with George Krisztian who advised the following via text:

"If that's the case then we will probably need to get some RO filters for the homes that exceeded 1.3 PPM. Before we proceed with installations we should have the home checked to see if it is properly grounded. If it is an electrical issue then the grounding should be fixed and the a resample taken. Until a final resolution is implemented bottled water should be used"

At this point we need to reach out to the 31 entities in the current list and inform them to utilize bottled water for consumption. Plans for verifying grounding, installation of reverse osmosis filters and sampling need to be developed and implemented.

Please keep the SEOC informed of activities to address this issue.

To: MDEQ-ECC-IMT
Subject: ACTION REQUIRED: Sharing Information regarding Copper Filtration
Importance: High

- ACTION ITEM- INFO RECEIVED
- SME: RICHARD BENZIE
- SUGGESTED DEADLINE: ASAP

NSF advised today that the filters currently distributed are not certified to remove copper. There are some pitcher filtration systems which are certified to remove copper but not lead. There are some under the sink reverse osmosis systems that will remove both. The cost of these systems range from $200 to $1000's.

NSF will provide the information they conveyed over the phone in a follow up email along with indentification of those systems which are certified. I will forward as soon as received.

Please keep the SEOC informed of response to this information.

Subject: Additional DCDS Coding - City of Flint
Attachments: Activity Tab DCDS.png

Good Afternoon:

The State Budget Office (SBO) has requested some additional coding in DCDS for staff that work on the City of Flint Water Emergency. We will still be coding all overtime costs to PCA 28670. But at their request, we will also be utilizing the "Activity" code in DCDS.

To enter Activity Code

- Open Employee Data Collection
- Click on **Activity Tab** of DCDS timesheet
- On the Unit Entry tab, under Activity column at left, enter F in drop down box and select **FDWP** when it appears.
- Enter total of "**regular and overtime hours**" related to the Flint Water emergency in cell for each date worked.
- These hours should match the total hours for each day you have entered into your timesheet.
- Save when you have entered your activity hours.

Again, this is only for hours spent working on the City of Flint Emergency and should begin with this current pay period. Please let me know if you have questions.

Thanks,
Penny

Eickholt, Jay (MSP)

From: MSP-SEOCOPSC
Sent: Sunday, February 07, 2016 3:17 PM
To: MSP-SEOC5; Eickholt, Jay (MSP); MSP-EOC-MDLARA; Towne, Karen (LARA)
Subject: FW: Child Care Facilities Needing Water Resources
Attachments: Child Care Facilities.pdf

Importance: High

Jay,

Apparently Chris has had some questions concerning Child Care facilities (per attached list). Karen Towne has provided me with some insight as follows.

1 – Genesee Stem Academy
NFWS – 1609 Waldman Ave
2 – Richfield Academy Preschool
1 – Freeman Elementary
2 – Gloria's Little Angels
NFWS – Hartland Center Nursing Home
NFWS – Kiddie Trauma Child Care
4 – Wonder and Discovery Child Care
1 – Mott College Early Child Care
2 – Genesee County Head Start
3 – McFarland Senior Home
2 – Faith Kids Center
2 – Home Child Care
4 – 4110 Brownwell Blvd
0 – Davita Dialysis
4 – 1710 Welch Blvd.
2 – Childcare Facility
3 – Women's Health Center
1 – St. Paul Lutheran Early School
4 – AFC Claudette Lakes

Amy-Rice – 1014 Beard Road (private residence? – St. Paul Lutheran Early School is mentioned above referencing Amy Rice)

1 = School – Faucet Replacement Phase 1
2 = Child Care – Faucet Replacement Phase 2
3 = Adult Foster Care – Faucet Replacement Phase 3
4 = Small (6 or less) residential – regular service by volunteers
0 – Dialysis & Hospital – No Action needed
NFWS – Address is Not on Flint Water System

Phase 1 indicates that LARA will be replacing all water faucets (there are 40 in total)
Phase 2 will be identified Early Childhood Development sites that are licensed for 7 or more children
Phase 3 will address Adult Foster Care facilities
Licensed facilities (homes) that have 6 or less children should be addressed as private homes

It is my understanding, once the faucets have been replaced in these phases by LARA, no further actions will take place.

LARA will be sending out letters to all facilities that are shown to NOT be on the Flint Water System and ask them to contact if information is incorrect.

Karen, if I have incorrectly laid any of this out, please feel free to respond and correct. THANKS!

Subject: FW: Child Care Facilities Needing Water Resources
Importance: High

Jackie,

I spoke to LARA after we received this email on Thursday and it was their understanding the request below was a one-time thing to get supplies to the childcare facilities, but Chris DeVriendt again mentions an AFN list that is given to the ARC and to me indicates an ongoing distribution. We just want to make sure nothing falls thru the cracks as it appears these emails are only being send to Recovery/Brianna. Hopefully we can get on the same page and not duplicating efforts or performing roles at the SEOC that should be at a local level.

Thanks,

Carly

Subject: Child Care Facilities Needing Water Resources

Dear Brianna/OPS,

Team Rubicon attempted to make contact on all agencies listed in Task Assignment SEOC – 2152092. I removed the Hurley Hospital reference due to the impracticality of providing assistance to an agency that already far exceeds any standard of relief that we can offer. The attached list should be added to the AFN list that ARC services and supplies should be distributed as indicated on the list and at the direction of the State.

Please keep me in the loop as to supplies being authorized for 'for profit' agencies as this will have a huge impact on my operations at the local level.

I'm not sure of the best way to 'close out' this Req so I will pass it on to one of the State gurus down here for action on the actual ticket.

That sounds like a good start to a plan, these 3 items should be addressed concurrently:

1: Contact resident - provide bottled water and health information
2: Determine if grounding is done appropriately and clean aerators. Must be done with a plumber.
3: Provide homeowner with test bottle to resample.
4: Develop plan for RO installation, IF NEEDED

Subject: RE: ACTION REQUIRED - FOLLOW UP: Sharing Information regarding Copper Filtration

It is my understanding that all of the elevated Cu results are ones that were collected by the individual home owner, correct? Do we want to confirm that the samples result is accurate?

We can make initial contact with them and advise to use bottled water, etc., but before we spend a larger amount of money to install RO it might make sense to confirm the number reported is accurate. Thoughts?

Subject: ACTION REQUIRED - FOLLOW UP: Sharing Information regarding Copper Filtration
Importance: High

Please see string and attachments for original request and additional information.

I spoke with George Krisztian who advised the following via text:

"If that's the case then we will probably need to get some RO filters for the homes that exceeded 1.3 PPM. Before we proceed with installations we should have the home checked to see if it is properly grounded. If it is an electrical issue then the grounding should be fixed and the a resample taken. Until a final resolution is implemented bottled water should be used"

At this point we need to reach out to the 31 entities in the current list and inform them to utilize bottled water for consumption. Plans for verifying grounding, installation of reverse osmosis filters and sampling need to be developed and implemented.

Please keep the SEOC informed of activities to address this issue.

Thank you,

- ACTION ITEM- INFO RECEIVED
- SME: RICHARD BENZIE
- SUGGESTED DEADLINE: ASAP

NSF advised today that the filters currently distributed are not certified to remove copper. There are some pitcher filtration systems which are certified to remove copper but not lead. There are some under the sink reverse osmosis systems that will remove both. The cost of these systems range from $200 to $1000's.

NSF will provide the information they conveyed over the phone in a follow up email along with indentification of those systems which are certified. I will forward as soon as received.

Please keep the SEOC informed of response to this information.

Good morning Tina and Bill,

I want to thank you again for all of your advice and guidance on the warehouse operational times. It's so helpful! Can you tell me what your hours are? We are just about there in finalizing our plans. Please see the attached plan that we have drafted up. Let me know your thoughts and also edit your hours as well if I have them incorrect. We have room to be open more often as well, but I didn't want to immediately start off with too many hours until we got a feel for how busy we would be.

Tomorrow we are going to be open from 12-6, but we are not publicizing it just yet as we do not have all the equipment and supplies we need to run a warehouse. But we wanted to be open to receive only, just to give you and us a little relief as Saturday's tend to be our busiest times for the loose donations.

Lastly, your trucks have been extended for a couple of weeks. Please keep us posted if you experience any difficulties with them or you no longer need them.

Thanks again for your help.

Hi Wendy,

The Saturday set up sounds great. Mondays and Fridays from 1:00 p.m. to 4:30 p.m. would work for us. Our trucks all leave out in the morning so we have an opportunity to take in trucks really up until 1:00 then in afternoons we have a store pick up program and orders to pull. 4:30 p.m. is when we close you could certainly extend that if you need to.

Let me know what you think.

Thanks

Harvey,

Pursuant to emails with Mel Brown, I wanted to update you with regard to what we know about mandatory HUD water testing of HUD financed apartments in the City of Flint:

- Attached is correspondence that HUD sent to HUD financed apartment complex properties requiring property managers to install water filters.
- In addition to this letter, HUD staff informed MSHDA staff yesterday that water testing was mandatory for HUD properties. We're seeking written clarification on mandatory water testing from HUD and will share this information when received.
- MSHDA will be reaching out this week to MSHDA financed rental properties and following suit. MSP has provided us with locations of where testing material can be obtained and we'll be communicating with property managers as to where they can attain these materials and required testing. If you have any concerns or issues with us taking this direction, please let us know.
- NOTE: The HUD properties that Pastor Woods has contacted you about are properties administered through the Flint Housing Commission with HUD related resources. *These are not MSHDA properties.*

I have copied our Chief Housing Investment Officer, Michele Wildman as well as Daphne Wells from MSHDA who recently communicated with HUD about water testing. If you need any further information or have more questions, don't hesitate to contact me, Michele or Daphne.

Knowing that you were heading to a meeting with Pastor Woods, I wanted to get you the most recent information available. Updates will follow as more information is gathered.

Brian.

Jay,

Just to confirm,,, Mike is going to call the churches in blue,, and I will call the ones in yellow just to confirm,,, they are set for the weekend.

This may duplicate what BJ has already done,, however we want to make it right. If a church needs water we will email Jay to be placed on the delivery list.

Michelle,

Just an FYI regarding this email. The plan we worked on this week is in place (see attached). The churches that Lt. Roach has been coordinating with the last couple weeks have also been addressed. Jay E. advised Lt. Roach has provided him with the churches that are still in need of water deliveries.

Can someone look into these sites to see if they need anything for Sunday and to also coordinate with long term recovery.

Lt Roach - probably handle the Sunday items if you are in and weber on LTR. Lt covey to coordinate these tasks. Thanks.

Subject: RE: church list
Attachments: Church PODa.docx

Pastor Ellison, Harris, and Overton,

Below is a list of churches that have volunteered to be Church Distribution Hubs. I had direct contact with the pastors and their point of contacts. I have also conducted site assessments at their facilities.
It was conveyed to them that this initial plan was a collaborative effort, and may change with input from all parties involved.
It was discussed, and agreed that the HUB churches would network with the surrounding churches, and set up their own agreed upon distribution schedule. It was requested that the HUB church provide a list of churches that are obtaining their water from the HUB church. This list can be sent via email to Lt. Roach at Roachb@michigan.gov.
Hopefully this plan will further assist and augment our initiative of getting water to our residents more efficiently.

Request for Water

At this time the Church HUB point of contact is Lt. Roach The Church HUB will call and provide the quantity of water, and schedule the delivery time. This should be scheduled at least 24 hours in advance.

Deliveries

The deliveries will be conducted by a Mi DTMB driver, and truck. They have a pallet jack and the capability of moving pallets from their truck to a staging area. If the water needs to be transported to an upper or lower level, there needs to be people to assist off-loading.

Church Distributions

The Church Distribution HUB would be responsible to network with the surrounding churches, and set up a distribution schedule, along with amounts of water needed.

Michigan State Police Points of Contact

Lt. B.J. Roach Roachb@michigan.gov
Lt. Mark A. Russo Russom2@michigan.gov

CHURCH DISTRIBUTION HUBS

NORTH

Foss Avenue Baptist Church
1159 East Foss Avenue
Flint MI
Pastor Flynn
Point of Contact: Jackie Scott

Delivery: 4 pallets starting 2-2-2016 @ 12:30 pm

Subject: RE: Pitcher, Filters and Filtered Water Bottles

All,

I have NOT send the below response to this vendor offering supplies, because I do not know if it is appropriate and could be somehow used paint the wrong picture of our efforts.
Michigan Community Service Commission and I would very much appreciate some guidance on what to tell these people - especially if they are actually offering something that we are currently usimg (i.e., Pur or Brita filters, ZeroWater pitchers/filters).

I assume telling people outright that we do not want in-kind donations of filters is not the way to go at this point, but please try to clarify if we either will or will not receive filter donations going forward, and provide some guidance on how to reject people if necessary.

Brooke,

Thank you very much for your efforts and willingness to support the community in the City of Flint. I am truly sorry, but we are currently not able to directly coordinate with you in terms of receiving your donations. Please understand that we are trying to deliver necessary supplies to the residents of Flint in the most efficient and safe way possible, and at

this time, this means that we can not consider your offer. If this directive should change, we will evaluate your offer again and will reach out to coordinate.

Among other reasons, we need to ensure that any item that is distributed in coordination with agencies on the local or state level of government comply with Safe Drinking Water Act regulations, and the most efficient way to do this is by only handling items that are NSF certified. It appears that the items you are looking to donate are not NSF-certified. I am aware that your products might have the same functionality and achieve the same results as NSF-certified filters, but at this time, NSF-certification is the most efficient and fastest way for us to evaluate any product we might distribute.

Again, we very much appreciate your efforts to help the community here, and I wish that we had a more satisfying solution for both sides on this issues.

Best regards,
Henrik Hollaender

Hi Janet,

My name is Brooke Davis and I am part of the team at Clearly Filtered. We are small water filtration company located in Southern California. Our filters are rated to remove 97.5% of lead. We are wanting to help the Flint community with the crisis at hand.

We are asking our customers and communities to help us donate pitchers and filtered water bottles. Please see the link below for more information. Do you have a contact or location for the pitchers and water bottles we collect?

Subject: iPad Tracking
Attachments: Book1.xlsx

Hi Jay,

Attached is my rough iPad tracking sheet. If the additional pads that were given to the PODs came from the original 90 – they are all accounted for. I thought the 30 that were requested yesterday were already there and you had given 2-3 of those to the PODs but just heard they are still in Lansing.

Let me know if you think otherwise!

Thanks,
Carly

Subject: FW: Flint Apartments in Need of Filters

Wendy, per our conversation this morning, attached is a copy of the updated spreadsheet of the filter distribution that MSHDA engaged in Saturday with our notes on each location. This information was given to Mr. Jay Eickholt this weekend.

Should you have any questions or comments, please don't hesitate to contact me.

Please know, as MSHDA offered previously, as highlighted below, MSHDA is more than willing to pay for any costs associated with these filters and or pay for acquiring more.

We have already set aside in escrow some $250,000 for any and all expenses related to costs associated with getting water, filters, and other necessities to tenants. Let us know if you would like a check today to purchase more.

Thank you,

Brian.

Subject: FW: Flint Apartments in Need of Filters

Wendy,

Thank you for taking my call this morning – I know how busy you must be and I appreciate your attention to this request.

Executive Director Elsenheimer is in Lansing today with a team of staff in work clothes. Considering MSHDA's experience with housing matters, we have a building/maintenance construction staff crew that stands ready to be on the ground today to help our tenants install filters at these properties.

If we're able to get these filters today, we have a fleet of vehicles to transport them to these apartment complexes and begin installing.

If for any reason, you don't think attaining filters is possible today, please let me know so we can make our team aware and let them know when they might be available.

Brian.

Subject: Flint Apartments in Need of Filters

Dear Outreach Unit Manager Galbreath:

First and foremost, thank you for speaking with me today when I stopped by your office. I appreciate your quick attention to my inquiry.

Pursuant to our follow up conversation later this afternoon, attached (in excel and or as a pdf) is a listing and status report of the various apartment/housing complexes that utilize Flint municipal water that have a direct connection with the State of Michigan through various financing programs associated with the Michigan State Housing Development Authority (MSHDA).

We have outreached to most of these properties and have identified which ones we believe need additional attention by ways of delivery of filters to affected tenants. As I indicated over the phone, we would like to coordinate a team of dedicated state employees from MSHDA that stand ready to pick up and deliver filters to these properties immediately with your permission.

If at all possible, if you could review this list and let me know if and when our team could pick up the filters and deliver them to these units, it would most helpful. Please know that MSHDA is willing to pay for these filters as well if it means getting access to them quicker. We can pick them up wherever is quickest to acquire them.

Look forward to hearing from you tomorrow. Please contact me directly if you have any questions.

Respectfully,

Brian Mills

Subject: Water Donations

We received a call from . He is asking about how and where he can go about donating 4-5 semi loads of water. This is more water than what the Food Bank can handle at one time. If they can stagger it they may be able to ship it to their sites.

Please advise at the direction we should move. If Clio Road is not going to accept donated water we should look for other long term storage for local agencies to draw from.

Subject: State PA Workshop at NEMA Mid-Year/Please Forward to Your PA Staff

State Directors:
There will be a meeting/workshop for state PA staff at the NEMA 2016 Mid-Year Forum at the Hilton Alexandria Mark Center Hotel in Alexandria, VA.
Please forward this email with the link below to your PA staff to help us identify discussion topics for the workshop.
The meeting/workshop will be held on Thursday, April 7, 2016 8:30 am-3 pm. FEMA will be presenting in the morning with the latest updates on the PA re-engineering effort. The afternoon will be for state PA staff only. The first discussion topic will be a review of FEMA's presentation. We'll have time for 2-3 other agenda items before adjourning at 3 pm. This will allow staff to fly out that afternoon or evening.

If you're a state PA staff member, click on the link to take the workshop survey and make your topic suggestions:
https://www.surveymonkey.com/r/SuggestedPAWorkshopTopics

More details about the workshop to follow.

Thank you,
Beverly

Subject: Coding for City of Flint Water Contamination incident

Good Afternoon:

For any **overtime hours** spent working in the SEOC with the City of Flint Water Contamination/Shortage event, please use the following coding:

Index 28900 with PCA 28670

Any **non-payroll** costs (travel, SEOC meals during activation, etc.) should be coded to:

Index 28900 with PCA 28671.

These codes are not yet active in DCDS but will be by the end of the week. Please let me know if you have any questions.

Thanks,
Penny

Thank you so much for volunteering to help take vehicles to Flint.

You will all take one car to the training center to pick up the keys to 2 Suburbans and 2 Crew Cab Trucks. The car that drives to the Training Center will follow the 4 vehicles to Flint and bring everyone back...hopefully you can trust that person not to leave you in Flint ☺...select your trusted person wisely.

The address is 2727 Lippincott Blvd., Flint, MI Attached are the directions from the Training Center.
It is the Genesee County Community Action Resource Department location.

Sam, please grab the keys from Joyce and meet everyone else in the lobby.

Please notify your supervisor upon your return.

Thanks,
Carly and Kristi

Yes we have about 30 done. A lot of people had already received one.
We have the paperwork for those given out.

The truck never came. If the truck pallet jack has rubber wheels we can unload it to the transfer center really quick. If it doesn't the steel
wheels will destroy the flooring at the transfer center. If you can
find that out we will know whether we need volunteers to unload it.

Thanks

Ed

Hi Michelle,

Thanks for the info. Judy informed me that you called regarding the Your Ride clients that still need filter. We'll be glad to do the initial delivery and then hold off as requested.

For the 2-1-1, we'll get the passengers to the distribution centers located along the designated fixed routes. The passengers just need to let the driver know that is their intention and we will not collect the fares and will just log the count of passengers riding for the water supplies.
MTA added the 5 requested Water distribution sites as stops along the following fixed routes: Fenton, ML King, Franklin, Dupont and South Saginaw.
We are ready and willing to help - please don't hesitate to ask for assistance as needed.

Thanks again,

Subject: Genesee County EOC

Hi Ed,

I am just following up our earlier call. I have let our Joint Information Center know that the MTA has included the 5 fire stations in the bus routes. This information will be provided to 211.

I have also let Jay Eickholt know that I'll be the main point of contact for MTA.

I am following up on the supplies, we will get a stock set aside and then I can coordinate pick up with you. We are receiving a lot of supplies today.

I am also going to speak with the sheriff's department about the calls received regarding home deliveries.

Please contact me at if you need anything.

Thank you so much for your support,

Michelle Kuzera

Subject: RE: Couple things

Please see attached regarding handouts used during DEQ home visits. I will pick up hard copies of the handouts not immediately available electronically and bring them tomorrow (or perhaps pdf them and email them tonight).

Regarding EPA, DEQ and City figuring out the best statement regarding what to do when boil water order lifted, the message that cartridges need to be replaced after the boil water advisory has been lifted has now been distributed so widely that it would be impossible to correct, and it would be confusing. This message to replace filter cartridges is on our www.michigan.gov/flintwater website, EPA's website, media articles, etc. The positive side of continuing with the same message if that there are plenty of cartridges in stock and many cartridges will be due to be changed soon. The negative side is that the directive implies the water supply was contaminated with bacteria. Regardless, I now think we need to continue with the same message.

Still we need to find out what documents are being left at people's home by DEQ teams.

Also- talking with Dr. Mona do Nick here at FWICC, even if microbial studies negative in second round would not cartridges need to be replaced and aerators cleaned due to trapped air disrupting the scale in the lines? JIC, EPA, DEQ and City can figure out best statement regarding what to do when boil water order lifted?

Subject: Information for the Chamber of Commerce

Good morning,

I received information from the US Health and Human Services Department that Mona Murphy from the Chamber of Commerce would like some flyers to pass out in the building.

Cheryl – do you have any further information on this?

Scott – can you work with Cheryl and show what type of flyers we have available on MI CIMS on the Public Information Documents board? I've attached one flyer here that may work.

Once flyers are selected can you get them printed and provide me an update?

Michelle Kuzera

Any thoughts on this?

From: Robinson, Judy (GOV)
Sent: Monday, February 08, 2016 10:23 AM
To: Stoken, Laura (GOV) <StokenL@michigan.gov>
Subject: FW: water bill history

I spoke with Mr. Clark. He is concerned with the City of Flint water department over billing. He has lost at least one tenant because of this issue. One tenant, whose water bill should have been 50 to 100 dollars, consistently received bills over 300 dollars. See attached
Another property he owns (currently vacant with the water turned off before the meter) received a one month bill for almost 1000 dollars. Mr. Clark said when he addressed this with the water department they said if he would admit there was a leak they would cut his bill in half. He refused saying all he should have had was the basic service charge as there was no usage.
He named quite a few instances of this happening.
Mr. Clark also suggested that the City of Flint's motive is to tap the business people for all they can because no one else is paying. The local TV station is trying to get him to interview with them.
Mr. Clark also mentioned the local Genesee County Landlords Association (GLA), meets monthly on the first Monday at 7 pm at Walli's East. (So that is tonight, in case someone wants to attend!) GLS is actively working on the City of Flint Water Issue according to their website.

Importance: High

Jay,

I'm not sure who is there today, but can you please get someone over to the Kroger warehouse ASAP and identify a space for SBA that works with their criteria? Please see below and attached. If they want to move in on Wednesday, we have to move quickly to get them set up. Thanks so much!

Thank you so much!

Hi Wendy,

We will need space that will allow us to assist Businesses with completing the SBA disaster loan application, so yes business that seek assistance will visit the office. The space should also accommodate 3 Customer Service Representatives (CSR) and allow some degree of privacy between each CSR. We also need space that is convenient to the public and allow easy access for business owners seeking assistance. See attached for a basic layout and requirements of a DLOC. We would like to have office open by Wednesday of this week to provide disaster assistance.

Audrey Binns will coordinate directly with you to establish office.

Good morning Kem,

Tony Katarsky forwarded me your contact information to discuss the office space in Flint you are requesting. I think we may have a location, but I need a better idea of what would be needed and what the space will be used for.

We are opening a 2nd warehouse in an old Kroger store. In the upstairs of this location is empty office space. We were going to put you in here if that works for you? Of course we will have it cleaned and stocked with desks and whatever else is needed. Please let me know what you will need from us to be operational and what date/time you expect to arrive.

Also, because this will be used as a warehouse and maybe at some point a point of distribution, I was wondering if the space was just for your staff, or you were going to have outside businesses meet you there?

Please let me know what you need and what I can do to help.

Good morning!

Today is the official roll-out of the AIA Flint Safe Water Storage Guideline Campaign!

Board members will be dropping flyers off at key water resource centers around the city including; City of Flint fire stations 1, 3, 5, 6, & 8; Red Cross; select township fire stations.

News media was notified yesterday via press release of the campaign and the distribution that will begin today. Later this morning, an email will be sent to the AIA Flint membership inviting them to help distribute flyers to their contacts via email and dropping off at any water resource centers they are familiar with.

Remember, the campaign is not just today. So if you cannot participate in helping distribute flyers today, no worries. Feel free to email and drop flyers to anyone in the next week or two.

Please find attached the final single version of the flyer for email and final printable version with two flyers to an 8.5x11 sheet.

Thanks!

Best, Amanda

Josh/Loren:

Attached is the spreadsheet I received from Tara Premoe (DEQ Administration) regarding the test bottles. Based on the spreadsheet, it does not appear that we will be receiving any more bottles until next week (Monday, 2/8/16 – 295 cases of 60 bottles). If the bottles are delivered on time, we should plan on assembling the kits starting Tuesday or Wed. depending on getting approval from the lab. Loren, I am available to be at the Red Cross any day next week except Wednesday morning. Let me know what days you are available and we can set a tentative schedule for next week. Maybe alternating days would work, or if we get enough volunteers we both may have to be there. We should be able to complete the 295 cases by the end of the week (Friday), if not, Saturday at the latest. Josh, I know you are off next week. Hopefully, all the test kits will be completed before you get back. As you can see from the spreadsheet there are no more bottles currently on order. I spoke with Jen Wolf this morning and she stated that no more bottles are on order and we should have enough at the warehouse in reserve for a couple of months.

Also, the link below is for the warehouse inventory so you can see where all the bottles are going among other things.

If you have any questions, please let me know.

Subject: RE: PUR Volunteering Follow-Up
Attachments: Water Filter Tracking.xlsx

I am going to group this in to one email. We have the one location confirmed (community center). Lt. Roach has contacted her for the confirmation, I have left a message for follow-up, and you may proceed to call her (see below). I leave the set-up and fine detail to you and her. Please let me know the exact times we agree upon for the team's activities with the public, as we would like to have the Joint Information Center send out a media release or communications update.

We should have the details for the church today, as well. Lt. Roach has a meeting with them later today if they do not call back before (but it may not be in time for your meeting). When I have that detail I will update you.

- Location 1: **Brennan Senior Community Center**, 1301 Pingree Ave, Flint. **The contact there is Debra:**
- Location 2: **Church ID'ed but not confirmed**

I have cc'ed Jay Eickholt, and have even attached a form from him. He works in logistics, and he will arrange the delivery of the filters (we can arrange to bring over some of the handouts, as well). He will need to know:

1. How many filters would you need at each place? The Brennan Center sees around 200-250 people/day.
2. The point of contact at each location (this is who would take the filters – I assume the PUR people would want to receipt them. Otherwise, we can work with the location PoC)?
3. When do you want them (Monday or Tuesday, and at what time)?
4. And finally, the attached sheet is to track how many are given away at each location.

Thank you!
Chad

Subject: RE: PUR Volunteering Follow-Up

Hi Chad,

Just checking in to see if you have the contacts and addresses for the two locations yet. Our teams are hard at work getting prepared for next week and we need to share this info as soon as possible.

Also a few quick follow-ups:

- In addition to the products, can we also have some of the PUR handouts we shipped to the EOC brought to the locations?

- We definitely want to do a quick site check on Monday afternoon/evening so that we are familiar with the space on Tuesday. We will work with the contacts at each location to confirm. Would it be possible to have the product delivered that evening so that we're ready to go on Tuesday morning?

Thanks!
Erin

Subject: PUR Volunteering Follow-Up
Importance: High

I just wanted to touch base with you on the two main points we discussed yesterday:

1. Lt. Roach is working with her contacts. We have ID'ed a community center and a church. I will pass along the detail when she has touched base with those two places, and we will have you talk with each point of contact directly to coordinate the logistics with them (at their respective location).
2. I will confirm with our own logistics team to make sure that PUR filters and replacement cartridges will be delivered to the locations.

Also, I have asked DEQ for details (and information sheet) re: the testing kits (and not having the kits on hand themselves).

Thank you,
Chad

Could you please have these people use the established system of 211? Many individuals are getting on multiple lists and it is making this a nightmare trying to plan routes and establish deliveries. In addition, if the attached spreadsheet can be used for the addresses, it would greatly speed up the response efforts.

Hey Jay, since you are the master Hot Shot form guy, can you help us out with some changes to this form? 2-1-1 is ready to move forward with us, so others will be using this other than just us. Can you please make the following changes and return it to me?

1. Remove "or" from between Resident, Business, Church at the top
2. Next to "Door Hangers" add "Specify Language" Since we have several now ☺
3. Below the line at the bottom, center "Delivery Driver Only" and remove the :

Thanks Jay!

Subject: RE: Final Hot shot form

Richard,

Michigan 2-1-1 is moving forward to develop an electronic version of the hot shot form that will automatically generate a referral as calls are completed.

Can you verify the following:

- Hot shot v.2 (attached) is the approved form without any further edits
- Can you provide the email address for the primary recipient of the water resource referrals and anyone additional emails to copy on the referrals.

ETA for the electronic form is 8-10 days. Once it is active, we will be able to make simple modifications as needed (e.g. add/change resources available for delivery)

Thanks,

Tom Page | Executive Director

Jay:

Thanks for taking the time to talk to me today about the decision to move forward with PUR and Brita for the water disaster in Flint MI.

You have Seychelle's materials and the product and if anything changes with your supply of filter bottles, give me a call as we stand ready to supply our advanced filter bottle that you have in your possession in a timely fashion and at a fair price.

Just remember that one filter is equal to 750 1/2 liter bottles which should exceed a years supply We also have water pitchers for home use So we could fill in for both of the brands selected with superior products.

Regards,

Jim Place

Jay:

Just to let you know that the package was delivered and signed for by somebody by the name of Smith, probably in your mail room.

Please confirm that you got the package.

Be sure and wet out the filter In each bottle. The simplest way to do this is to fill a bottle and squeeze it into the sink with the straw open on the cap. You may see some residue from wetting the filter. Do this a couple of times then you're ready to try the water that's creating all the issues.

I will call you tomorrow after you've had a chance to do that and review some of the materials that were sent in the package as well as look at the email I sent with the capabilities summary sheet attached.

If you have any questions today, don't hesitate to give me a call.

Regards,

Jim

Flint, MI 48502

Dear Jay:

I enjoyed talking with you today about the possibilities with the Seychelle Advanced Filter Bottle which takes out all of the contaminants in drinking water. Seychelle has just been approved by FEMA and we are in the process with GSA as a potential supplier for disaster relief with other government agencies with a superior water filtration system in a bottle that takes all of the contaminants out on the EPA list for drinking water.

I would like to introduce you to Seychelle Water Filtration Products as we have been in business since 1998 with 17 years of experience. We are a fully licensed and insured **Small Business** serving all of the United States as well as overseas. We are a company working in the field of portable water filtration bottles with breakthrough technology that takes all of the contamination out of drinking water, not just lead that is on the EPA list noted on our website and as stated in the capabilities statement with a link to the website. What you don't know is that there are usually more contaminants in the water than municipalities realize. We have sold over 7.5 million filters products to-date in a variety of containers; but primarily bottles.

This is unmatched by anyone in the business as they only take out primarily chlorine, taste and odor (CTO) and a few other contaminants, This is the primary reason people purchase bottled water (don't like their tap water) which is a single use bottle that ends up in a land fill. All Seychelle products are Biodegradable, BPA free, are non-toxic and do not leach as bottle water plastic (PET) does. Our plastic bottles are LDPE.

We have developed lasting relationships with numerous qualified businesses which include customers and vendors. This includes having an outstanding reputation with city and state agencies. Since we are a publicly traded (OTCQB/SYEV) company, this includes the SEC since

we are required to file quarterly reports. Importantly we are approved by FEMA and in the process of being approved by GSA to make this contact with you.

We would sincerely appreciate working with you on your current drinking water disaster as well as your future ventures and look forward to your association with us.

In this regard, We are sending under separate cover, 2 bottles for you to try with the contaminated drinking water that Flint MI residents are having to deal with now. Included in the bottle shipment that you should receive on Monday, will be some recent research on the viability of our proprietary filter technology prepared by our President, Carl Palmer. Be sure to follow the directions with the bottles as the filters in the bottles are shipped dry and you have to get them wet to be able to use them. Each bottle is equal to 750 1/2 liters of bottle water which makes the product very economical compared to bottled water.

I will call you next Tuesday to make sure you received the two bottles and research on Monday. Hopefully you will have had a chance to test them during this time of need. Please view our attached government targeted capability statement as well.

Regards,

Jim Place

Subject: RE: Water Tests

Good afternoon,

In light of the current water situation, Uptown has been proactive in testing and informing to the best of our ability. We have also directed tenants to the public information line so that they have the means necessary to obtain filters and water if they feel necessary. When the issue with legionella came about, I requested permission to order enough filters for one shower in each residential unit. However, after many calls and quite a bit of research, I found that the only system that can eliminate that particular bacteria is a reverse osmosis system. I felt ordering all of the shower filters may be a waste so I did not proceed. If you would like me to do otherwise please advise. I have been in contact with the public info line, "211" and was informed that we can get filters for all units, but have been unsuccessful so far. I am concerned that if we are the ones to install filters we would also be the ones liable if a filter fails someone. If you would like me to bypass the filters that are donated and order our own, please let me know, otherwise I will keep directing tenants to the distribution centers.

I have asked Tim Knecht to direct me in verbiage when addressing tenants and answering questions so that people are well informed, but we are also protected. There are a couple of questions I would like to be able to answer for Mr. Knecht so that he can direct me accordingly. 1. Should we organize regular testing, possibly monthly? 2. Is the plumbing in each building new or old predating the ban on lead solder? (1986)?

For your review I have attached a report including each building's testing dates, results, preventative measures and tenant interaction such as notices/memos. Also attached is the memo sent out by the Market staff, an estimate for FFM Filtration and the Chamber FAQ that I have forwarded to several people.

Please let me know if you feel there is anything else that needs to be done. Thank you!!

Subject: FW: Niagara Water Sept. Recall

Captain,

Just an FYI- this does not apply to us. Per DTMB, we got our water from Wisconsin; this applies to water from Pennsylvania. DTMB is confirming, comparing our lot numbers with the ones listed.

On Niagara's website, they do not show Michigan as an impacted state.

Subject: Niagara Water Sept. Recall

Good afternoon,

We just found out about a recall by Niagara water in Sept. 2015. Is there a way we can check the Niagara water that we're giving out to ensure it's not from these lots: http://www.niagarawater.com/consumer-notice/

Thank you,

Attached is tracking sheet for Eagle Ridge Square. We have 36 homes without filters at this time. Also, someone came out on last Friday 22nd at about 4:45pm and my maintenance had already left for the day so I was told someone would be back today to make delivery. Will you please confirm that another delivery attempt will be made during business hours Monday - Friday 8am - 4:30pm. Thank you

Stephanie,

Attached is the tracking sheet for the water filter distribution. This needs to be completed and returned. If you could also account for the others who already have one that would be great.

Thank you,

-Jay

Subject: Re: Filter Donations
Attachments: Guidelines for Water Filter Donations.docx

Attached is a prettier-looking document about water filter donations. I was unsure about these two options so I've left them off for now until someone can give better information about them (specifically, the model number)

Manufacturer	Replacement Cartridge #	
Zero Technologies	ZF-201	water pitcher only
Brita Products Co.	FR-200	facet mount only

Once everyone on this email/others at EOC has approved the document, please send it back and I will have the JIC approve it. As noted, I'm understanding that this is not for public releasing, but for giving to specific donors who have already been vetted.

Subject: RE: Filter Donations

Thanks Janet. So the end product would be a flyer that MCSC could send to people looking to donate filters to inform them about their options? I think that is a great idea.

Here the procedure for accepting filter donations that we established with SEOC Logistics:

Guidelines for receiving donations of filters through local EOC
1. Will only accept filters that have been included in the list of "NSF Approved Filters and Replacements for Donation."
2. Will only accept filters in sealed boxes/packaging.
3. Will receive filters at overflow warehouses established for donations.
4. Will distribute filters with water donations to community organizations.

If this goes through the JIC, please make sure that it won't end up being an official press release (considering how hesitant SEOC Logistics was to allow us to accept filter donations in the first place, and the trouble that we are having with identifying potential warehouse space for donations).

To: Eickholt, Jay (MSP)
Subject: Fwd: The Drinking Water Disaster in Flint MI
Attachments: Seychelle Capabilities Summary 1-20-16.pdf; ATT00001.htm

Jay:

Just to let you know that the package was delivered and signed for by somebody by the name of Smith, probably in your mail room.

Please confirm that you got the package.

Be sure and wet out the filter In each bottle. The simplest way to do this is to fill a bottle and squeeze it into the sink with the straw open on the cap. You may see some residue from wetting the filter. Do this a couple of times then you're ready to try the water that's creating all the issues.

I will call you tomorrow after you've had a chance to do that and review some of the materials that were sent in the package as well as look at the email I sent with the capabilities summary sheet attached.

If you have any questions today, don't hesitate to give me a call.

Regards,

Jim

> Dear Jay:
>
> I enjoyed talking with you today about the possibilities with the Seychelle Advanced Filter Bottle which takes out all of the contaminants in drinking water. Seychelle has just been

approved by FEMA and we are in the process with GSA as a potential supplier for disaster relief with other government agencies with a superior water filtration system in a bottle that takes all of the contaminants out on the EPA list for drinking water.

I would like to introduce you to Seychelle Water Filtration Products as we have been in business since 1998 with 17 years of experience. We are a fully licensed and insured **Small Business** serving all of the United States as well as overseas. We are a company working in the field of portable water filtration bottles with breakthrough technology that takes all of the contamination out of drinking water, not just lead that is on the EPA list noted on our website and as stated in the capabilities statement with a link to the website. What you don't know is that there are usually more contaminants in the water than municipalities realize. We have sold over 7.5 million filters products to-date in a variety of containers; but primarily bottles.

This is unmatched by anyone in the business as they only take out primarily chlorine, taste and odor (CTO) and a few other contaminants, This is the primary reason people purchase bottled water (don't like their tap water) which is a single use bottle that ends up in a land fill. All Seychelle products are Biodegradable, BPA free, are non-toxic and do not leach as bottle water plastic (PET) does. Our plastic bottles are LDPE.

We have developed lasting relationships with numerous qualified businesses which include customers and vendors. This includes having an outstanding reputation with city and state agencies. Since we are a publicly traded (OTCQB/SYEV) company, this includes the SEC since we are required to file quarterly reports. Importantly we are approved by FEMA and in the process of being approved by GSA to make this contact with you.

We would sincerely appreciate working with you on your current drinking water disaster as well as your future ventures and look forward to your association with us.

In this regard, We are sending under separate cover, 2 bottles for you to try with the contaminated drinking water that Flint MI residents are having to deal with now. Included in the bottle shipment that you should receive on Monday, will be some recent research on the viability of our proprietary filter technology prepared by our President, Carl Palmer. Be sure to follow the directions with the bottles as the filters in the bottles are shipped dry and you have to get them wet to be able to use them. Each bottle is equal to 750 1/2 liters of bottle water which makes the product very economical compared to bottled water.

I will call you next Tuesday to make sure you received the two bottles and research on Monday. Hopefully you will have had a chance to test them during this time of need. Please view our attached government targeted capability statement as well.

Regards,

Jim Place

Subject: MSHDA - FYI
Attachments: Flint unit addresses.xlsx

Dear MSP Team:

Thank you for your help on Friday with the two large rental apartment complexes that needed additional supplies. Much appreciated.

In the spirit of keeping you in the loop, I have attached a document with 453 confidential home addresses to various individuals in the City of Flint. For these addresses, we have asked each landlord to be sure to install water filters for tenants living at these locations. While we anticipate most landlords have made contact and installed water filters, our team will be doing some follow-up during the week of February 2nd to ensure landlord compliance.

At this time, we don't need anything, I simply wanted to make you aware that MSHDA had communicated with landlords associated with these distinct 453 units and asked them to install filters and we'll be following up in a week's time to ensure that has been completed. As you know, we distributed nearly 1,500 of the 2,000 filters last Saturday to our larger complex units – you should have that spreadsheet as well. The remaining 500 filters have been and will be used for these said addresses. I had promised to get you those addresses last week and I am just following up with that information now.

Thank you for your time,

Brian Mills

Flint, MI

Dear Jay:

I enjoyed talking with you today about the possibilities with the Seychelle Advanced Filter Bottle which takes out all of the contaminants in drinking water. Seychelle has just been approved by FEMA and we are in the process with GSA as a potential supplier for disaster relief with other government agencies with a superior water filtration system in a bottle that takes all of the contaminants out on the EPA list for drinking water.

I would like to introduce you to Seychelle Water Filtration Products as we have been in business since 1998 with 17 years of experience. We are a fully licensed and insured **Small Business** serving all of the United States as well as overseas. We are a company working in the field of portable water filtration bottles with breakthrough technology that takes all of the contamination out of drinking water, not just lead that is on the EPA list noted on our website and as stated in the capabilities statement with a link to the website. What you don't know is that there are usually more contaminants in the water than municipalities realize. We have sold over 7.5 million filters products to-date in a variety of containers; but primarily bottles.

This is unmatched by anyone in the business as they only take out primarily chlorine, taste and odor (CTO) and a few other contaminants, This is the primary reason people purchase bottled water (don't like their tap water) which is a single use bottle that ends up in a land fill. All Seychelle products are Biodegradable, BPA free, are non-toxic and do not leach as bottle water plastic (PET) does. Our plastic bottles are LDPE.

We have developed lasting relationships with numerous qualified businesses which include customers and vendors. This includes having an outstanding reputation with city and state agencies. Since we are a publicly traded (OTCQB/SYEV) company, this includes the SEC since we are required to file quarterly reports. Importantly we are approved by FEMA and in the process of being approved by GSA to make this contact with you.

We would sincerely appreciate working with you on your current drinking water disaster as well as your future ventures and look forward to your association with us.

In this regard, We are sending under separate cover, 2 bottles for you to try with the contaminated drinking water that Flint MI residents are having to deal with now. Included in the bottle shipment that you should receive on Monday, will be some recent research on the viability of our proprietary filter technology prepared

by our President, Carl Palmer. Be sure to follow the directions with the bottles as the filters in the bottles are shipped dry and you have to get them wet to be able to use them. Each bottle is equal to 750 1/2 liters of bottle water which makes the product very economical compared to bottled water.

I will call you next Tuesday to make sure you received the two bottles and research on Monday. Hopefully you will have had a chance to test them during this time of need. Please view our attached government targeted capability statement as well.

Regards,

Jim Place

Subject: Ennis Center for Children

Good Evening,

The State of Michigan is requiring all foster homes to have documented proof that water filters are installed in every home inside the city of Flint. As a foster care and adoption agency, Ennis Center for Children would like to make it as easy as possible for all foster families to have access to water filters and their replacement cartridges. Ennis Center would like to apply to be a distribution site for these items, specifically. In addition to providing easy access for foster families who are regularly in our building, we are located steps from the main terminal of MTA, allowing easy access to many other families who may need assistance.

If you have any questions regarding this request, please do not hesitate to contact me using the information listed below.

A technical glitch prohibited the forwarding of the email earlier.

FYI-I WILL SEND THE NOTIFICATION VIA OUTLOOK.

1) If you cannot access Skype, please use the attach copy of the presentation for the visual and the telephone bridge for the audio.

2) Information for Telephone Bridge-You can attempt to access the bridge approximately 15 minutes before the start of the webinar at 1:30 PM EASTERN TIME.

Confirmation Number:

Dial in Number:

Participant Access Code

3) The webinar starts at **1:30 pm Eastern Time and will end at approximately 3:30 pm Eastern Time.**

4) I will join Skype at approximately 12:30 pm Eastern Time, therefore, it will give participants an opportunity to determine if they will use the attached copy of the presentation **or** view it via Skype. **I MUST JOIN SKYPE BEFORE YOU CAN SEE THE PRESENTATION. REMEMBER THE WEBINAR STARTS AT 1:30 PM EASTERN TIME. BUT I AM JOINING SKYPE EARLY.**

5) If you access Skype(scroll down to see link), please do the following:

Select don't join audio if you are asked if you want to join the Meeting Audio. Currently, this feature is not supported.

The **Instant Message feature is disabled**; therefore, please **do not attempt to use it** during the webinar.

The **video feature is disabled**; therefore, please **do not attempt to use it** during the webinar.

→ Join Skype Meeting

This is an online meeting for Skype for Business, the professional meetings and communications app formerly known as Lync.

Help

Dear Grantees:

This email is a follow-up to the notification regarding the HMEP Application Webinar dates. We are conducting a **free webinar training session** on the application process for the Hazardous Materials Emergency Preparedness (HMEP) grant and the significant changes to the grant that were made in the Fixing America's Surface Transportation (FAST) Act.

Even though the webinar will be recorded, closed-captioned, and placed on the PHMSA website and U.S. DOT YouTube, we encourage the programmatic and financial members of your staff to participate in the webinar.

Please follow the instructions included below to register to participate in the webinar.

Title: **PHMSA HMEP Grant Program Grant Application Development Webinar for States and Territories**

Date: January 20, 2016

Time: 1:30 p.m.-3:30 p.m. Eastern Time

The HMEP Grant Program's application process opens on February 1, 2016, and applications are due no later than May 2, 2016 at 11:59 PM Eastern Time. In this webinar, we will discuss:

- Overview of Program
- PHMSA Grant Schedule
- Changes to the HMEP Grant Program
- Pre-Application Needs Assessment
- Grant Application Guidance
- Budget Process
- Common Mistakes
- Question and Answer Session

If you intend to participate, when you accept the invitation please provide the information requested below for each individual requiring a line on the telephone bridge. If the staff plans to request one line to access the telephone bridge, you should provide the contact information for the individual designated to receive the telephone number and code required to access the audio for the webinar. Also, we need to know the number of individuals joining the Skype Meeting from a separate system. The information must be provided no later 3:00 PM Eastern Time on January 14, 2016 to suezett.edwards@dot.gov.

THE MAXIMUM NUMBER OF PARTICIPANTS FOR SKYPE FOR BUSINESS IS 250; THEREFORE, WE ENCOURAGE YOUR STAFF TO JOIN SKYPE FROM A CENTRALIZED LOCATION.

Name

Title
Organization
Telephone Number
E-mail Address
City, State

Number of lines required on the Telephone Bridge

Number of individuals joining the Skype Meeting from a separate system

Please be advised we are using Skype for Business instead of Microsoft Office Live Meeting for the webinar. Therefore, please follow the Skype for Business guidance included in this invitation. Also, if you have any questions regarding Skype for Business, Suezett Edwards can be contacted by email at suezett.edwards@dot.gov or by phone at 202-366-4863.

1) The organizer must join the webinar before the participant can join. Therefore, the organizer will join the webinar prior to 1:00 PM. Please join the webinar **between 1:00 PM and 1:30 PM by selecting Join Skype Meeting. If possible, you should try to join it at least 15 minutes before the start of the webinar.** Therefore, you can verify you have access prior to the start of the webinar.

2) You must select **don't join audio** when asked if you want to join the Meeting Audio. Currently, this feature is not supported. Therefore, you must use the telephone number and code provided for the telephone bridge to access the audio for the meeting. The information for the telephone bridge will be forwarded prior to the January 20, 2016 webinar.

3) Skype for Business Web App is a browser-based meeting client that you use to join Skype for Business meetings. You can't schedule a meeting from Skype for Business Web App, but you can join a meeting that was scheduled using either Microsoft Outlook or Skype for Business Web Scheduler.

TIP -You don't need to download or install any apps to join a meeting with Skype for Business Web App. Just select **Join Skype Meeting** in the email or calendar meeting request you received. If the computer you're using doesn't have Skype for Business installed, a browser window opens and you can join the meeting.

Thank you.

Hi Richard, I'm being asked if the locations such as Housing Commission, Job Corp those on this list can also go to the warehouse for filters and replacement filters.

All were given Brita and now need PUR as its been 3 months.

Previously they were calling Matt Purcell at GCCARD to get what they needed for the residents.

Job Corp called today and is waiting on a response.

Does this answer Jay's questions? I have also asked about a contact at MISHDA to determine the number of Section 8 homes in affected area.

Subject: Flint Apartments in Need of Filters

Dear Outreach Unit Manager Galbreath:

First and foremost, thank you for speaking with me today when I stopped by your office. I appreciate your quick attention to my inquiry.

Pursuant to our follow up conversation later this afternoon, attached (in excel and or as a pdf) is a listing and status report of the various apartment/housing complexes that utilize Flint municipal water that have a direct connection with the State of Michigan through various financing programs associated with the Michigan State Housing Development Authority (MSHDA).

We have outreached to most of these properties and have identified which ones we believe need additional attention by ways of delivery of filters to affected tenants. As I indicated over the phone, we would like to coordinate a team of dedicated state employees from MSHDA that stand ready to pick up and deliver filters to these properties immediately with your permission.

If at all possible, if you could review this list and let me know if and when our team could pick up the filters and deliver them to these units, it would most helpful. Please know that MSHDA is willing to pay for these filters as well if it means getting access to them quicker. We can pick them up wherever is quickest to acquire them.

Look forward to hearing from you tomorrow. Please contact me directly if you have any questions.

Respectfully,

Brian Mills

Carly,

Attached is the January 15, 2016 quarterly progress report for the work to repair the retention treatment basin in Oakland County that was damaged as a result of the Aug 11, 2014 rain event.

Our contractor has been busy working through December and January and has all of the new actuators installed as well as various electrical repairs completed.

Please let me know if you have any questions.

Subject: DR-4195 Quarterly Report

All:

Our records indicate your jurisdiction currently has an open large project (total cost over $120,000) resulting from presidentially declared disaster, DR-4195. Per the signed grant agreement, your jurisdiction must submit a quarterly progress report for all open large projects. Only one report should be submitted listing all open large projects.

Attached is a copy of the new quarterly progress report. The completed report should be emailed to MSP-EMHSD@michigan.gov **no later than January 15.**

If you have questions on the open projects your jurisdiction should be reporting on, please contact us as soon as possible.

Thank you,

Hi Anne,

Great to hear from you. Thank you for reaching out. Since we expect this crisis to continue as long as our infrastructure requires massive upgrades, we hope to establish a sustainable supply line of water and NSF certified filters for Flint residents.

For large donations of water, the State Emergency Operations Center has a large warehouse on Clio Road. I have included the emergency operations center contact in this email.

For monetary donations, we are directing people to the Flint Child Health and Development Fund administered by the Greater Flint Community Foundation: https://www.cfgf.org/cfgf/GoodWork/FlintArea/WaterCrisis/tabid/855/Default.aspx

Let me know if you would like more information.

Thank you,

Subject: Re: City of Flint - Water Issue

Good Afternoon all. Sorry for the delay in getting back to you. I have heard from FEMA after the Holidays and they have 2 million liters of water available right now. Perhaps we should try to get together briefly on the telephone to discuss. I understand that our office in Michigan has secured free transportation for this water, the problem may be storage.

Can someone get on the telephone yet today? Tomorrow I will be out of pocket for most of the day, although I could get on the telephone before 10 am.

Thanks.

On Mon, Dec 21, 2015 at 10:01 AM, Jamie Gaskin <jgaskin@unitedwaygenesee.org> wrote:

Scott:

Thanks for reaching out. The United Way has been purchasing between 3-4 trucks of water each month. The last several trucks have been "free" surplus water from locations in Maryland and I believe we have a connection with water in North Carolina.

Our only cost is shipping. We can ship for a very inexpensive cost from the east coast but the shipping cost pushes up if we transport from south or west.

Bill Kerr, FoodBank of Eastern MI CEO has taken the lead on the logistics and coordination of all this water. It has been critical to pace deliveries so we can have storage space and smooth local distribution.

The United Way of Genesee County has been picking up the cost for this transportation and any purchasing costs.

Please connect directly with Bill Kerr on the water you have and the availability. I have cced him into this email. Thanks so very much!

Hi Scott –

I tried to call you this morning. Thank you for reaching out and trying to assist Flint during this water crisis. Jamie Gaskin, United Way Executive Director, is taking the lead on water and filter distribution here in Flint. He would have the best information on what the community still needs. I have copied him on this email and his phone number is 810.762.0856. The United Way is also currently covering the transportation costs for the surplus water that Flint is getting from FEMA.

Please let me know if you need anything else from our office. I have a bust schedule today but if you call me on my cell, I can step out of the meeting and take your call (810.241.3864).

Thanks!
Amy

Subject: City of Flint - Water Issue

Good Evening Amy. I wanted to introduce myself and my organization to you tonight. I got your information from the Congressman's Chief of Staff, Jennifer. I can assist you with water needs in Flint, in both now and for the future. In order to proceed, I need to know what the needs immediately are for Flint. This will start the process to acquire the water and begin to work on transportation.

For your general information, I have attached some information about the Program and NASASP. Please let me know as soon as possible what you need and I would be happy to assist you in getting the water. Feel free to email or call me at the numbers listed below.

Best Wishes.

Universe: Population 5 years and over
2010-2014 American Community Survey 5-Year Estimates

Supporting documentation on code lists, subject definitions, data accuracy, and statistical testing can be found on the American Community Survey website in the Data and Documentation section.

Sample size and data quality measures (including coverage rates, allocation rates, and response rates) can be found on the American Community Survey website in the Methodology section.

Although the American Community Survey (ACS) produces population, demographic and housing unit estimates, it is the Census Bureau's Population Estimates Program that produces and disseminates the official estimates of the population for the nation, states, counties, cities and towns and estimates of housing units for states and counties.

Translation made (too many printed?)

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using multi-year data containing data from 2013.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is the 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.

Methodological changes to data collection in 2013 may have affected language data for 2013. Users should be aware of these changes when using multi-year data containing data from 2013.

While the 2010-2014 American Community Survey (ACS) data generally reflect the February 2013 Office of Management and Budget (OMB) definitions of metropolitan and micropolitan statistical areas; in certain instances the names, codes, and boundaries of the principal cities shown in ACS tables may differ from the OMB definitions due to differences in the effective dates of the geographic entities.

Estimates of urban and rural population, housing units, and characteristics reflect boundaries of urban areas defined based on Census 2010 data. As a result, data for urban and rural areas from the ACS do not necessarily reflect the results of ongoing urbanization.

Source: U.S. Census Bureau, 2010-2014 American Community Survey 5-Year Estimates

Explanation of Symbols:

1. An '**' entry in the margin of error column indicates that either no sample observations or too few sample observations were available to compute a standard error and thus the margin of error. A statistical test is not appropriate.
2. An '-' entry in the estimate column indicates that either no sample observations or too few sample observations were available to compute an estimate, or a ratio of medians cannot be calculated because one or both of the median estimates falls in the lowest interval or upper interval of an open-ended distribution.
3. An '-' following a median estimate means the median falls in the lowest interval of an open-ended distribution.
4. An '+' following a median estimate means the median falls in the upper interval of an open-ended distribution.
5. An '***' entry in the margin of error column indicates that the median falls in the lowest interval or upper interval of an open-ended distribution. A statistical test is not appropriate.
6. An '*****' entry in the margin of error column indicates that the estimate is controlled. A statistical test for sampling variability is not appropriate.
7. An 'N' entry in the estimate and margin of error columns indicates that data for this geographic area cannot be displayed because the number of sample cases is too small.
8. An '(X)' means that the estimate is not applicable or not available.

Mike Sobocinski's notes on January 13, 2015 - 2nd daily SEOC briefing (4:00pm):

MSP SEOC (Brianna Briggs): leads the meeting: Agency situation reports are due by 6pm. "Tomorrow is a planning day." [No explanation for this statement was provided.] Agencies, be sure to update 204 forms tactics, especially pods, teams, warehouses, etc.

(Health and Environmental Branch, next few agencies) MDHHS Community Health (Kathy Wahl [sp?]): Working on nutritional plan with several other agencies. Lori ([Laura?]) Sempler ([sp?]) will be the lead on that plan. Disaster behavioral health coordination is occurring, with CHECC exploring options, checking with DTAC at SAMSA [references not explained], targeted to Stafford Act qualifications. (Capt. Kelenske: does it qualify under an emergency such as this? This needs to be verified.) Some wording changes were suggested for the fact sheet.

MDARD (Brad Deacon): Mailing out food establishment requirements—about 800 of them.

MDEQ (Jen Wolf): Conversation about bringing more health people into the ([local?]) EOC.

M???: Two of the 5 trucks loaded with water filters are at the GCCARD. 10,700 filters, [two other large numbers were given for other types of resource there, rattled off too quickly for my poor & tired writing hand to keep up with]

American Red Cross (Paul Spata): Staffing fire station points of distribution. Further coordination with MI National Guard (MING) on staffing. Volunteer reception center was up today; numbers to be reported in the sit rep tonight. Fielding a request to feed field response teams.

MDHHS (Brian Wilson): Their volunteers are still in the field. Heard concerns about some IPads not functioning in the cold, then seemed to work better? Awaiting confirmation of replenished stock.

Offices of Services on Aging (Steve Betterly): Valley Area Agency on Aging has been fielding calls. Something fell apart regarding the schedule of water/filter deliveries—need to get in touch with local EOC on this. (Brian Wilson: probably fixed last night.) (Michelle Kuzera?: Local EOC confirms follow-up to occur [She disappears from phone suddenly, not to reappear]).

Capt. Kelenske: Any more personnel needed by the Sheriff's department for deliveries?

[Unknown replacement on phone from local EOC]: Being handled okay by the locals so far.

Capt. Kelenske: Consider replacing sheriff staff with area health and social work specialists, to better match staff with their expertise and free up sheriff personnel for their normal duties. (Services on Aging ([Steve?]): off-duty teams are available to help with phone lines and resource distribution.)

MSP: Working with MDOT for shuttle vans, working with Public Affairs re: state agency volunteers for the weekend.

MI National Guard (Colonel Reynolds): full-time staff at each of the 5 "pods." Friday morning 9am will resume handing out water at the pods. MING needed 33 volunteers, and actually

obtained 48. (Capt. Kelenske: Any feedback on public reaction or questions re: MING soldier presence? A: not known.)

MDTMB (Jeannette Doll): A warehouse has been located at another site. Red Cross and MSP Wendy Galbreath are checking it out as a replacement for the other site that had problems (Court Street school district site). Stuff is to be moved from the old to new site. Based upon truck loads, will be maintaining 8 truck loads per day through Saturday, available on Sunday too, if needed. 117,000 filters coming in, and 139,000 faucet (founts???). Tablets are coming in tonight to the EOC for GIS staff to download an app, then going to Flint in the morning. Information cards sent to Flint. 15 trucks are waiting. (Capt. Kelenske: They must offload somewhere and not wait.) Only 1 loading dock at each facility. Court Street won't work—told that it was vacant and had 80,000 square feet, but it was full. (Someone on phone, Jackie Hampton perhaps?, later announces that the site will be available tonight, after all. Commissioner Curtis had prompted warehouse emptying which is allowing trucks to be moved there now. Equipment and staff available to unload, with warehouse reportedly able to be cleared out tonight. A Dort Highway location is being investigated for suitability.)

Local EOC (unknown person): Information entry and radio channels? seem good. Only the issue of supplies waiting on the road (presumably on trucks or in transport) must be cleared up.

MSP SEOC Logistics (Penny Burger): Working on trailers and vehicles from Department of Corrections, for door-to-door campaign. Coordinating with MSP for Thursday and Friday volunteers. Financial analysis being finished up—to be reviewed first by Captain Kelenske before submission.

MSP SOEC Planning (Zach Baker? Couldn't see across room.): Progress on tracking inventory. Sit reps due at 6pm.

MSP SEOC Recovery Team (Kriste Davis): Some numbers may not be in yet—issue of paper substitute for frozen IPads. 394 homes were visited yesterday, plus 378 more today, possibly more, once additional reports are processed. Even if number appears lower today, there was a smaller number of vacant homes today, so the actual number of inhabited homes is higher today. Working with the Red Cross this weekend for teams. Monday is a holiday. (Capt. Kelenske: Any info on community reaction? A: No info yet.)

JIC/PIO (Shannon Banner?): Media hotline saw a markedly increased number of calls, although it was not overloaded. Some media questions need answers to come from the SEOC. Good collaboration with 2-1-1, county, and state agency PIOs. Could use the local PIO today, though. From 11:30a to 12:30p there was a media briefing at fire station #3—very good media turnout, positive in tone. Waiting for the logo approval (from local and county) for the response team. (Capt. Kelenske: How is 2-1-1 doing—being monitored for success of call handling, good staffing levels, etc.? Nicole Lisabeth [JIC/PIO]: 2-1-1 is going well.

(Phone discussion regarding Legionnaire's disease report—unclear who the participants were.)

Capt. Kelenske: DHHS will handle those Legionnaire's-related questions through separate, normal channels, not through the SEOC or local EOC but through other channels, as a separate matter.

SEOC Planning Brianna Briggs: The next briefing will be tomorrow at 9:30am.

Map of Flint homicides 2010-2012

Survey major agencies to compile list of the "deliverables" requested by Capt.

MSP SEOC Ops: 1. ~~Keep~~ Deliver those to Fire Stations in Flint water, filters, spt cartridges, water test kits
Jackie H 2. Send teams into Flint next week – door to door deliver test kits and info but also have filters + replacement cartridges
3. Stand up Donations Management (Jenna Holmes DHHS MCSC)
4. Stand up Volunteer Mgmt (Chad Veesser DHHS, MCSC)

MSP SEOC GIS: 1. Map of filter locations (homes/bldg) where recipients live Nikkia: "map point of distribution for filters (e.g. Fire depts, HHS offices, service agencies)
Matt M Nikkia M

MSP SEOC finance: 1. Provide Cost accounting info to MMSP staff.
2. Give info to state agencies re: tracking time, provide support docu for resource requests.
3. Track SEOC staffing + related costs, to produce spend plan.

MSP SEOC logistics: "the buck doesn't stop here" tasks reassigned through logistics Obtain fire station addresses for Flint
Feling B.

DHHS: no specific requests known so far

DTMB: no specific
Jeannette Fair

DARD: no specific items reported

ARA: no specific items known

EQ (MPP) 1. Presence in Local EOC A: 1 present, 2 more available tomorrow avail then next week
Jon Wolf 2. ~~Coordination by Cindie's Team to fill resource requests~~

SEOC Planning: Situ rep daily
IAP weekly
Summary of GIS products, water distribution statistics to date/effective

RICK SNYDER
GOVERNOR

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

City of Flint
October, 2015
Quarter Water Quality Report

The Quarterly Water Quality Report provides important information about your drinking water. This report includes information about the water source, current drinking water issues, lead information, water filters, testing, 3rd quarter news, and temporary expectations when changing water sources. The City of Flint Department of Utilities is dedicated to providing quality drinking water to the residents of the community. The Flint Water Plant operates and maintains a certified drinking water laboratory to assure compliance with all state and federal regulations, and is committed to prompt and thorough notification to the consumers if there is any reason for concern about the quality of the drinking water. Information about your drinking water is available on the City of Flint web page at www.cityofflint.com or by calling the City of Flint Water Plant at **(810) 787-6537**. The Safe Drinking Water Hotline at **(800) 426-4791** is a resource for health related questions and water quality issues. General drinking water information can also be found on the U.S. Environmental Protection Agency (EPA) web site at www.epa.gov/safewater/.

Water Source

The City of Flint began using the Flint River as a water source in May of 2014. After 16 months of treating water from the Flint River, the City became aware that the level of corrosiveness found in Flint River water could result in more lead leaching from service lines and household plumbing. Reports of elevated blood lead levels in children and expert analysis resulted in the City's Technical Advisory Committee making a recommendation to return to the previous source of water while waiting for the KWA to provide water from Lake Huron.

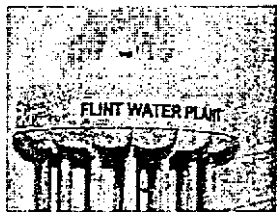
On Friday October 16th, 2015, with the consent of Governor Snyder, the City returned to Detroit as the primary source of drinking water. The decision, along with the Technical Advisory Committee's recommendation followed two consecutive lead and copper test periods that exceeded 5ug/L which calls for additional action. In addition to the switch, the City has submitted a final corrosion control design to the DEQ for comments and approval. The City has requested to use the corrosion control as an additive to treated water it will be required when the city begins treating raw water from the Karegnondi Water Authority which is anticipated to begin in the summer of 2016.

In order to make the transition possible, the City contributed $2 Million dollars, the Mott Foundation contributed $4 Million dollars, and the State of Michigan contributed $ 6 Million dollars.

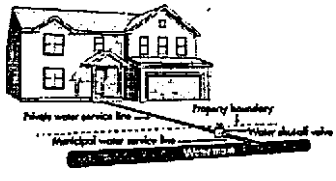
Current Drinking Water Issues & Lead Information

There has been a heightened awareness of lead leaching into drinking water through service lines and household plumbing. The City's Technical Advisory Committee has enlisted the support of EPA lead experts and is working with State of Michigan representatives to increase testing, rebuild public confidence, and implement long-term solutions to lead. It is recommended that everyone get their water tested, obtain a water filter, and check with a plumber to evaluate the type and condition of your household plumbing. The City is currently mapping all of its lead service lines and working to develop a program to get lines changed over time.

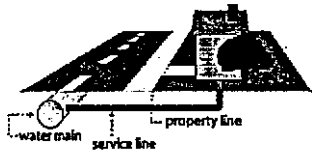
If present, elevated levels of lead can cause serious health problems, especially for pregnant women and young children. Lead in drinking water is primarily from materials and components associated with service lines and home plumbing. The City of Flint is responsible for providing high quality drinking water, but cannot control the variety of materials used in plumbing components. When your water has been sitting for several hours, you can minimize the potential for lead exposure by flushing your tap for 5 minutes before using water for drinking or cooking. If you are concerned about lead in your water, you may wish to have your water tested. Information on lead in drinking water, testing methods, and steps you can take to minimize exposure is available from the Safe Drinking Water Hotline or at http://www.epa.gov/safewater/lead.



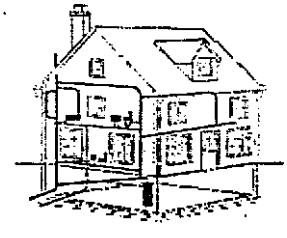
No lead in water leaving the Treatment Plant.



Little or no lead in water in the transmission mains.



Lead can leach into water through service lines.



Lead can leach into water through household plumbing.

Water Filters & Testing

Free water filters have been made available to current Flint residents at several locations. The MDHHS and the Genesee County Community Action Resource Department (GCCARD) are providing Free National Sanitation Foundation certified water filters at the following locations.

Residents receiving MDHHS assistance are encouraged to visit either the **125 E. Union St.** or **4809 Clio Rd. MDHHS** office location to obtain a free, certified home water filter. Residents who are not currently enrolled in MDHHS assistance programs should visit the (GCCARD) offices located at **2727 Lippincott** and **601 N. Saginaw** in Flint.

Staff will be onsite at all four locations from **9 a.m. to 4 p.m., Monday through Friday**, to distribute filters and assist residents who have questions about proper installation.

If you want more information on obtaining a water filter, please call 211.

Other suggestions related to water safety and testing:

- We recommend that everyone get their water tested. Call us at (810)-787-6537.
- Contact the Health Department about having your child's blood tested (810)-257-3612.
- It is advisable to have a plumber check your household plumbing.
- Check your faucet aerator (large lead solder particles can occasionally get lodged in here).

Temporary issues to be aware of when Changing Water Sources

Changing water sources back to Detroit will not fully eliminate the lead concerns. The potential for lead to leach off of certain water service lines or household plumbing will continue to exist regardless of the water source. The City is committed to increased testing, better communication, and developing a lead service line map to identify all of the City owned lead service lines.
As the city changes water sources you can expect the following:

- It could take up to three weeks for the switch in water source to reach all taps in the City.
- Over the next several weeks, we will be winterizing our hydrants which will result in discoloration of the water but will also help accelerate the water flowing through the system.
- Lead will continue to leach off of certain service lines and household plumbing.
- Main breaks could result as a change in source water occurs.
- Water could have discoloration or cloudiness, if this happens, run your faucet until the water clears, if this lasts longer than 20 minutes please report it to our water service center at (810)-766-7202.

Water Timeline

A timeline of events, beginning with signing the KWA contract leading up to the current status of switching back to our previous source of water is available on the City website and can be found by visiting the "water" page located under "residents". Please email flintwater@cityofflint.com with your questions or to request a water test or, call the Water Plant at (810)-787-6537.

3rd Quarter News

July

- Completed the evaluation of over 8000 valves in the system and identified over 2300 that are currently inoperable. The repair of these valves will be budgeted and worked into our multi-year Capital Improvement Plan.

August

- Successfully completed the installation of Granulated Activated Carbon at the water treatment plant which reduced the TTHM level in the water and helped bring the City back into compliance with the Safe Drinking Water Act.

September

- Leak Detection on all 600 miles of the distribution system has started and is over halfway complete. Several dozen leaks have been identified and repairs continue as more leaks are found. This has decreased the amount of water loss existing in the system.
- Construction of a load out facility at our wastewater plant is on target for completion by November and will allow the City to eliminate the use of the incinerator resulting in significant annual savings.
- Over 3500 new water meters have been installed this year creating better accuracy, accountability, and decreasing the number of estimated reads on water & sewer bills.

2015 3rd Quarter Regulated Detected Contaminants – **Flint River as Source**

Inorganic & Organic Chemicals, Metals, and Pesticides – Monitored at treatment plant						
Regulated Contaminant	Unit of Measure	MCLG	MCL	Highest Level Detected	Range of Detection	Violation
Inorganic Chemicals						
Fluoride	mg/L	4	4	0.84	0.64 – 0.84	No
Nitrate	mg/L	10	10	N.D.	N/A	No
Metals						
Barium	mg/L	2	2	0.02	N/A	No

More than 100 other chemicals were monitored from July through September that were not detected.

The various classification groups of these chemicals include metals, carbamates, herbicides, pesticides, organics, and radiologicals.

Total Organic Carbon, TOC - Monitored at treatment plant			
Regulated Contaminant	Required Monthly % Removal	Minimum Monthly % Removal	Monthly % Removal Ranges
Total Organic Carbon	50	60	60 - 87

Turbidity - Monitored at treatment plant		
Highest Single Measurement (Cannot exceed 1NTU)	Lowest Monthly % of Samples Meeting Turbidity Limit (0.3 NTU in 95% of samples)	Violation
0.18	100 %	No

Disinfectant Residuals – Monitored in the distribution system						
Regulated Contaminant	Unit of Measure	MCLG	MCL	Highest Level Detected	Range of Detection	Violation
Total Chlorine Residual	mg/L	4.0	4.0	4.0	0.2 – 4.0	No

Microbiological Contaminants - Monitored in the distribution system				
Regulated Contaminant	MCLG	MCL	Highest Number detected (in 1 month)	Violation
Total Coliform bacteria	0	The presence of coliform bacteria in > 5% of monthly samples	1	No
E. coli Bacteria	0	0	0	No

Lead & Copper – Monitored from consumers tap					
Regulated Contaminant	Unit of Measure	MCLG	Action Level AL	Number of samples over AL	Total # of Samples Tested from January - September
Lead	ug/L	0	15	16	189
Copper	mg/L	1.3	1.3	0	189

Disinfection By-Products - Monitored in the distribution system and from treatment plant						
Regulated Contaminant	Unit of Measure	MCLG	MCL	Highest Level Detected	Range of Detection	Violation
Total Trihalomethanes (TTHM)	ug/L	n/a	80	90.3	42.6 – 90.3	N/A*
Haloacetic Acids (HAA)	ug/L	n/a	60	15.0	2.0 – 15.0	N/A*
Bromate	ug/L	10	10	N.D.	N/A	N/A*

*Violation based on locational running annual average for TTHM & HAA5, violation for bromate based on yearly average.

Key to the Detected Contaminant Tables		
Symbol	**Abbreviation for**	**Definition/Explanation**
>	Greater than	
AL	Action Level	The concentration of a contaminant, which, if exceeded, triggers treatment or other requirements which a water system must follow.
HAA5	Haloacetic Acids	HAA5 is the total of bromoacetic, chloroacetic, dibromoacetic, dichoroacetic, and trichloroacetic acids. Compliance is based on the total .
LRAA	Locational Running Annual Average	
MCL	Maximum Contaminant Level	The highest level of a contaminant that is allowed in water. MCLs are set as close to the MCLG's as feasible using the best available treatment technology.
MCLG	Maximum Contaminant Level Goal	The level of contaminant in drinking water below which there is no known or expected risk to health.
mg/L	Milligrams per Liter	A milligram = 1/1000 gram 1 milligram per liter is equal to 1ppm
MRDL	Maximum Residual Disinfectant Level	The highest level of disinfectant allowed in drinking water. There is convincing evidence that addition of a disinfectant is necessary for control of microbial contaminants.
MRDLG	Maximum Residual Disinfectant Level Goal	The level of a drinking water disinfectant below which there is no known or expected risk to health. MRLDG's do not reflect the benefits of the use of disinfectants to control microbial contaminants.
n/a	Not Applicable	
ND	Not Detected	
NTU	Nephelometric Turbidity Units	Measures the cloudiness of water.
pCi/L	Picocuries per Liter	A measure of radioactivity. Picocurie (pCi) means the quantity of radioactive material producing 2.22 nuclear transformations per minute.
ppb	Parts Per Billion (one in one billion)	The ppb is equivalent to micrograms per liter. A microgram = 1/1000 milligram.
ppm	Parts Per Million (one in one million)	The ppm is equivalent to milligrams per liter. A milligram = 1/1000 gram.
RAA	Running Annual Average	
TT	Treatment Technique	A required process intended to reduce the level of a contaminant in drinking water.
TTHM	Total Trihalomethanes	Total Trihalomethanes is the sum of chloroform, bromodichloromethane, dibromoochloromethane and bromoform. Compliance is based on total.
ug/L	Micrograms per Liter	A microgram = 1/1,000,000 gram 1 microgram per liter is equal to 1ppb
